# Chemistry Issue

*Edited by Philip H. Abelson*

**LETTERS**

**EDITORIAL**
- Federal Support for Chemistry ...................................................... 847

**ARTICLES**
- Gas-Phase Ion Chemistry: *P. B. Comita* and *J. I. Brauman* .......... 863
- Mechanisms of Coenzyme B₁₂-Dependent Rearrangements: *J. Halpern* .......... 869
- Toward a Coherent Theory of Chemisorption: *E. Shustorovich* and *R. C. Baetzold* .......... 876
- Electrically Conductive Metallomacrocyclic Assemblies: *T. J. Marks* .......... 881
- Laser Probing of Chemical Reaction Dynamics: *S. R. Leone* .......... 889
- Understanding Molecular Dynamics Quantum-State by Quantum-State: *W. D. Lawrance*, *C. B. Moore*, *H. Petek* .......... 895
- Surface Science and Catalysis: *G. A. Somorjai* .......... 902
- Theoretical Chemistry Comes Alive: Full Partner with Experiment: *W. A. Goddard III* .......... 917

---

**BOARDS OF DIRECTORS**

**CHAIRED BY AND SECRETARIES OF AAAS SECTIONS**
- **MATHEMATICS (A)** Gail S. Young, Lynn Arthur Steen, and the Committee.  
- **PHYSICS (B)** Rolf M. Sinclair.  
- **SOCIAL, ECONOMIC, AND POLITICAL SCIENCES (K)** Robin M. Williams, Jr.  
- **HISTORY AND PHILOSOPHY OF SCIENCE (L)** Jeanne M. Streek.  
- **ENGINEERING (M)** Raymond L. Beilenson.  
- **INFORMATION, COMPUTING, AND COMMUNICATION (T)** Donat G. Wentzel.  
- **EDUCATION (Q)** Marvin Druger, Joseph D. Novak.  
- **DENTISTRY (R)** Robert J. Fitzgerald, Harold M. Fuller.  
- **PHARMACEUTICAL SCIENCES (S)** David A. Knapp.  

---

**DIVISIONS**

**ARCTIC DIVISION**
- Robert White, President  
- Robert E. Walker, Executive Secretary  
- Juan A. Bonnet, Jr., President  
- Lucy Gaspar, Secretary-Treasurer  
- Walter Gardner, President  
- Alan E. Leviton, Executive Director

---

**PACIFIC DIVISION**
- Robert White, President  
- Robert E. Walker, Executive Secretary  
- Juan A. Bonnet, Jr., President  
- Lucy Gaspar, Secretary-Treasurer  
- Walter Gardner, President  
- Alan E. Leviton, Executive Director

---

**SCIENCE** is published weekly on Friday, except the last week in December, by the American Association for the Advancement of Science, 1515 Massachusetts Avenue, NW, Washington, D.C. 20005. Second-class postage (publication No. 484646) paid at Washington, D.C., and at an additional entry. Copyright © 1985 by the American Association for the Advancement of Science. Domestic individual membership and subscription (51 issues): $56. Domestic institutional subscription (51 issues): $93. Foreign postage extra: Canada $24, other (surface mail) $27, air-surface via Amsterdam $65. First class, airmail, school-year, and student rates on request. Single copies $2.50 ($3 by mail); back issues $3 ($5 by mail); reprints (minimum 100 copies): $5 ($5.50 by mail); classroom rates on request. Change of address: allow 6 weeks, giving old and new addresses and seven-digit account number. Authorization to photocopy material for internal or personal use under circumstances not falling within the fair use provisions of the Copyright Act is granted by AAAS to libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of $1 per copy plus $0.10 per page is paid directly to CCC, 21 Congress Street, Salem, Massachusetts 01970. The identification code for Science is 0036-8075/85 $1.00. Postmaster: Send Form 3579 to Science, 1515 Massachusetts Avenue, NW, Washington, D.C. 20005. Science is indexed in the Reader’s Guide to Periodical Literature and in several specialized indexes.
NEWS AND COMMENT

“Nuclear Winter” Feels Budgetary Chill ................................................................. 924
Carnegie Launches Education Forum ................................................................. 925
A Push for European Patent Reform ...................................................................... 926
Briefing: Brown Loses Bid to Head Space Subcommittee; Herrington Confirmed as Energy Secretary; Germany Announces Plans for Reprocessing Plant; Comings and Goings ................................................................. 928

RESEARCH NEWS

Could an Asteroid Be a Comet in Disguise? .......................................................... 930
Changing Bits to Magnetic Blips ........................................................................... 932
“Anxiety Peptide” Found in Brain ......................................................................... 934

BOOK REVIEWS

The Illogic of American Nuclear Strategy, reviewed by R. J. Lieber; Atlas of Lithological-Paleogeographical Maps of the World, W. T. Holser; Reversals of the Earth’s Magnetic Field, A. Cox; The Interferon Crusade, R. A. Rettig; Books Received ................................................................. 935

REPORTS

High-Resolution Stratigraphy with Strontium Isotopes: D. J. DePaolo and B. L. Ingram ................................................................. 938
Chromosomal Locations of the Murine T-Cell Receptor Alpha-Chain Gene and the T-Cell Gamma Gene: D. M. Kranzet al. ......................................................................................................................... 941
Molecular Structure of Troponin C from Chicken Skeletal Muscle at 3-Angstrom Resolution: M. Sundaralingam et al. ......................................................................................................................... 945
Effects on Trichinella spiralis of Host Responses to Purified Antigens: D. S. Silberstein and D. D. Despommier ......................................................................................................................... 948

COVER

Chemical transformations mediated by light (hv) provide photoproducts that can be employed in organic synthesis. The four-membered rings impart special properties on these compounds that facilitate their conversion to a variety of target systems, including molecules with important biological properties. See page 857. [Illustration by Christine M. Hoyeyda]
Science 227 (4689), 838-950.
