EDITORIAL

Neuroscience Advances: J. Axelrod ........................................ 1253

ARTICLES

Neurosciences: An Integrative Discipline: S. H. Snyder ............... 1255
Regressive Events in Neurogenesis: W. M. Cowan et al. .......... 1258
Neurotransmitter Plasticity at the Molecular Level: I. B. Black et al. 1266
Cell Recognition During Neuronal Development: C. S. Goodman et al. 1271
Mitogenic Growth Factors and Nerve Dependence of Limb Regeneration: J. P. Brockes .......... 1280
Cell Biology of Synaptic Plasticity: C. W. Cotman and M. Nieto-Sampedro .... 1287
Immunological Approaches to the Nervous System: L. F. Reichardt .... 1294
Neuropeptides: Mediators of Behavior in Aplysia: R. H. Scheller et al. ........ 1300
Control of Neuronal Gene Expression: J. G. Sutcliffe et al. .............. 1308
Alternative RNA Processing: Determining Neuronal Phenotype: M. G. Rosenfeld, S. G. Amara, R. M. Evans .......... 1315
DNA Markers for Nervous System Diseases: J. F. Gusella et al. .... 1320
Chemical Anatomy of the Brain: T. Hökfelt, O. Johansson, M. Goldstein ........ 1326
Biophysical Studies of Ion Channels: C. F. Stevens ........................................ 1346
Message Transmission: Receptor Controlled Adenylate Cyclase System: M. Schramm and Z. Selinger ...................... 1350
Turnover of Inositol Phospholipids and Signal Transduction: Y. Nishizuka ........ 1365

NEWS AND COMMENT

Election Politics and Science Policy .......................................................... 1371
A Department of Science? ................................................................. 1372
White House Slashes Landsat Subsidy ............................................. 1373
Briefing: Acid Rain Report Allegedly Suppressed; OTA Studies U.S.–Soviet Space Cooperation; Research Council Backs Competition for Shuttle; Antibiotics and Animal Feed: A Smoking Gun ..................................... 1374
USDA Struggles to Reform Its Research ...................................... 1375
Rejuvenating ARS’s Showcase ......................................................... 1377
A New Thrust in Plant Genetics ......................................................... 1378

RESEARCH NEWS

A Fast Way to Solve Hard Problems .................................................... 1379
Decision Near on Galileo Asteroid Flyby ........................................ 1380
Diabetes—A Possible Autoimmune Disease .......................................... 1381

PRODUCTS AND MATERIALS

Magnetic Particles; Electrophoresis Cell; Transport Marker; Cyclosporine Assay; Gel Casting Chamber; Automated Imaging System; DNA Synthesizer; Literature ................................................................. 1386

American Association for the Advancement of Science was founded in 1848 and incorporated in 1874. Its objects are to further the work of scientists, to facilitate cooperation among them, to foster scientific freedom and responsibility, to improve the effectiveness of science in the promotion of human welfare, and to increase public understanding and appreciation of the importance and promise of the methods of science in human progress.
