E is published weekly on Friday, except the last week in December, by the American Association for the Advancement of Science, 1515 Massachusetts Avenue, NW, Washington, D.C. second-class postage (publication No. 464460) paid at Washington, D.C., and at an additional entry. Now combined with The Scientific Monthly®. Copyright © 1983 by the American Association for the advancement of Science. Domestic individual membership and subscription (61 issues): $48. Domestic institutional subscription (61 issues): $85. Foreign postage extra: Canada $24, other (surface mail) 35. First class, airmail, service and rates on request. Single copies $2.50 (53 by mail); back issues $3 ($3.50 by mail); Biotechnology issue, 5 ($5.50 by mail); in rates on request. Change of address: allow 6 weeks, giving old and new addresses and seven-digit account number. Authorization to photodupli material for internal or personal use under and notices not tending within the Fair Use provisions of the Copyright Act is granted by AAAS to libraries and other users registered with the Copyright Clearance Center (GCC) Transactional Reporting Service. that the base fee of $1 per copy plus $0.10 per page is paid directly to CCC, 21 Congress Street, Salem, Massachusetts 01970. The identification code for Science is 0036-8075/83 $1.00. Send Form MTPS to Science, 1515 Massachusetts Avenue, NW, Washington, D.C. 20005. Science is indexed in the Reader's Guide to Periodical Literature and in several specialized indexes.
REPORTS

Plant Cover and Biomass Response to Clear-Cutting, Site Preparation, and Planting in Pinus elliottii Flatwoods: B. F. Swindel, L. F. Conde, J. E. Smith .......................................................... 1421

Pleistocene Sea Levels from Raised Coral Reefs of Haiti: R. E. Dodge et al. .............................................................................. 1423

Residential Firewood Use in the United States: F. W. Lipfert and J. L. Dungan .............................................................. 1425

Activation of 2-Aminofluorene by Cultured Plant Cells: M. J. Plewa et al. ................................................................. 1427

Quaternary Pollen Record from Laguna de Tagua Tagua, Chile: C. J. Heusser ........................................................................... 1429

Spasmodic Tremor and Possible Magma Injection in Long Valley Caldera, Eastern California: A. Ryall and F. Ryall .......... 1432

Salt-Induced Conversion of B-DNA to Z-DNA Inhibited by Aflatoxin B1: A. Nordheim et al. .......................................................... 1434

Regulation of Carcinogen Metabolism in the Rat Ovary by the Estrous Cycle and Gonadotropin: M. Bengtsson and J. Rydström ................................................................. 1437

Overproduction and Elimination of Retinal Axons in the Fetal Rhesus Monkey: P. Rakic and K. P. Riley ........................................ 1441

A Developmentally Regulated Neuraminidase Activity in Trypanosoma cruzi: M. E. A. Pereira .................................................. 1444

Biological Control of Yellow Nutsedge with the Indigenous Rust Fungus Puccinia canaliculata: S. C. Phatak et al. ......................................................... 1446

Cell Growth on Liquid Microcarriers: C. R. Keese and I. Giaever .............................................................................................. 1448

Proglumide: Selective Antagonism of Excitatory Effects of Cholecystokinin in Central Nervous System: L. A. Chiodo and B. S. Bunney ................................................................................ 1449

Midbrain Microinfusions of Prolactin Increase the Estrogen-Dependent Behavior, Lordosis: R. E. Harlan, B. D. Shivers, D. W. Pfaff ............................................................................. 1451

Tolerance Develops to the Disruptive Effects of Δ9-Tetrahydrocannabinol on Primate Menstrual Cycle: C. G. Smith et al. ................................................................. 1453

COVER
Cliff face of a Haitian raised reef (designated as "Mole") dated at 81,000 years ago. Visible in the upper portion are fossil corals (Acropora palmata). See page 1423. [Richard E. Dodge, Nova University Oceanographic Center, Dania, Florida 33004]
