FOR TODAY'S FACULTY AND COLLEGE STAFF MEMBERS' FROM 18 TO 80.

Whether you're thinking retirement or not, review the plan that provides for cash withdrawal and/or a lifetime income.

TIAA-CREF Supplemental Retirement Annuities (SRAs) offer you substantial flexibility including cash withdrawal and/or lifetime retirement income. You can even reduce your income taxes now!

You can begin contributions to an SRA at any age and begin benefits at any age up to age 71 unless you are still employed (then you can delay beginning benefits until age 80). For example, you could start contributions at age 25, and choose to begin benefits or withdraw cash at age 34, 40 or 50, regardless of your employment status.

Get your money at any time.

You can receive benefits as a lifetime income or over a fixed period of from 2 to 10 years. What's more, if you need it (even while employed by your current employer), you can withdraw all the money you have accumulated by surrendering your contracts. Or, you can withdraw $1,000 or more every six months. There is never a cash surrender charge.

Contributions are tax-deferred, so you pay less income taxes now.

The federal income tax on your contributions is deferred until they are paid to you as benefits. So, you pay less tax now.

Changing employers? Take SRAs with you.

Since you own your Supplemental Retirement Annuities, you take them with you if you leave your current employer. You can make contributions through any institution that makes Supplemental Retirement Annuities available to staff members. Contributions can be as little as $25 a month.

Full information.

Complete and mail the coupon for an SRA Information Kit today. You'll get full details about all the advantages SRAs have to offer, why this plan suits so many financial situations and age groups and how much you may contribute to the plan.

*TIAA-CREF provides annuities and other services for employees of colleges, universities, private schools and certain other nonprofit tax-exempt educational and research institutions.

*Outside U.S., $28.95 per copy. Payable in U.S. currency or draft on a U.S. bank. Florida residents add 5% sales tax.
Announcing a major event in science publishing

Current Topics in Chinese Science

Now key scientific research from China is available in the West through this innovative new book series

Now scientists throughout the West can access the major scientific research from today's China. Current Topics in Chinese Science is an annual book series that selectively presents the most important articles of the year from the two leading Chinese scientific journals—Science in China (Scientia Sinica) and Science Bulletin (Kexue Tongbao).

Chinese science offers the world exciting research in areas that cannot, because of geography, be explored by Western science—among them, geology, meteorology, archeology, zoology and botany. In addition, the coverage of medical science, mathematics and physics has enlisted the best minds in China to add to the world's knowledge. Current Topics in Chinese Science carefully selects this research each year and publishes it in volumes individually priced and organized into seven subject areas, to accommodate the reader's special field of interest. Current Topics in Chinese Science will complete the coverage and enrich the scientific collections of libraries and scientists throughout the West. Place your order today.

How can you tell the best from the rest?

The Best Science Films, Filmstrips, and Videocassettes for Children,
Compiled and edited by Kathryn Wolff, Joellen M. Fritsche, and Gary T. Todd
Cloth/156 pp./$12.95

The Best Science Books for Children,
Compiled and edited by Kathryn Wolff, Elina N. Gross, and Joellen M. Fritsche
Cloth/c. 256 pp./$15.95/avail. July 1983

These new books include, respectively, expert evaluations of more than 500 a/v items and more than 1,000 books in the sciences for children ages 5-12. The books and films were picked from thousands reviewed in AAAS's Science Books & Films magazine. They have been recommended by scientists in the appropriate fields who have reviewed them for their accuracy, completeness, clarity, and appropriateness for various audiences. Listings are by subject categories and include all the information you will need for ordering. Both books have multiple indexes, making them easy to use.

Save money!
Order both volumes together for only $24.95. Regular price nearly $29.
