Chrysler vs. GM, Ford on Fuel Rule Fines ............................................................................ 307
Briefing: Landsat Threatened Again; NASA Plans Award to GE Despite Contract Ban; Three Plans Proposed to Avert Vaccine Shortages; NASA, NOAA Make a Deal; House Committee Questions SSC; Disarmament Chain Letter Takes on Life of Its Own .................................................................................. 308

RESEARCH NEWS
Making Factoring Faster ....................................................................................................... 310
Earthquake Forecast Endorsed ............................................................................................. 311
The Polyphosphoinositides Revisited ................................................................................... 312

Physics Briefing: Using Synchrotron Light for Magnetic Scattering; Doing Crystallography in Six Dimensions; Spatial Quantization in Three Dimensions ........................................................................ 314

BOARD OF DIRECTORS

CHAIRMEN AND SECRETARIES OF AAAS SECTIONS
MATHEMATICS (A) Gali S. Young Lynn Arthur Stein
PHYSICS (B) Chen Ning Yang Rolf M. Sinclair
SOCIAL, ECONOMIC, AND POLITICAL SCIENCES (K) Robin M. Williams, Jr. David L. Sills
EDUCATION (Q) Marvin Dupper Joseph D. Novak
DENTISTRY (R) Robert J. Fitzgerald Harold M. Fullmer
PHARMACEUTICAL SCIENCES (S) Stuart Feldman David A. Knapp
INFORMATION, COMPUTING, AND COMMUNICATION Charles Seiber Madeline M. Henderson

DIVISIONS
ARCTIC DIVISION
Robert White President
CARIBBEAN DIVISION
Lucy Gaspar Secretary-Treasurer
PACIFIC DIVISION
Water Gardner President

BOOK REVIEWS

Central Asia, reviewed by R. S. Davis; Paleozoic Salt Bearing Formations of the World, B. C. Schreiber; Somatosensory Mechanisms, L. Kruger; The Retinoids, F. L. Meyskens, Jr.; Books Received.............................. 316

REPORTS

Early Neolithic Horsebean from Yiftah’el, Israel: M. E. Kislev............................ 319

The Product of the c-fms Proto-Oncogene: A Glycoprotein with Associated Tyrosine Kinase Activity: C. W. Rettenmier et al............................. 320

Alignment of Rat Cardiomyosin Sequences with the Preprocardio- myosin Sequence from Complementary DNA: T. G. Flynn et al....................... 323

Leukotriene C4 Transport by the Chorionic Plexus in Vitro: R. Spector and E. J. Goetzl........................................... 325

Mechanism of Aeration in Rice: R. Kende and H. Kende................................. 327

Construction and Recovery of Viable Retroviral Genomes Carrying a Bacterial Suppressor Transfer RNA Gene: L. I. Lobel et al............................ 329

Silver-Intensified Gold and Peroxidase as Dual Ultrastructural Immunolabels for Pre- and Postsynaptic Neurotransmitters: A. N. van den Pol........................................... 332

Homology of β-Lactoglobulin, Serum Retinol-Binding Protein, and Protein HC: S. Pervazi and K. Brew.................................................. 335

Cyclosporin A Binding to Calmodulin: A Possible Site of Action on T Lymphocytes: P. M. Colombani, A. Robb, A. D. Hess................................. 337

Taphonomy and Herd Structure of the Extinct Irish Elk, Megaloceros giganteus: A. D. Barnosky .......................................................... 340

Selective Extraction of Small and Large Molecules from the Cerebrospinal Fluid by Purkinje Neurons: L. F. Borges et al................................. 346

Cover

Submerged rice leaves are never wetted. Continuous air layers, which appear silvery under water, are trapped between the hydrophobic surfaces of rice leaves and the surrounding water. They are open to the atmosphere and form a low-resistance pathway for gas movements. See page 327. [Benjamin R. Kende, Rochester Institute of Technology, School of Photographic Arts and Sciences, Rochester, New York 14623]
