REPORTS

Predicting Eruptions at Mount St. Helens, June 1980 Through December 1982:  
D. A. Swanson et al. .......................................................... 1369

Seismic Precursors to the Mount St. Helens Eruptions in 1981 and 1982:  
S. D. Malone, C. Boyko, C. S. Weaver ................................... 1376

Deformation Monitoring at Mount St. Helens in 1981 and 1982:  
W. W. Chadwick, Jr. et al. ................................................. 1378

Eruption Prediction Aided by Electronic Tiltmeter Data at Mount St. Helens:  
D. Dzurisin, J. A. Westphal, D. J. Johnson .............................. 1381

Gas Emissions and the Eruptions of Mount St. Helens Through 1982:  
T. Casadevall et al. ............................................................... 1383

Petrologic Monitoring of 1981 and 1982 Eruptive Products from Mount St. Helens:  
K. V. Cashman and J. E. Toggart ........................................... 1385

Monitoring the 1980–1982 Eruptions of Mount St. Helens: Compositions and  
Abundances of Glass: W. G. Melson ....................................... 1387

Deep Earthquakes Beneath Mount St. Helens: Evidence for Magmatic Gas  
Transport?: C. S. Weaver, J. E. Zollweg, S. D. Malone .................... 1391

Eruption-Triggered Avalanche, Flood, and Lahar at Mount St. Helens—Effects  
of Winter Snowpack: R. B. Waitt, Jr. et al. .............................. 1394

Stereospecific Action of Pyrethroid Insecticides on the γ-Aminobutyric Acid  
Receptor–Ionophore Complex: L. J. Lawrence and J. E. Casida ............... 1399

A Cellulolytic Nitrogen-Fixing Bacterium Cultured from the Gland of Deshayes  
in Shipworms (Bivalvia: Teredinidae): J. B. Waterbury, C. B. Calloway,  
R. D. Turner ........................................................................... 1401

Cat Scratch Disease: A Bacterial Infection: D. J. Wear et al. ...................... 1403

Carbocyclic Arabinofuranosyladenine (Cyclaradine): Efficacy Against Genital  
Herpes in Guinea Pigs: R. Vince et al. ........................................ 1405

Pregnancy Interruption with a Combination of Prostaglandins: Studies in  
Monkeys: J. W. Wilks .................................................................... 1407

Anisotropies in the Perception of Three-Dimensional Surfaces: B. J. Rogers and  
M. E. Graham ............................................................................. 1409

Territorial Bell Miners and Other Birds Affecting Populations of Insect Prey:  
R. H. Lown et al. ......................................................................... 1411

Is Cytosolic Ionized Calcium Regulating Neutrophil Activation?: T. Pozzan et al. 1413
