SCIENCE is published weekly, except the last week in December, by the American Association for the Advancement of Science, 1515 Massachusetts Avenue, NW, Washington, D.C. 20005. Second-class postage (publication No. 484460) paid at Washington, D.C., and at an additional entry. Now combined with The Scientific Monthly Copyright © 1984 by the American Association for the Advancement of Science. Domestic individual membership and subscription ($1 issue): $50. Domestic institutional subscription ($1 issues): $55. Foreign postage extra: Canada $24, other (surface mail) $27. air-force via Amsterdam $65. First class, airmail, school-year, and student rates on request. Single copies $2.50 ($3 by mail); back issues $5 ($3.50 by mail); Biotechnology issue, $5 ($3.50 by mail); classroom rates on request. Change of address: allow 6 weeks, giving old and new addresses and seven-digit account number. Authorization to photocopy material for internal or personal use under circumstances not falling within the fair use provisions of the Copyright Act is granted by AAAS to libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of $1 per copy plus $0.10 per page is paid directly to CCC, 21 Congress Street, Salem, Massachusetts 01970. The identification code for Science is 0036-8075/84 $1 - 10.

COVER

Color-classified SeaSat synthetic aperture radar image of pack ice in the Beaufort Sea west of Banks Island, Northwest Territories, Canada (4 October 1978). The image is a combination of the color-classified image and the original image and shows the following separable ice classes: red, multiyear ice; black, new or grease ice; yellow, young or pancake ice; and bluish-white, open water. See page 371. [W. F. Weeks, Snow and Ice Branch, Cold Regions Research and Engineering Laboratory, Hanover, New Hampshire 03755]
