This Week in Science

LETTERS
NIH Budget Growth: J. D. Ebert and M. A. Stoto; B. J. Culliton; Cost of Superconducting Super Collider: R. I. Louttit; M. Crawford

EDITORIAL
World Supplies of Natural Gas

ARTICLES
Tunable Coherent X-rays: D. Attwood, K. Halbach, K.-J. Kim
Structure, Dynamics, and Reactivity in Hemoglobin: J. M. Friedman
The Mechanism of Irreversible Enzyme Inactivation at 100°C: T. J. Ahern and A. M. Klibanov

THESCIENCE is published weekly on Friday, except the last week in December, by the American Association for the Advancement of Science, 1515 Massachusetts Avenue, NW, Washington, D.C. 20005. Second-class postage (publication No. 48466) paid at Washington, D.C., and at an additional entry. Copyright © 1985 by the American Association for the Advancement of Science. Domestic individual membership and subscription ($11.00); institutional subscription ($115.00); students, teachers, and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, $96. Foreign postage extra: Canada $24, other (surface mail) $27, airmail via Amsterdam $65. First class, airmail, and all other mail, single copies $2.50 ($3.50 by mail); back issues $5 ($5.50 by mail); back issues via the Amsterdam office at $3.50 ($4.50 by mail). Change of address: allow 6 weeks, giving old and new addresses and seven-digit account number. Authorization to photocopy material for internal or personal use under circumstances not falling within the fair use provisions of the Copyright Act is granted by AAAS to libraries and their users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of $1 per copy plus $0.10 per page is paid directly to CCC, 21 Congress Street, Salem, Massachusetts 01970. The identification code for Science is 0036-8075/85 $1 + .10. Postmaster: Send Form 3579 to Science, 1515 Massachusetts Avenue, NW, Washington, D.C. 20005. Science is indexed in the Reader's Guide to Periodical Literature and in several specialized indexes.
BOOK REVIEWS

The Education of a College President, reviewed by L. Galambos; Beyond Velikovsky, J. W. Patterson; Genetic Variability in Responses to Chemical Exposure, G. J. Brewer; Late Quaternary Environments of the Soviet Union, G. H. Miller; Books Received .................................................. 1304

REPORTS

Free Radicals in the Stratosphere: A New Observational Technique: J. G. Anderson et al. .................................................. 1309

The Fajada Butte Solar Marker: A Reevaluation: M. Zeilik .................................................. 1311

Microinjected c-myc as a Competence Factor: L. Kaczmarek et al. .................. 1313

Filamentous Fusion Phage: Novel Expression Vectors That Display Cloned Antigens on the Virion Surface: G. P. Smith .................. 1315

Phosphate Release and Force Generation in Skeletal Muscle Fibers: M. G. Hibberd et al. .................................................. 1317

Defect in Vitamin B$_2$ Release from Lysosomes: Newly Described Inborn Error of Vitamin B$_2$ Metabolism: D. S. Rosenblatt et al. .................. 1319

Correlated Measurements of DNA, RNA, and Protein in Individual Cells by Flow Cytometry: H. A. Crissman et al. .................. 1321

Angiogenesis Induced by Degradation Products of Hyaluronic Acid: D. C. West et al. .................. 1324

Monitoring the Time Course of Cerebral Deoxyglucose Metabolism by $^3$P Nuclear Magnetic Resonance Spectroscopy: R. K. Deuel et al. .................. 1329

Sonar Tracking of Horizontally Moving Targets by the Big Brown Bat Eptesicus fuscus: W. M. Masters, A. J. M. Moffat, J. A. Simmons .................................................. 1331

Coral Community Reproductive Patterns: Red Sea Versus the Great Barrier Reef: Y. Shlesinger and Y. Loya .................................................. 1333

PRODUCTS AND MATERIALS

Exonuclease; Microbiology Computer System; Automated Sample Processing; Laboratory Ovens; Benchtop Fermentor; Replaceable Junction pH Electrodes; Liquid Scintillation Analyzer; Heatable Plastic Beakers; Fluorescence Microscope; Peptide Synthesizer; Cloning and Expression System; Centrifuges; DNA Synthesizer; Gas Chromatograph; Literature .................. 1336

COVER

Shadowgraph of a dragonfly, Aeschna palmaris. The slender body and intricate wing venation of the dragonfly reflect millions of years of evolutionary pressures. Such structures support remarkable aerodynamic agility. Unsteady, separated fluid mechanisms appear to produce the high lift needed for this agility. See page 1326. [Wolfgang Bank, University of Colorado, Boulder 80309]
Science 228 (4705), 1246-1341.
