POSITIONS OPEN

ACADEMIC/RESEARCH OPPORTUNITIES
IN DENTAL RESEARCH

Research positions available in an expanding clinical and basic research environment commensurate with experience and credentials. Research experience in areas related to periodontal diseases, cancer research, bone mineralization, developmental biology as it relates to maxillofacial and periodontal biology, or other bone-related research. Excellent opportunity for individuals who prefer a university environment. Applicants should have a Ph.D., D.D.S., or equivalent credentials. Applicants should have at least 2 years of postdoctoral experience and must have completed at least 5 years in academic or research training. Successful candidates are expected to demonstrate experience in a productive research program, plan detailed future research activities, and should promise for establishing independent, fundable research programs. Send curriculum vitae, bibliography, and three references to: Dr. Martha J. Adams, The University of Tennessee, Memphis, 894 Union Avenue, Memphis, TN 38163. An Affirmative Action/Equal Opportunity Employer.

ASSISTANT PROFESSOR. Two new tenure-track positions will become available in September 1987. The new positions will be offered to qualified individuals who have demonstrated the ability to carry out independent, vigorous, and productive research programs particularly in: comprehensive physical/chemical studies of protein structure and function, and membrane structure and function. Preference will be given to candidates with significant experience in designing and carrying out research, and continuing productivity, funded or pending research grant, and teaching experience. Duties will include teaching graduate and/or introductory level biochemistry and molecular biology courses, directing research projects, and maintaining a 9 month salary commensurate with experience. Please submit curriculum vitae, research synopsis (two to three pages), and letters of recommendation from three references by 15 December 1986. Send material to: Dr. Wesley D. Wicks, Biochemistry Department, University of Tennessee, Knoxville, TN 37996-0840. An Equal Opportunity Employer.

ASSISTANT PROFESSOR. Tenure-track position available 1 July 1987 for the conduct of basic and applied research in the chemistry/biochemistry of lipids related to food systems. Responsibilities will include directing the research of graduate students, teaching a graduate course in the basics principles of lipid chemistry, and student advising. There will be the opportunity to teach other courses and/or to develop more courses in the candidate's disciplinary field. Requirements include a Ph.D. in chemistry, biochemistry, food science, or a related field with a strong background in chemistry/biochemistry. Postdoctoral experience and publications in refereed journals are required. There should be willingness to develop a research proposal (including a detailed listing of scientific expertise, as well as interest in applying fundamental lipid chemistry to food systems), transcripts of undergraduate and graduate work, reprints of publications, and three letters of reference. Send applications and inquiries to: Professor D. S. Reid, Chairman, Search Committee, Department of Food Science and Technology, University of California, Davis, CA 95616. CLOSING DATE: 1 December 1986. The University of California is an Affirmative Action/Equal Opportunity Employer.

ASSISTANT PROFESSOR OF BIOCHEMISTRY. The Department of Biochemistry seeks applicants for a tenure-track faculty position at the level of assistant professor. Candidates must have at least 2 years of postdoctoral experience and an established record of productive research. Preference will be given to biochemists experienced in modern molecular approaches to studying the structure and function of biologically important proteins. Candidates from related biochemical research areas will also be considered. Applicants should send curriculum vitae, a statement of research interests, and three letters of recommendation by 15 December 1986 to:

Dr. Roger A. Laine, Chairman
Faculty Search Committee
Department of Biochemistry
Louisiana State University
Baton Rouge, LA 70803

Louisiana State University and Agricultural and Mechanical College is an Affirmative Action/Equal Opportunity Employer.

POSITIONS OPEN

ASSISTANT OR ASSOCIATE PROFESSOR (Ph.D.)/STATE UNIVERSITY OF NEW YORK, HEALTH SCIENCE CENTER is recruiting a full-time faculty position at the assistant/associate professor level in its research program of the Division of Hematology/Oncology, Department of Medicine, in the biological sciences with at least 2 years of postdoctoral experience in molecular biology. Applicants must be academically qualified for appointment at the assistant or associate professor level and willing to accept responsibilities in basic research, teaching, and administration. Rank commensurate with qualifications. Forward letters of interest and vitae, reprints, and three letters of reference to: Bernard J. Poiets, M.D., Head, Division of Hematology/Oncology, Department of Medicine, 750 East Adams Street, Syracuse, NY 13210. Letters should be received no later than 1 November 1986. An Equal Opportunity Employer.

OREGON STATE UNIVERSITY
Assistant Professor in Environmental Biology
The Department of General Science invites applications for a 9-month, full-time, tenure-track position at the assistant professor level in a developing program requiring research and teaching in the general area of human and environmental problems, which will emphasize the study, analysis, and interpretation of a wide variety of environmental problems. Teaching will include upper-division courses in environmental biology and science and the applicant's area of expertise. Qualified applicants will have a Ph.D. in a relevant field and an established record of productivity and research beyond postdoctoral training. It is anticipated that the successful candidate will have: an appropriate academic background in environmental science; a record indicative of significant research potential, including a strong publication record in peer-reviewed journals; grants and/or contracts awarded; presentations at national and international meetings; evidence of interest or involvement in cooperative research projects; and experience in teaching university level courses. A demonstrated commitment to teaching is an important requirement for the position. Starting date: 15 September 1987. Applicants should send a current curriculum vitae, a letter detailing research and teaching interests, and letters from three references to: Dr. Paul Faber, Chairman, Department of General Science, Oregon State University, Corvallis, OR 97331. The deadline for applications is 14 November 1986. Oregon State University is an Affirmative Action/Equal Opportunity Employer and complies with Section 504 of the Rehabilitation Act of 1973.

UNIVERSITY OF CALIFORNIA, SAN FRANCISCO (UCSF)
DEPARTMENT OF LABORATORY MEDICINE
Applications are invited for the following positions involved in a Transfusion Medicine Research Program directed by Dr. Girish N. Vyas. The projects are related to viral hepatitis, AIDS and host immune response. Starting date for all positions is 1 January 1987:

ASSISTANT/ASSOCIATE PROFESSOR IN RESIDENCE M.D./Ph.D. molecular virologist, preferably with experience in hepatitis work ($34,600 to $40,700).

ASSISTANT RESEARCH MOLECULAR BIOLOGIST Ph.D. with research experience in nucleic acid analysis ($34,600 to $40,700).

ASSISTANT RESEARCH IMMUNOLOGIST Ph.D. molecular immunologist with experience in immune complex assay and/or flow cytometry ($34,600 to $40,700).

STAFF RESEARCH ASSOCIATE II B.S./M.S. senior technician to perform research involving tissue culture, virology, and/or immunologic assays. Three SRA II positions are open ($23,652 to $28,451).

Applicants should send curriculum vitae, plus a list of three references to:
Joan Arenius
Project Coordinator
Box 9100, Department of Laboratory Medicine
University of California, San Francisco
San Francisco, CA 94109

UCSF is an Equal Opportunity/Affirmative Action Employer. Women and minorities are encouraged to apply.

PROFESSOR OF BIOCHEMISTRY
The Department of Biochemistry at the State University of New York (SUNY) at Buffalo seeks an established scientist to develop a center of excellence in an area of biochemistry. This individual will also supervise and contribute to the education of graduate and professional students and fellows. The successful candidate will have had several years of postdoctoral training. The department is particularly interested in candidates with experience in current cellular or molecular approaches to problems in cell biology, neurobiology, or developmental biology. The successful candidate will be expected to develop a strong, independent, research program and to teach graduate and medical students in an area of expertise. Send curriculum vitae, list of publications, names and addresses of three references, and a summary of research interests to: Dr. John K. Harting, Chairman, Department of Anatomy and Neurobiology, University at Buffalo, 3447 Main Street, Buffalo, New York 14214. Deadline for applications is 1 December 1986. The University of Wisconsin is an Equal Opportunity/Affirmative Action Employer.

ASSISTANT PROFESSOR—BIOCHEMISTRY
A tenure-track position is available in the Department of Biochemistry, Schools of Medicine, Dentistry, and Pharmacy at the State University of New York (SUNY) at Buffalo. The successful candidate will develop a productive research program with extramural funding, teach graduate, undergraduate, and professional students and train Ph.D. candidates. Talented biochemists are encouraged to submit curriculum vitae, list of publications, names of three references, and a summary of research objectives, and reprints or preprints. Applicants should have three letters of reference sent to:

Dr. John K. Harting, Chairman
Department of Biochemistry
College of Medicine
SUNY at Buffalo
Buffalo, New York 14214

An Equal Opportunity/Affirmative Action Employer Women and minorities are encouraged to apply.

ASSISTANT PROFESSOR OF PHARMACOLOGY
The Department of Pharmacology in the College of Medicine of the University of Tennessee, Memphis, invites applications from individuals with strong research credentials in molecular biology for a tenure-track position, available immediately, at the level of assistant professor. Applicants must have a Ph.D. and/or M.D. degree, have completed not less than 2 years of postdoctoral training, and have demonstrated the ability to conduct independent research. Preference will be given to applicants who apply the techniques of molecular biology to research problem areas. The successful candidate will develop a strong research program and to participate in departmental teaching programs. Starting date is 1 December 1986. To apply, please submit curriculum vitae, statement of research interests, and arrange for three letters of reference to be sent to: University of Tennessee, Memphis, Department of Pharmacology, 800 Madison Avenue, Memphis, TN 38163, attention Dr. Murray Heimberg. The University of Tennessee is an Equal Opportunity/Affirmative Action Employer.
