This Week in Science ................................................................. 132

LETTERS
Nutrition Report and the Academy: H. Kamin; R. E. Olson; F. Press;
Understanding Science: M. Goran; W. J. Haas; D. F. Cox ........... 132

EDITORIAL
1986: A Vintage Year for Space Science: A. J. Dessler ..................... 132

ARTICLES
Fluid Beds: At Last, Challenging Two Entrenched Practices: A. M. Squires,
M. Kwauk, A. A. Avidan ................................................................. 132

Peptide Neurotoxins from Fish-Hunting Cone Snails: B. M. Olivera et al. 133

The 3’ Splice Site of Pre-Messenger RNA Is Recognized by a Small Nuclear Ribonucleoprotein: B. Chabot, D. L. Black, D. M. LeMaster, J. A. Steitz. 134

Enzymatic Amplification of β-Globin Genomic Sequences and Restriction Site Analysis for Diagnosis of Sickle Cell Anemia: R. K. Satki et al. 135

NEWS AND COMMENT
AIDS Therapy: New Push for Clinical Trials .................................. 135

AIDS Virus Presents Moving Target ............................................. 135

An Avalanche of New Cash ............................................................ 135

Fight Over South African Ban Intensifies ........................................ 135

Briefing: Agencies Brace for Cuts in FY-86 Program Budgets; Congressmen Seek Delay in X-ray Laser Test; Credit for University R&D Offered in Tax Reform Bill; GAO Finds Errors in A-Bomb Test Data ................................................................. 136

Britain Pulls Out of Unesco ............................................................... 136

Britain Joins SDI Research .............................................................. 136

Beggs Takes a Leave of Absence at NASA ....................................... 136

RESEARCH NEWS
Plate Tectonics Goes Back 2 Billion Years ..................................... 136

New Sickle Cell Test ........................................................................... 136

SCIENCE is published weekly on Friday, except the last week in December, by the American Association for the Advancement of Science, 1333 H Street, NW, Washington, D.C. 20005. Second class postage (publication No. 484460) paid at Washington, D.C., and at an additional entry. Copyright © 1986 by the American Association for the Advancement of Science. Domestic individual membership and subscription (51 issues): $60. Domestic institutional subscription (51 issues): $88. Foreign postage outside Canada $24, other (surface the $27, air-service via Amsterdam $55. First class, airmail, school-year, and student rates on request. Single copies $2.50 ($3 by mail); back issues $3 ($3.50 by mail); Bicentennial issue, $5 ($5.50 by mail); classroom rates on request. Change of address: allow 6 weeks, giving old and new addresses and seven-digit account number. Authorization to photocopy material for internal or personal use and circulars not falling within the fair use provisions of the Copyright Act is granted by AAAS to libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of $1 per copy plus $.10 per page is paid directly to CCC, 21 Congress Street, Salem, Massachusetts 01970. The identification code for Science is 0036-8075/86 $1 - Postmaster: Send Form 3579 to Science, 1333 H Street, NW, Washington, D.C. 20005. Science is indexed in the Reader's Guide to Periodical Literature and in several specialized indexes.
BOOK REVIEWS

The Repression of Detection Hematopoietic The Promoter, A Platinized Gene Brain-Derived Systematic Sequence Burst of Publicity Follows Cancer Report

REPORTS

Platinized Chloroplasts: A Novel Photocatalytic Material: E. Greenbaum

A New Class of Steroids Inhibits Angiogenesis in the Presence of Heparin or a Heparin Fragment: R. Crum, S. Szabo, J. Folkman

Promoter Region of the Human Harvey ras Proto-oncogene: Similarity to the EGF Receptor Proto-oncogene Promoter: S. Ishii, G. T. Merlino, I. Pastan

Sequence of the Immunodominant Epitope for the Surface Protein on Sporozoites of Plasmodium vivax: T. F. McCutchan et al.

Brain-Derived Acidic Fibroblast Growth Factor: Complete Amino Acid Sequence and Homologies: G. Gimenez-Gallego et al.

A Model for Fibrinogen: Domains and Sequence: J. W. Weisel, C. V. Stauffacher, E. Bullitt, C. Cohen

Repression of the Immunoglobulin Heavy Chain Enhancer by the Adenovirus-2 E1A Products: R. Hen, E. Borrelli, P. Chambon

Detection of DNA Sequences in Nuclei in Suspension by in Situ Hybridization and Dual Beam Flow Cytometry: B. Trask, G. van den Engh; J. Landegent, N. J. in de Wal, M. van der Ploeg

A Human Y-Linked DNA Polymorphism and Its Potential for Estimating Genetic and Evolutionary Distance: M. Casanova et al.

COVER

Colloidal platinum precipitated onto photosynthetic membranes and entrapped on filter paper viewed in reflected and transmitted light (about ×8). This moistened material is capable of the simultaneous photoevolution of hydrogen and oxygen when irradiated at any wavelength in the chlorophyll absorption spectrum. The bright orange spots are punctures used to drain excess fluid from the clogged filter paper. See page 1373. [B. K. Norris and J. P. Eubanks, Oak Ridge National Laboratory, Oak Ridge, Tennessee 37831]
