Science is published weekly on Friday, except the last week in December, by the American Association for the Advancement of Science, 1515 Massachusetts Avenue, NW, Washington, DC 20005. Second-class postage (publication No. 404460) paid at Washington, D.C., and at an additional entry. Now combined with The Scientific Monthly. Copyright © 1984 by the American Association for the Advancement of Science. Domestic individual membership and subscription (51 issues): $55. Domestic institutional subscription (51 issues): $93. Foreign postage extra: Canada $24, other (surface mail) $27, airmail via Amsterdam $65. First-class, airmail, school-year, and student rates on request. Single copies $2.50 ($3 by mail); back issues $3 ($3.50 by mail); Botanical Society issue, $5 ($6.50 by mail); classroom rates on request. Change of address: allow 6 weeks, giving old and new addresses and seven-digit account number. Authorization to photocopy material for internal or personal use under circumstances not falling within the fair use provisions of the Copyright Act is granted by AAAS to libraries and others registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of $1 per copy plus 50¢ per page is paid directly to CCC, 21 Congress Street, Salem, Massachusetts 01970. The identification code for Science is 0036-8075/84 $3.00. Postmaster: Send Form 3579 to Science, 1515 Massachusetts Avenue, NW, Washington, D.C. 20005. Science is indexed in the Reader's Guide to Periodical Literature and in several specialized indexes.
Discoverers of the Lost World, reviewed by S. D. Webb; Living Fossils, D. B. Wake; Biochemical Adaptation, D. Powers; Herbivory, M. D. Rausher; Books Received ........................................ 825

Acid Precipitation: Natural Versus Anthropogenic Components: J. N. Galloway, G. E. Likens, M. E. Hawley ..................................................... 829

Holocene Sea Level Changes at the Coast of Dor, Southeast Mediterranean: Y. Sneh and M. Klein .......................................................... 831

Ion Channels in Plasmalemma of Wheat Protoplasts: N. Moran et al. .......... 835

A Major Human Histone Gene Cluster on the Long Arm of Chromosome 1: L. Green et al. ................................................................. 838

Reaction of the Antitumor Antibiotic CC-1065 with DNA: Structure of a DNA Adduct with DNA Sequence Specificity: L. H. Hurley et al. ........ 843

Phosphatidylinositol as a Component of the Ice Nucleating Site of Pseudomonas syringae and Erwinia herbicola: L. M. Kozloff, M. Lute, D. Westaway 845

Amino Acid Sequence Similarity Between Rabies Virus Glycoprotein and Snake Venom Curareimimetic Neurotoxins: T. L. Lentz et al. ............ 847

Isolation and Structure of Bacterial Sex Pheromone, cPD1: A. Suzuki et al. 849

Blockade of N-Methyl-d-Aspartate Receptors May Protect Against Ischemic Damage in the Brain: R. P. Simon et al. .................................. 850

Transglutaminase-Mediated Modifications of the Rat Sperm Surface in Vitro: G. Paonessa et al. ................................................................. 852

Fast and Slow Magnetic Phenomena in Focal Epileptic Seizures: D. S. Barth, W. Sutherling, J. Beatty ..................................................... 855

Benzodiazepine Receptor Synthesis and Degradation by Neurons in Culture: L. A. Borden et al. ............................................................... 857

Homologies Between Signal Transducing G Proteins and ras Gene Products: J. B. Hurley et al. ................................................................. 860

Cigarette Craving, Smoking Withdrawal, and Clonidine: A. H. Glassman et al. 864

Black bear. In winter, the black bear does not eat, drink, urinate, or defecate. Weeks before denning, while food and water are still readily available, the bear achieves this remarkable independence of the need for food and water. A ratio of blood urea to creatinine of 10 or less indicates that the bear is prepared for winter. See page 841. [Tom Beck, Colorado Division of Wildlife, Crawford 81415]
