A New Dimension in Gas Chromatography ........................................ 1570
Ion Beams for Compositional Analysis ......................................... 1571

BOOK REVIEWS

The Florida Scrub Jay, reviewed by J. D. Ligon; The Earth’s Magnetic Field,
F. D. Stacey; Psychology in Utopia; M. A. Miller; Books Received .......... 1573

REPORTS

Ground Water as a Silica Source for Diatom Production in a Precipitation-
Dominate Lake: J. P. Hurley et al. .............................................. 1576
Geologic Youth of Galápagos Islands Confirmed by Marine Stratigraphy and
Paleontology: C. S. Hickman and J. H. Lipps .................................. 1578
Blood-Brain Barrier: Endogenous Modulation by Adrenal-Cortical Function:
J. B. Long and J. W. Holaday ...................................................... 1580
Receptor-Mediated Transport of Insulin Across Endothelial Cells: G. L. King
and S. M. Johnson ........................................................................ 1583
Separation Techniques Based on the Opposition of Two Counteracting Forces to
Produce a Dynamic Equilibrium: P. H. O’Farrell ................................ 1586
On the Nature of a Defect in Cells from Individuals with Ataxia-Telangiectasia:
M. N. Cornforth and J. S. Bedford .................................................. 1589
Diploid-Triploid Mosaicism: An Unusual Phenomenon in Side-Necked Turtles
Isolation of the Gene for a Glycophorin-Binding Protein Implicated in Erythrocyte
Invasion by a Malaria Parasite: J. V. Ravetch, J. Kochan, M. Perkins ........ 1593
Developmentally Controlled Expression of Immunoglobulin V_{H} Genes:
R. M. Perlmutter et al. ................................................................. 1597
Plasma Homovanillic Acid Concentration and the Severity of Schizophrenic
Illness: K. L. Davis et al. .............................................................. 1601

Cover

View from a porthole on the research platform FLIP, looking out at one of
the booms used to lower instrumentation into the ocean away from FLIP’s
hull. Oceanographic instrumentation hangs down below the boom; meteorolo-
gical instrumentation (including anemometers and solar radiometers) is
mounted on the boom. See page 1552. [Jerry Dean, Woods Hole Oceanograghic
Institution, Woods Hole, Massachusetts 02543]
