PERSONNEL PLACEMENT

POSITIONS WANTED

Toxicologist/Teratologist. Ph.D. with postdoctoral experience. Broad background encompassing engineering, biological sciences, toxicology, pharmacology with project management. Hands on experience in acute toxicologic testing, developed in-house methodologies for toxicologic tests; wrote and edited scientific reports, standard operating procedures and protocols. Trained in contract laboratory settings. Experience in teaching and supervision. Seeking industrial or government position; will consider an academic post. Well-organized researcher, excellent communication skills. Available immediately.

Zoologist/Paleontologist, graduated, is looking for an entry level position as an independent researcher. Seeks studies in paleontological research, a position on the planet, a postdoc or teaching assistant.

POSITIONS OPEN

ANTARCTICA: DATA MANAGER

The Commission for the Conservation of Antarctic Marine Living Resources (CCAMLR) invites applications for the position of Data Manager to be responsible for the development and operation of the commission's computing and data facilities and the provision of data handling and analyses in support of the scientific community and its various expert groups. Applicants should have university qualifications in computing or biological sciences and experience in the operation and programming of advanced scientific data facilities and their application in the handling of marine biological and fisheries data. Knowledge of population dynamics and related assessment techniques is desirable. Fluency in one of the official languages, English, French, Spanish, or Russian, is desirable. The salary is based on the United Nations (UN) scales and will be in the range of U.S. $35,000 to U.S. $43,000 per annum net. Applications are due by 30 April 1986 to: The Executive Secretary, CCAMLR, Secretariat, United Nations, New York, N.Y. 10017. Blind ad replies should be addressed as follows:

1333 H Street, NW

Washington, DC 20005

POSITIONS OPEN

The Department of Veterinary Biosciences, College of Veterinary Medicine, University of Illinois, Urbana, is seeking applications for a tenured-track position at the ASSISTANT OR ASSOCIATE PROFESSOR level in the area of veterinary medicine. Individuals will teach clinical and macro- or microscopic anatomy in the veterinary medical curriculum and will be expected to develop a research program and participate in graduate instruction. Current research interests in the group are in endocrine/reproductive and hard tissue studies.

Candidates should possess the Ph.D. degree or equivalent with preference to those who also hold the D.V.M. equivalent. The applicant must use English fluently. Salary commensurate with qualifications. To ensure full consideration, applications should be received by 15 April 1986. Starting date 1/1987.

Send curriculum vitae and three letters of reference to: Dr. W. C. Wagner, Chair, Anatomy Search Committee, University of Illinois, Department of Veterinary Medicine, 2001 N. Lincoln, Urbana, IL 61801; telephone: 217-333-2506.

The University of Illinois is an Affirmative Action/Equal Opportunity Employer.

ASSISTANT OR ASSOCIATE PROFESSOR: The Department of Physiology is seeking applications for a tenure-track position from individuals whose research interests extend across traditional boundaries in a physiological basis. Applicants must have a strong background in physiology/biochemistry. Candidates should have sufficient research experience to demonstrate competence to pursue independent research, and will also be expected to participate in the educational programs of the department. Letters of application including curriculum vitae, a brief statement of research interests, and the names of three references should be sent to: Dr. Charles A. Barraclough, Department of Physiology, School of Medicine, University of Maryland, Baltimore, Maryland 21201.

The University of Maryland is an Equal Opportunity Employer.

ASSISTANT PROFESSOR: MOLECULAR BIOLOGY/GENETICS

The Department of Microbiology, Louisiana State University (LSU), Baton Rouge, Louisiana, as part of an expanding program, invites applications for tenure-track positions, rank open, with preference at the assistant professor level. Candidates must have postdoctoral experience, strong credentials in microbiology and/or molecular biology/genetics, and a commitment to establish a research program in one of the following areas: (i) gene expression and genome organization, with emphasis on microbial systems; (ii) molecular biology/genetics with applications in biotechnology, microbiology and genetics as related to applications of microbial physiology; and (iii) development of new types of research programs. Interested candidates should submit a statement of future research plans, and a list of three references by 11 April 1986 to: Dr. B. J. Siebeling, Department of Microbiology, 508 Life Sciences Building, Louisiana State University, Baton Rouge, LA 70803. LSU is an Equal Opportunity/Affirmative Action Employer.

ASSISTANT PROFESSOR: CANCER BIOLOGY

The Cancer Biology Section of the Division of Radiation Oncology, Department of Radiology, Washington University School of Medicine, St. Louis, Missouri, has an opening for an individual with training and experience in experimental oncology. Ideally, the candidate would have had previous work in the area of radiation biology and hyperthermia on experimental tumors and/or on mammalian cells in vitro. The opening is available 1 July 1986 with the possibility of a previous position. The salary is negotiable, dependent upon experience and qualifications of the individual. The qualified individual will have the opportunity to experience the ability to develop independent research careers and to become directly involved in teaching. The individual will be expected to function as an independent research investigator and participate in the training and supervision of graduate students in oncology. Applications should be received by 30 April 1986. Please send curriculum vitae, one or two recent reprints and the names, addresses, and telephone numbers of three references to: Dr. Joseph L. Roti Roti, Section of Cancer Biology, Washington University School of Medicine, 451 Forest Park Boulevard, St. Louis, MO 63108.
