LETTERS
Potassium Iodide: Effectiveness After Nuclear Accidents; R. S. Yalow

EDITORIAL
International Science

ARTICLES
Role of Frontier Orbitals in Chemical Reactions; K. Fukui
Cassava: A Basic Energy Source in the Tropics; J. H. Cock
The 1982 Nobel Prize in Physics; P. W. Anderson
The 1982 Nobel Prize in Physiology or Medicine; J. A. Oates

REPORTS

Deep Circulation of the North Atlantic over the Last 200,000 Years: Geochemical Evidence: E. A. Boyle and L. D. Keigwin ........................................ 784

Beryllium-10 in Australasian Tektites: Evidence for a Sedimentary Precursor: D. K. Pal et al. ................................................................. 787

Discovery of a Large-Magnitude, Late Pleistocene Volcanic Eruption in Alaska: J. A. Westgate ................................................................. 789

Bacterial Bioluminescence: Isolation and Expression of the Luciferase Genes from Vibrio harveyi: R. Belas et al. ........................................ 791

Complex Venation Patterns in the Leaves of Selaginella: Megaphyll-Like Leaves in Lycophytes: W. H. Wagner, Jr., J. M. Beitel, F. S. Wagner ....... 793

Heterotrophic Bacteria and Bacterivorous Protozoa in Oceanic Macroaggregates: D. A. Caron et al. ................................................................. 795

Odor Quality: Semantically Generated Multidimensional Profiles Are Stable: A. Dravnieks ........................................................................ 799

Color Vision Is Altered During the Suppression Phase of Binocular Rivalry: E. L. Smith, III et al. ................................................................. 802

Rotational Invariance in Visual Pattern Recognition by Pigeons and Humans: V. D. Holland and J. D. Delius ................................................................. 804

Chemical Mimicry in the Myrmecophilous Beetle Myrmecophodius excavaticollis: R. K. Vander Meer and D. P. Wojcik ......................................................... 806

Lesion-Induced Sprouting in the Rat Dentate Gyrus Is Inhibited by Repeated Ethanol Administration: J. R. West et al. ................................................................. 808

Synchronous Neural Afterdischarges in Rat Hippocampal Slices Without Active Chemical Synapses: C. P. Taylor and F. E. Dudek ................................................................. 810

Technical Comments: Limiting Diameters of Pores and the Surface Structure of Plant Cell Walls: N. C. Carpita; Barrier Islands Revisited: R. Dolan and B. Hayden ................................................................. 813

COVER

Sun-drying cassava chips in Thailand. See page 755. [C. Hershey, Centro Internacional de Agricultura Tropical, Cali, Colombia]
