LETTERS

Advanced Computing: P. J. Fischinger; Relaying the Fork: D. B. Straus;
Cooperation with Japan: J. L. Bloom; Student Scientific Conferences:
P. M. Fausch and A. E. Siegman; Irradiation of Foods: S. S. Epstein and
J. W. Gofman; M. Sun; M. F. Jacobson and D. M. Schechter ............. 1350

EDITORIAL

Education for an Age of Science: R. C. Atkinson ......................... 1355

ARTICLES

Energy Problems in Latin America: J. Goldemberg ...................... 1357
Effects of Cyclosporine Immunosuppression in Insulin-Dependent Diabetes
Mellitus of Recent Onset: C. R. Stiller et al. .......................... 1362

NEWS AND COMMENT

Weighing the Social Costs of Innovation .................................... 1368
Tales of the Tomato Harvester ............................................. 1369
The Unsung Hero of Yellow Fever? ......................................... 1370
An Ineradicable Disease ..................................................... 1371
Antievolution Rules Are Unconstitutional .................................. 1373

Briefing: Reagan Intends to Resist Congress on ASAT Treaty; House Panel Denies
Exception for Drug; West Germany Plans Major Technology Investment;
Delaware Bay on the Rebound ............................................ 1374

RESEARCH NEWS

Gene Therapy Method Shows Promise ....................................... 1376
Injected Virus Probes Fetal Development .................................. 1377
National Networks for Molecular Biologists .............................. 1379

ANNUAL MEETING

Preconvention Program; Meeting Information; AAAS Science Film Festival; Tours
and Special Events; AAAS Exhibit; Advance Registration Form; Hotel
Reservation Form; Discounted Air Fares .................................. 1381
BOOK REVIEWS

Revolution in Time, reviewed by G. Porter; The Origin of Pandemic Influenza Viruses, W. R. Dowdle; Muscle and Nonmuscle Motility, P. Vibeit; Parallel Processing in the Visual System, R. Shapley; Books Received .................................................. 1401

REPORTS

The Frequency of Meteorite Falls on the Earth: I. Halliday, A. T. Blackwell, A. A. Griffin................................................................. 1405

Control of Colonial Hydroid Macrogouling by Free-Field Ultrasonic Radiation: D. T. Burton, L. B. Richardson, R. J. Taylor......................... 1410

Biological Activity of Recombinant Human Interleukin-2 Produced in Escherichia coli: S. A. Rosenberg et al. .......................................................... 1412

Increased Phosphorylation of Myosin Light Chain Kinase After an Increase in Cyclic AMP in Intact Smooth Muscle: P. de Lanerolle et al. .......... 1415

Identification of an Infective Stage of Leishmania Promastigotes: D. L. Sacks and P. V. Perkins ................................................................. 1417

Sequential Interaction of Glia Maturation Factor with Insulin: R. Lim and J. F. Miller .................................................................................. 1419

Appearance of a New Nucleosomal Protein During Differentiation of Human Leukemia (HL-60) Cells: R. H. Chou, P. A. Chervenick, D. R. Bach ....... 1420

X-ray Laue Diffraction from Protein Crystals: K. Moffat, D. Szebenyi, D. Bilderback ............................................................................. 1423

Association of Parvoviruses with Rheumatoid Arthritis of Humans: R. W. Simpson et al. ........................................................................ 1425

Salt-Sensitive Hypertension: Contribution of Chloride: S. A. Whitescarver et al. ................................................................................... 1430

Arginine Decarboxylase and Polyamines Required for Embryogenesis in the Wild Carrot: R. P. Feirer, G. Mignon, J. D. Litvay .................................. 1433

Coronary Arteries of Cardiac Patients Are Hyperreactive and Contain Stores of Amines: A Mechanism for Coronary Spasm: S. Kalsner and R. Richards .... 1435
