This Week in Science

Overhead and Symbiosis

The Mitochondrion Updated: M. D. Lane, P. L. Pedersen, A. S. Mildvan

Star Wars and the Summit
San Diego's Tough Stand on Research Fraud
R&D Budgets: Congress Leaves a Parting Gift
Toxic Waste, Energy Bills Clear Congress

Breifing: Britain's Scientific Decline ■ Britain to Create New Network of Science and Technology Schools ■ Refusenik Geneticist Released ■ Academic Pay Cap Could Result from California Initiative ■ German Decision Improves Prospects for European Mini-Shuttle ■ NSF Examines Detail of Its Salary Support ■ Comings and Goings

Mystery Disease at Lake Tahoe Challenges Virologists and Clinicians

What Does It Mean to Be "Rare" or "Likely"?

The 1986 Nobel Prize for Physiology or Medicine

Asking Impossible Questions About the Economy and Getting Impossible Answers

Predicting New Solids and Superconductors: M. L. Cohen
Fertility in the United States: C. F. Westoff
Ablation of Polymers and Biological Tissue by Ultraviolet Lasers: R. Srinivasan

Molecular Cloning and Expression of Neuroleukin, a Neurotrophic Factor for Spinal and Sensory Neurons: M. E. Gurney, S. P. Heinrich, M. R. Lee, H.-s. Yin

Neuroleukin: A Lymphokine Product of Lectin-Stimulated T Cells:

SCIENCE is published weekly on Friday, except the last week in December, and with an extra issue in May by the American Association for the Advancement of Science, 1333 H Street, NW, Washington, DC 20005. Second-class postage (publication No. 464460) paid at Washington, DC, and at an additional entry. Now combined with The Scientific Monthly® Copyright © 1996 by the America Association for the Advancement of Science. The title SCIENCE is a registered trademark of the AAAS. Domestic individual membership and subscription (51 issues): $65. Domestic institutional subscription (51 issues): $98. Foreign postage extra: Canada $24, other (surface mail) $27, airmail via Amsterdam $65. First class, airmail, school-year, and student rates on request. Single copies $2.50 ($3 by mail); back issues $4 ($4.50 by mail); Biotechnology issue, $5.50 ($6 by mail); classroom rates on request; Guide to Biotechnology Products and Instruments $16 ($17 by mail). Change of address: allow 6 weeks, giving old and new addresses and seven-digit account number. Authorization to photocopy material for internal or personal use under circumstances not falling within the fair use provisions of the Copyright Act is granted by AAAS to libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of $1 per copy plus $0.10 per page is paid directly to CCC, 21 Congress Street, Salem, Massachusetts 01970. The identification code for Science is 0036-8075/86 $1 + .10. Postmaster: Send Form 3579 to Science, 1333 H Street, NW, Washington, DC 20005. Science is indexed in the Reader's Guide to Periodical Literature and in several specialized indexes.

The American Association for the Advancement of Science was founded in 1848 and incorporated in 1874. Its objects are to further the work of scientists, to facilitate cooperation among them, to foster scientific freedom and responsibility, to improve the effectiveness of science in promoting the welfare of human, and to increase public understanding and appreciation of the importance and promise of the methods of science in human progress.
Reports

585 Characterization of Compounds That Induce Symbiosis Between Sea Anemone and Anemone Fish: M. Murata, K. Miyagawa-Koshima, K. Nakanishi, Y. Naya

587 Radar Glory from Buried Craters on Icy Moons: V. R. Eshleman

590 Refractory Minerals in Interplanetary Dust: R. Christofferson and P. R. Buseck

593 Identification of Paramyosin as Schistosome Antigen Recognized by Intradermally Vaccinated Mice: D. E. Lanar, E. J. Pearce, S. L. James, A. Sher

610 Isolation and Sequence of L3T4 Complementary DNA Clones: Expression in T Cells and Brain: B. Tourville, S. D. Gorman, E. H. Field, T. Hunkapiller, J. R. Barnes
