651 This Week in Science

Editorial

653 The Trade Deficit

Letters

655 Textbook Dispute: G. L. Klerman; E. A. Miller; J. H. Friedman; J. O. Cavenar, Jr. ■ Stereo Viewing: P. T. B. Runk

News & Comment

658 Recalculating the Cost of Chernobyl
659 Soviets Disinvited to Join Drilling Program
660 Female Math Anxiety on the Wane
661 Academy Rejects Huntington Nomination
662 NAS Elects New Members
663 Yb or Not Yb? That Is The Question
664 Superconductor Race Heats Up
665 Briefing: APS Urges No Early Deployment of SDI ■ NIMH Headhunt Reopened
■ Shapiro to Leave Michigan for Princeton ■ Two Committees Vote to mothball the N Reactor ■ Hughes Comments on Fredrickson's Leave ■ Mars Observer: Still 1992

Research News

666 Asteroid Impact Gets More Support ■ Beyond the K-T Boundary
668 The Origin of the Modern Human Mind: The Human Psyche Was Forged by Competition ■ Seeking Hidden Messages in Stone Tool Technology ■ Refined Speech the Key to Being Thoroughly Modern? ■ Body Ornaments Imply an Esthetic Revolution
671 Glasnost Comes to Soviet Physics

Articles

673 Nuclear Power After Chernobyl: J. F. Ahearne
680 Some Concepts in Reaction Dynamics: J. C. Polanyi

Research Articles

690 A Small Viral RNA Is Required for in Vitro Packaging of Bacteriophage φ29 DNA: P. Guo, S. Erickson, D. Anderson
694 Bacterial Resistance to β-Lactam Antibiotics: Crystal Structure of β-Lactamase from Staphylococcus aureus PCI at 2.5 Å Resolution: O. Herzberg and J. Moul

SCIENCE is published weekly on Friday, except the last week in December, and with an extra issue in February by the American Association for the Advancement of Science, 1333 H Street, NW, Washington, DC 20005. Second-class postage (publication No. 484460) paid at Washington, DC, and at an additional entry. Now combined with The Scientific Monthly. Copyright © 1987 by the American Association for the Advancement of Science. The title SCIENCE is a registered trademark of the AAAS. Domestic individual membership and subscription (51 issues): $65. Domestic institutional subscription (51 issues): $95. Foreign postage extra: Canada $32, other (surface mail) $27, air-surface via Amsterdam $55. First class, airmail, school-year, and student rates on request. Single copies $2.50 ($3 by mail); back issues $4 ($4.50 by mail); Biotechnology issue, $5.50 ($6 by mail); classroom rates on request; Guide to Biotechnology Products and Instruments $16 ($17 by mail). Change of address: allow 6 weeks, giving old and new addresses and seven-digit account number. Authorization to photocopy material for internal or personal use under circumstances not falling within the fair use provisions of the Copyright Act is granted by AAAS to libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of $1 per copy plus $0.10 per page is paid directly to CCC, 21 Congress Street, Salem, Massachusetts 01970. The identification code for Science is 0036-8075/87 $1 + .10. Postmaster: Send Form 3579 to Science, 1333 H Street, NW, Washington, DC 20005. Science is indexed in the Reader's Guide to Periodical Literature and in several specialized indexes.

The American Association for the Advancement of Science was founded in 1848 and incorporated in 1874. Its objects are to further the work of the scientists, to facilitate cooperation among them, to foster scientific freedom and responsibility, to improve the effectiveness of science in the promotion of human welfare, and to increase public understanding and appreciation of the importance and promise of the methods of science in human progress.
Reports

703 Microbial Trace-Fossil Formation, Biogenous, and Abiotic Weathering in the Antarctic Cold Desert: E. I. FRIEDMANN AND R. WEED

712 External Calcium Ions Are Required for Potassium Channel Gating in Squid Neurons: C. M. ARMSTRONG AND J. LOPEZ-BARNEO

719 D1 Dopamine Receptor Activation Required for Postsynaptic Expression of D2 Agonist Effects: J. R. WALTERS, D. A. BERGSTROM, J. H. CARLSON, T. N. CHASE, A. R. BRAUN

722 Proteolytic Self-Cleavage of Hepatitis B Virus Core Protein May Generate Serum e Antigen: R. H. MILLER

Book Reviews

728 Altruism and Aggression, reviewed by N. EISENBERG ■ Science and Civilisation in China, P. S. ASHTON ■ Kimberlites, D. J. SCHULZE ■ Atmospheres and Ionospheres of the Outer Planets and Their Satellites, J. H. WAITE, JR. ■ Books Received

Products & Materials

731 Large Capacity Vial Crusher ■ Ultrasonic Cleaners ■ Scanning Acoustic Microscope ■ File and Directory Utility ■ Portable 30-Mb Hard Disk ■ Superparamagnetic Polymer Particles ■ Slides, Prints from Computer Screens ■ Monoclonal Antibodies to Rats ■ Literature

Cover: Battleship Promontory in the Convoy Range, southern Victoria Land, Antarctica. The surface of the rugged sandstone rocks is colonized by cryptoendolithic microorganisms that cause extensive weathering on the surface. The characteristic weathering pattern may be preserved as trace fossil when changes in the environment result in the death of the community. See page 703. [E. Imre Friedmann, Florida State University, Tallahassee, FL 32306]
Science 236 (4802), 651-731.
