REPORTS

Are Ions Involved in the Gating of Calcium Channels?: Y. Saimi and C. Kung

Bilirubin-Induced Modulation of Cerebral Protein Phosphorylation in Neonate Rabbits in vivo: L. Morphis et al.

Calanoid Copepods, Feeding Currents, and the Role of Gravity: J. R. Strickler

Suppression of Ovulation in the Rat by an Orally Active Antagonist of Luteinizing Hormone-Releasing Hormone: M. V. Nekola et al.

Complete Amino Acid Sequence of Urotensin I, a Hypotensive and Corticotropin-Releasing Neuropeptide from Catostomus: K. Lederis et al.

Reversal of Morphine Disruption of Maternal Behavior by Concurrent Treatment with the Opiate Antagonist Naloxone: R. S. Bridges and C. T. Grimm

Male Lek Formation and Female Calling in a Population of the Arctiid Moth Estigmene acrea: M. A. Willis and M. C. Birch

Ecological Correlates of Paternal Investment of Urates in a Tropical Cockroach: C. Schal and W. J. Bell

Serial Position Curve in Rats: Role of the Dorsal Hippocampus: R. P. Kesner and J. M. Novak

Postural Asymmetry and Movement Disorder After Unilateral Microinjection of Adrenocorticotropic 1-24 in Rat Brainstem: Y. F. Jacquet and G. M. Abrams

Focal Cortical Seizures Cause Distant Thalamic Lesions: R. C. Collins and J. W. Olney

Discrimination and Imitation of Facial Expressions by Neonates: T. M. Field et al.

MEETINGS

Gordon Research Conferences: 1983 Winter Schedule: A. M. Cruickshank

COVER

Female calanoid copepod (Eucalanus attenuatus) from the Coral Sea, Australia. This herbivorous planktonic microcrustacean lives in a nutritionally dilute environment. Note the sensor arrays on the outstretched first antennae and the elaborate mouthparts. These animals create feeding currents that help them detect algae. See page 158. [Paul Dixon, Australian Institute of Marine Science, Townsville, Australia]
