SCIENCE is published weekly (except the last week in December, by the American Association for the Advancement of Science, 1515 Massachusetts Avenue, NW, Washington, D.C. 20005. Second-class postage (publication No. 484460) paid at Washington, D.C., and at an additional entry. Now combined with The Scientific Monthly? Copyright © 1984 by the American Association for the Advancement of Science. Domestic individual membership and subscription (61 issues): $56. Domestic institutional subscription (61 issues): $93. Foreign postage extra: Canada $24, other (surface mail) $27, air-surface via Amsterdam $65. First class, airmail, school-year, and student rates on request. Single copies $2.50 ($3 by mail); back issues $3 ($3.50 by mail); Biotechnology Issue, $5 ($5.50 by mail).
BOOK REVIEWS

Late-Quaternary Environments of the United States, reviewed by W. R. Farrand; Neuroethology and Behavioral Physiology and Animal Behavior, R. R. Hoy; Cartilage, H. Muir; Reprints of Books Previously Reviewed; Books Received ............................................ 1421

REPORTS

Proliferation of Astroglia and Oligodendroglia in Response to Human T Cell–Derived Factors: J. E. Merrill et al. .......................................................... 1428

Site-Specific Mutagenesis of the Human Interleukin-2 Gene: Structure-Function Analysis of the Cysteine Residues: A. Wang, S.-D. Lu, D. F. Mark ........... 1431

Identification and Location of Brain Protein 4.1: S. R. Goodman et al. ................................. 1433

α-Cardiac Actin Is the Major Sarcomeric Isoform Expressed in Embryonic Avian Skeletal Muscle: B. M. Paterson and J. D. Eldridge ...................................... 1436

Virus Persists in β Cells of Islets of Langerhans and Is Associated with Chemical Manifestations of Diabetes: M. B. A. Oldstone et al. .............................. 1440

Acetolactate Synthase Is the Site of Action of Two Sulfonylurea Herbicides in Higher Plants: R. S. Chaleff and C. J. Mauvais ........................................... 1443

Human Colon Cells: Culture and in Vitro Transformation: M. P. Moyer and J. B. Aust ................................................................. 1445

Duchenne Muscular Dystrophy Involving Translocation of the dmd Gene Next to Ribosomal RNA Genes: R. G. Worton et al. ................................................. 1447

Corticotropin-Releasing Factor Receptors in Rat Forebrain: Autoradiographic Identification: E. B. De Souza et al. ......................................................... 1449

Dopaminergic Neurotoxicity of 1-Methyl-4-Phenyl-1,2,5,6-Tetrahydropyridine in Mice: R. E. Heikila, A. Hess, R. C. Duvoisin ........................................ 1451

Identification of Common Interneurons Mediating Pre- and Postsynaptic Inhibition in the Cat Spinal Cord: M. Solidkian, I. Jiménez, P. Rudomin .............. 1453

Sequencing the erbA Gene of Avian Erythroblastosis Virus Reveals a New Type of Oncogene: B. Debuire et al. .......................................................... 1456

COVER

Scanning electron micrograph of trepostomate bryozoan recovered from the Ulladulla Mudstone (Permian, Australia) using a new plastic-replication technique. See page 1425. [Photography by R. M. Webster, The Australian National University, Canberra, A.C.T. 2600]
