Detection of Antibodies to Herpes Simplex Virus with a Continuous Cell Line Expressing Cloned Glycoprotein D: P. W. Berman, D. Dowbenko, L. A. Lasky

COVER

Toad (Scaphiopus multiplicatus) being fed upon by a concealed mud-dwelling fly larva (Tabanus punctifer) that has seized it from beneath. The usual toad-eats-fly paradigm is here strikingly reversed. See page 515. [Thomas Eisner and Stephen Nowicki, Cornell University, Ithaca, New York 14853]
