SCIENCE is published weekly on Friday, except the last week in December, by the American Association for the Advancement of Science, 1515 Massachusetts Avenue, NW, Washington, D.C. 20005. Second-class postage (publication No. 484460) paid at Washington, D.C., and at an additional entry. Copyright © 1985 by the American Association for the Advancement of Science. Domestic individual membership and subscription ($11 issues): $56. Domestic institutional subscription ($1 issues): $93. Foreign postage extra: Canada $24, over (surface mail): $27, air-surface via Amsterdam $65. First class, airmail, school-year, and student rates on request. Single copies $2.50 ($3 by mail); back issues $3 ($3.50 by mail); biotechnology issues, $3 ($3.50 by mail); classroom rates on request. Change of address: allow 6 weeks, giving old and new addresses and seven-digit account number. Authorization to photocopy material for internal or personal use under circumstances not falling within the fair use provisions of the Copyright Act is granted by AAAS to libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of $1 per copy plus $0.10 per page is paid directly to CCC, 21 Congress Street, Salem, Massachusetts 01970. The identification code for Science is 0036-8075/85 $11.00. Postmaster: Send Form 3579 to Science, 1515 Massachusetts Avenue, NW, Washington, D.C. 20005. Science is indexed in the Reader's Guide to Periodical Literature and in several specialized indexes.
Indian-Atlantic Transfer of Thermocline Water at the Agulhas Retroflection: A. L. Gordon .......................................................... 1030

Volatile Halogenated Organic Compounds Released to Seawater from Temperate Marine Macroalgae: P. M. Gschwend, J. K. MacFarlane, K. A. Newman .... 1033

Evidence for Exposure to HTLV-III in Uganda Before 1973: W. C. Saxinger et al. .......................................................... 1036

Location of the c-yes Gene on the Human Chromosome and Its Expression in Various Tissues: K. Semba et al. .................. 1038

Antigenic and Genetic Properties of Viruses Linked to Hemorrhagic Fever with Renal Syndrome: C. S. Schmaljohn et al. ............... 1041

Gene for α-Chain of Human T-Cell Receptor: Location on Chromosome 14 Region Involved in T-Cell Neoplasms: C. M. Croce et al. ............... 1044

Distribution of Enkephalin Immunoreactivity in Germinative Cells of Developing Rat Cerebellum: I. S. Zagon, R. E. Rhodes, P. J. McLaughlin. ................. 1049

Electrical Sources in Human Somatosensory Cortex: Identification by Combined Magnetic and Potential Recordings: C. C. Wood et al. ............... 1051

Limits of Neurogenesis in Primates: P. Rakic .................................. 1054

Ecological Character Displacement in Darwin's Finches: D. Schluter, T. D. Price, P. R. Grant. .............................................. 1056

Regulation of Extravascular Coagulation by Microvascular Permeability: H. F. Dvorak et al. .............................................. 1059

Genetic Consequences of Mate Choice: A Quantitative Genetic Method for Testing Sexual Selection Theory: C. R. B. Boake ................. 1061

Gordon Research Conferences: A. M. Cruickshank .......................................................... 1067

Lake Sunapee, New Hampshire, vicinity in which Gordon Research Conferences will take place (summer of 1985). See page 1067 for details about the conferences. [Photo courtesy of the State of New Hampshire]
