POSITIONS WANTED

Oceanographic Research Sabbatical. Desire year with marine laboratory/large vessel to study capture techniques and distributions of pelagic fishes near thermal fronts/other structure. Can provide 1/3 compensation beginning September 1987. J. M. Haynes, Biological Sciences, 41 Lost Valley Road, Westport, CT 06880.

10/17, 24

POSITIONS OPEN

ANATOMIST

Anatomy Department is hiring anatomists whose primary responsibility will be in gross anatomy. Applicants must be able to teach both histology and embryology. All applicants must have a Ph.D. or equivalent background and training. Qualified applicants should submit a recent curriculum vitae and references to: Academic Dean, Cleveland Chiropractic College, 6401 Rockhill Road, Kansas City, MO 64113.

ANATOMIST, ASSISTANT PROFESSOR, tenure-track. Primary teaching, neuroanatomy, secondary, assist in gross anatomy laboratory. Research open; preference for neuroscience or cell biology projects utilizing TEM, SEM, or cytochemistry. Please submit curriculum vitae, outline of research interests, and names of three references to: Dr. William E. Dossel, Chairman, Department of Anatomy, Louisiana State University School of Medicine, 2500 California, Omaha, NE 68178.

ASSISTANT PROFESSOR: Applications are invited for a position at the level of assistant professor (tenure-track) in the Department of Chemistry at Stanford University with primary research and teaching interests in inorganic or theoretical chemistry. Applicants must be strong in written and creative teaching and have a commitment to teaching undergraduates, as well as graduates. In applying, send curriculum vitae, list of publications, a description of past research (three pages or less) and, in addition, three letters of recommendation sent to: Professor John Ross, Chairman, Department of Chemistry, Stanford University, Stanford, CA 94305. Stanford is committed to Equal Opportunity through Affirmative Action in Employment, and we are especially eager to identify minority persons and women with appropriate qualifications. Applications should be received by 1 November 1986.

ASSISTANT PROFESSOR: Two new tenure-track positions will become available in September 1987. The new appointees will be offered to qualified individuals who have demonstrated the ability to carry on independent, vigorous, and productive research programs particularly in: control of gene expression, physical biochemistry, protein structure and function, and membrane structure and function. Preference will be given to candidates with significant postdoctoral experience, established productivity, funded or pending research grant, and teaching experience. Duties will include teaching graduate and/or introductory level courses and research seminars. The appointment is for 9 months at a salary commensurate with experience. Please submit curriculum vitae, research synopsis (two to three pages) and letters of recommendation from three referees by 15 December 1986. Send material to: Dr. Wesley D. Wicks, Biochemistry Department, University of Tennessee, Knoxville, TN 37996-0840. An Equal Opportunity Employer.

10/17, 24, 31

POSITIONS OPEN

DEPARTMENT OF PLANT PATHOLOGY AND CROP SCIENCE

ASSISTANT OR ASSOCIATE PROFESSOR

Applications are invited for a tenure-track position in the area of biochemical mechanisms of fungal pathogenicity and/or host plant resistance. Excellent opportunities exist to collaborate with agricultural scientists, weed scientists, plant physiologists, biochemists, and molecular biologists. Graduate advising is expected and opportunities for graduate teaching may be developed. A Ph.D. degree in plant pathology, plant physiology, microbiology, biochemistry, or related field is required. Familiarity with plant pathogenesis/mycology and host-pathogen interactions in general, with particular experience in recombinant DNA techniques is desirable. Please submit curriculum vitae, transcripts, lists of publications, and three or more letters of recommendation sent directly to: Dr. W. Schneider, Chairman, Department of Plant Pathology and Crop Science, Box 187, College of Agriculture Sciences, University of Wisconsin, Madison, WI 53706. Deadline for application is 1 December 1986, or until a suitable applicant is identified. Louisiana Agricultural Experiment Station is an Equal Opportunity/Affirmative Action Employer.

DEPARTMENT OF MICROBIOLOGY

University of Guelp

Invites applications for a tenure-track appointment as ASSISTANT PROFESSOR. The appointee will be expected to develop an active research program in either microbial technology or microbial diseases of fish, and communicate and cooperate in teaching in microbiology. A broad education in general microbiology, a Ph.D. degree, and postdoctoral or equivalent experience required. Applicants should indicate teaching experience and areas of teaching competence in microbiology. Send curriculum vitae and the names of three referees, by 31 December 1986 to: The Chairperson, Department of Microbiology, College of Biological Science, University of Guelp, Guelp, Ontario, Canada N1G 2W1. Position subject to final budgetary approval.

ASSISTANT PROFESSOR, IMMUNOLOGY

We are seeking, in particular, biochemists and molecular biologists who are interested in studying the control of lymphocyte growth, differentiation, or function. An excellent environment for research is complemented by the absence of required teaching. Applicants should submit résumé and three letters of reference to: David I. Bell, Ph.D., Chief, Laboratory of Immunology, B 337, Boston University Medical Center, 75 East Newton Street, Boston, MA 02118. An Equal Opportunity/Affirmative Action Employer.

ASSISTANT-ASSOCIATE PROFESSOR

The Biomedical Medicine Section of the Evans Department of Clinical Research and Department of Medicine, Boston University Medical Center, is seeking a molecular biologist/biochemist with a research interest in protein membrane interactions. An M.D. and/or Ph.D. is required and postdoctoral experience is desirable. Interested candidates should send their curriculum vitae, an outline of future research interests, and the names of three referees to: John R. Murphy, Biomedical Medicine, E336, University Hospital, 75 East Newton Street, Boston, MA 02118. An Equal Opportunity/Affirmative Action Employer.

ASSISTANT PROFESSOR OF ANIMAL PHYSIOLOGY

Applications are invited for a tenure-track position in the area of animal physiology. Background in animal physiology, with an interest in reproductive physiology is preferred. Experience in molecular biology is required. Prior postdoctoral experience and/or graduate training in animal physiology are desirable, but not essential. Submit your application with names and addresses of three references in writing to: Dr. Mark E. Sperlich, Department of Animal Science, Cornell University, Ithaca, NY 14853, by 15 January 1987.

Cornell University is an Equal Opportunity/Affirmative Action Employer.
