Volume 226, No. 4679

LETTERS
Values, Research Questions, and the News Media: G. M. Herek; B. A. Gladue, R. Green, R. E. Hellman; Academic Freedom: J. Lamperti; J. B. Harris; H. T. Shapiro

EDITORIAL
Science in Perspective: A. Thackray

ARTICLES
The 1984 Nobel Prize in Chemistry: E. T. Kaiser
Molecular Indices of Cell Lineage Specification in Sea Urchin Embryos:
R. C. Angerer and E. H. Davidson
Characterization and Molecular Cloning of a Human Parvovirus Genome:
S. F. Cotmore and P. Tattersall
Molecular Characterization of Human T-Cell Leukemia (Lymphotropic) Virus Type III in the Acquired Immune Deficiency Syndrome: G. M. Shaw et al.

NEWS AND COMMENT
Turbulent Times for NOAA
Briefing: NRC Urges Destruction of Chemical Weapons; Biogen Cuts 13 Percent Including Scientists; France Proposes Shuttle Competition; Comings and Goings
New Army Biowarfare Lab Raises Concerns

RESEARCH NEWS
DNA Reveals Surprises in Human Family Tree
Some Avian Puzzles Solved
The Dethroned Ape
Tracking Exposure to Toxic Substances
BOOK REVIEWS
Occult and Scientific Mentalities in the Renaissance, reviewed by B. J. T. Dobbs; Modern and Ancient Fluvial Systems, W. E. Galloway; CRC Handbook of Coastal Processes and Erosion, C. Galvin; Adaptations for Foraging in Nonhuman Primates, R. W. Sassman; Books Received

REPORTS
The East Coast Magnetic Anomaly: L. E. Alsop and M. Talwani
The Variability of Holocene Climate Change: Evidence from Varved Lake Sediments: W. E. Dean et al.
A trans-Acting Product Needed for P Factor Transposition in Drosophila: W. R. Engels
Requirement for a Signal Sequence in Biological Expression of the v-sis Oncogene: M. Hannink and D. J. Donoghue
Constitutive Fragile Sites and Cancer: J. J. Yunis and A. L. Soreng
The Long Terminal Repeat Sequences of a Novel Human Endogenous Retrovirus: C. D. O'Connell and M. Cohen
Nucleotide Sequences of the Human and Mouse Atrial Natriuretic Factor Genes: C. E. Seidman et al.

COVER
A molecular marker of mesenchyme cell differentiation in the sea urchin embryo: in situ hybridization with a gastrula embryo section of a cloned single-stranded RNA probe specific for the Cylla cytoskeletal actin gene. Transcripts from this gene are indicated by the light autoradiographic grains seen only in the secondary mesenchyme cells. See page 1153. [R. Angerer and E. H. Davidson, California Institute of Technology, Pasadena 91125; photo by K. Cox]
