Paleoseismic Evidence for Recurrence of Earthquakes Near Charleston, South Carolina: P. Tailwan and J. Cox .......................................................... 379
Periodicity in Tree Rings from the Corn Belt: D. M. Meko, C. W. Stockton, T. J. Blasing .......................................................... 381
Competition for Phosphorus: Differential Uptake from Dual-Isotope-Labeled Soil Interspaces Between Shrub and Grass: M. M. Caldwell, D. M. Eissenstat, J. H. Richards, M. F. Allen ............................................. 384
Amino Acid Replacements That Compensate for a Large Polypeptide Deletion in an Enzyme: C. Ho, M. Jasins, P. Schimmel .................................................. 388
Vasopressin-Stimulated Release of Atriopeptin: Endocrine Antagonists in Fluid Homeostasis: P. T. Manning, D. Schwartz, N. C. Katsube, S. W. Holmberg, P. Needleman .................................................. 394
Ser-Leu-Arg-Arg-Atriopeptin III: The Major Circulating Form of Atrial Peptide: D. Schwartz et al. .................................................. 396
Conservation Genetics of Endangered Fish Populations in Arizona: R. C. Vrijenhoek, M. E. Douglas, G. K. Meffe .................................................. 400
Reciprocal Inhibition and Postinhibitory Rebound Produce Reverberation in a Locomotor Pattern Generator: R. A. Satterlie .................................................. 402

PRODUCTS AND MATERIALS
Spectrophotometer; Enzyme for Glycoprotein Research; HPLC System; Cell Separation Tubes; Detector for Monoclonal Antibodies; Multichannel Recorder; Literature .................................................. 404

COVER
Dorsal surface of gymnosome pteropod (Clione limacina) photographed during slow forward locomotion. Forward locomotion results from flapping movements of the wing-like parapodia. See page 402. [M. LaBarbera, Department of Anatomy, University of Chicago]
