BOOK REVIEWS

Perspectives on Plant Population Ecology, reviewed by D. W. Schemske; The Biology of Ground-Dwelling Squirrels, A. T. Smith; Seabird Energetics, C. Carey; Summing Up, D. W. Fiske; Books Received ........................................ 405

REPORTS

Geologic Evidence for Recurrent Moderate to Large Earthquakes Near Charleston, South Carolina: S. F. Obermeier et al. ........................................ 408
Highly Supercooled Cirrus Cloud Water: Confirmation and Climatic Implications: K. Sassen et al. ............................................................... 411
Myosin: A Link Between Streptococci and Heart: K. Krisher and M. W. Cunningham ................................................................. 413
Reversal of Experimental Allergic Encephalomyelitis with Monoclonal Antibody to a T-Cell Subset Marker: M. K. Waldor et al. .............. 415
Hernandulcin: An Intensely Sweet Compound Discovered by Review of Ancient Literature: C. M. Compadre et al. ................................ 417
Disk-to-Disk Transfer as the Rate-Limiting Step for Energy Flow in Phycobilisomes: A. N. Glazer et al. .............................................. 419
Amino Terminal Myristylation of the Protein Kinase p60src, a Retroviral Transforming Protein: A. M. Schultz et al. .................................. 427
Antibodies to Peptides Detect New Hepatitis B Antigen: Serological Correlation with Hepatocellular Carcinoma: A. M. Moriarty et al. .......... 429
Vaccinia Virus Recombinants: Expression of VSV Genes and Protective Immunization of Mice and Cattle: M. Mackett et al. .................. 433
Fluorogenic Substrate Detection of Viable Intracellular and Extracellular Pathogenic Protozoa: P. R. Jackson, M. G. Pappas, B. D. Hansen .......... 435
Ascorbic Acid and the Behavioral Response to Haloperidol: Implications for the Action of Antipsychotic Drugs: G. V. Rebec et al. .............. 438
Complete Development of Hepatic Stages of Plasmodium falciparum in Vitro: D. Mazier et al. ............................................................... 440

COVER

Integrated spectral vegetation index for Africa from April 1982 to April 1983 representing the integrated green leaf biomass or density for the period. The tan, brown, and tan-orange colors represent small amounts of cumulative green leaf activity, the gold colors represent modest amounts, the greens higher amounts, and the reds and purples the highest amounts. See page 369. [NASA/Goddard Space Flight Center, Greenbelt, Maryland 20771]
