This Week in Science ............................................. 7

LETTERS Periodicity of Extinctions: A. Hoffman; R. Lewin; Destroyers by the Pound?: T. L. Lincoln ............................................. 8

EDITORIAL The Status of Engineering.................................. 13

ARTICLES Origins: S. Weinberg ........................................... 15

Cell Interactions in Myxobacterial Growth and Development: M. Dworkin and D. Kaiser .................................................. 18

Pathways of Protein Secretion in Eukaryotes: R. B. Kelly ......................... 25

Structure of the GDP Domain of EF-Tu and Location of the Amino Acids Homologous to ras Oncogene Proteins: F. Jurnak .................................. 32

Human Apolipoprotein B: Structure of Carboxyl-Terminal Domains, Sites of Gene Expression, and Chromosomal Localization: T. J. Knott et al. ............. 37

NEWS AND COMMENT Working Solar Monitor Shot Down by ASAT ..................... 44

NSA to Provide Secret Codes ........................................... 45

New Biotech Board Proposal ........................................... 46

Social Scientists Make Case to Congress ................................ 47

Briefing: A Cleanup Plan for Chesapeake Bay; Science Text Books Too Bland for California; Pesticide Pact Struck by Opposing Groups; Soviets Target Campuses for Intelligence Operations; OTA Study Highlights Star Wars Difficulties; Magnets Chosen for Supercollider ....................... 48

RESEARCH NEWS New Plasma Physics Lab at Giacobini-Zinner .................... 51

BOARD OF DIRECTORS DAVID A. HAMBURG
Retiring President, Chairman

GERARID PIEL
President

LAWRENCE BOGORAD
President-Elect

ROBERT McC. ADAMS
Robert W. Berliner

MILDRED DRESSLER
Donald N. Langenberg

CHAIRMAN AND SECRETARIES OF NAS SECTIONS

MATHEMATICS (A) Daniel Zelinsky
Lynn Arthur Stein

PHYSICS (B) Ralph O. Simmons
Rolf M. Sinclair

CHEMISTRY (C) Rustum Roy
Jeanne M. Shreeve

ASTRONOMY (D) David Morrison
John E. Gaustad

PSYCHOLOGY (J)
John I. Lacey
William N. Demberg

SOCIAL, ECONOMIC, AND POLITICAL SCIENCES (K)
David Mechanic
David L. Sills

HISTORY AND PHILOSOPHY OF SCIENCE (L)
Edward Grant
Arthur L. Norberg

ENGINEERING (M)
Henry McGee
W. Edward Lear

EDUCATION (G)
John F. Schaff
Joseph D. Novak

DENTISTRY (R)
Gordon H. Rovelstad
Harold M. Fullmer

PHARMACEUTICAL SCIENCES (S)
Edward O. Rippke
Bettyann Hoener

INFORMATION, COMPUTING, AND COMMUNICATIONS
Karen B. Levent
Elliot R. Siegel

DIVISIONS

ARCTIC DIVISION
Richard Bushey

Caroline Weller

EXECUTIVE SECRETARY

JEU. A. Bonnet, Jr.

President

Secretary-Treasurer

PACIFIC DIVISION

Geoffrey G. Scudder

Alan E. Leviton

President

Executive Director

SCIENCE is published weekly on Friday, except the last week in December, by the American Association for the Advancement of Science, 1333 H Street, NW, Washington, D.C. 20005. Second class postage (publication No. 484460) paid at Washington, D.C., and at an additional entry. Now combined with The Scientific Monthly. Copyright © 1985 by the American Association for the Advancement of Science. Domestic individual membership and subscription (51 issues): $60; Domestic institutional subscription (51 issues): $96; Foreign postage extra; Canada $24, other, (surface mail) $136, air-mail via Amsterdam $65. First class, airmail, school-year, and student rates on request. Single copies $2.50 ($3 by mail); back issues $3 ($3.50 by mail); back issues $3 ($3.50 by mail); onom rates on request. Change of address: allow 6 weeks, giving old and new addresses and seven-digit account number. Authorization to photocopy material for internal or personal use under statements not falling within the fair use provisions of the Copyright Act is granted by AAAS to libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of $1 per copy plus $0.10 per page is paid directly to CCC, 21 Congress Street, Salem, Massachusetts 01970. The identification code for Science is 0036-8075/85 $3.00.

AAAS NEWS
Scientists Aid Search for Argentina’s “Desaparecidos”: E. Stover; Instruments and Lab Equipment Needed; Transcripts of National Security Discussion Offered; Directory to Identify Research on Impacts of Technology ........... 56

BOOK REVIEWS
Ranching, Mining, and the Human Impact of Natural Resource Development, reviewed by C. R. Humphrey; Beyond IQ, R. Glaser; Science Reorganized, T. S. Feldman; Progress in Gauge Field Theory, E. Seiler; Books Received .... 58

REPORTS
Infrared Speckle Observations of Io: An Eruption in the Loki Region:
R. R. Howell and M. T. McGinn ........................................... 63
Characterization of Io’s Volcanic Activity by Infrared Polarimetry:
J. D. Goguen and W. M. Sinton ........................................... 65
Induction of AIDS-Like Disease in the Macaque Monkeys with T-Cell Tropic Retrovirus STLV-III: N. L. Letvin et al. ......................................... 71
Partial Inversion of the Initiation-Promotion Sequence of Multistage Tumorigenesis in the Skin of NMRI Mice: G. Forstenberger, V. Kinzel, M. Schwarz, F. Marks ........................................... 76
A Model for the Tertiary Structure of p21, the Product of the ras Oncogene:
F. McCormick et al. ......................................................... 78
Z-DNA Forms Without an Alternating Purine-Pyrimidine Sequence in Solution:
Isolation of a Spirochete from the Soft Tick, Ornithodoros coriaceus: A Possible Agent of Epizootic Bovine Abortion: R. S. Lane, W. Burgdorfer, S. F. Hayes, A. G. Barbour ........................................... 85
Intercontinental Spread of a New Antibiotic Resistance Gene on an Epidemic Plasmid: T. F. O’Brien et al. ........................................... 87
A Neuroendocrine Marker in Tissues of the Immune System: R. H. Angeletti and W. F. Hickey ........................................... 89

COVER
Tidal flats in Minas Basin near Economy Point, Nova Scotia, showing large-scale bedforms carved by strong tidal flows over sand. This is one of the sites being considered for tidal power development. The combination of shallow water and large tides makes this an area of extensive tidal dissipation. See page 69. [Roger Belanger, Fisheries and Oceans Canada, Bedford Institute of Oceanography, Dartmouth, Nova Scotia B2Y 4A2]
