**Notes:**
- **Science** is published weekly on Friday, except the last week in December, and with an extra issue in February by the American Association for the Advancement of Science, 1333 H Street, NW, Washington, DC 20005. Second-class postage (publication No. 484460) paid at Washington, DC, and at an additional entry. Now combined with The Sciences Monthly. Copyright © 1987 by the American Association for the Advancement of Science. The title SCIENCE is a registered trademark of the AAAS. Domestic individual membership and subscription (51 issues): $66. Domestic institutional subscription (51 issues): $88. Foreign postage extra: Canada $32, other (surface mail) $27, air-surface via Amsterdam $55. First class, airmail, school-years, and student rates on request. Single copies $2.50 ($6 by mail); back issues $4 ($4.50 by mail); Biotechnology issue, $5.50 ($6 by mail); classroom rates on request; Guide to Biotechnology Products and Instruments $16 ($17 by mail). Change of address: allow 6 weeks, giving old and new addresses and seven-digit account number. Authorization to photocopy material for internal or personal use under circumstances not falling within the fair use provisions of the Copyright Act is granted by AAAS to libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of $1 per copy plus $0.10 per page is paid directly to CCC, 21 Congress Street, Salem, Massachusetts 01970. The identification code for Science is 0036-8075/83 $1 + .10. Postmaster: Send Form 3579 to Science, 1333 H Street, NW, Washington, DC 20005. Science is indexed in the Reader's Guide to Periodical Literature and in several specialized indexes.
- The American Association for the Advancement of Science was founded in 1848 and incorporated in 1874. Its objects are to further the work of scientists, to facilitate cooperation among them, to foster scientific freedom and responsibility, to improve the effectiveness of science in the promotion of human welfare, and to increase public understanding and appreciation of the importance and promise of the methods of science in human progress.
Photomicrograph of pancreas from 8½-week-old transgenic mouse carrying an elastase-SV40 gene, stained with Heidenhain's Aniline Blue. A normal islet is adjacent to hypercellular and dysplastic acini, representing a preneoplastic stage associated with expression of SV40 large T antigen in exocrine cells (magnification, about ×800). See page 188. [Albee Messing, School of Veterinary Medicine, University of Wisconsin-Madison, WI 53706]

188 Pancreatic Neoplasia Induced by SV40 T-Antigen Expression in Acinar Cells of Transgenic Mice: D. M. Ornitz, R. E. Hammer, A. Messing, R. D. Palmiter, R. L. Brinster

200 d-Alanine in the Frog Skin Peptide Dermorphin Is Derived from L-Alanine in the Precursor: K. Richter, R. Egger, G. Kreil

202 Transformation by Oncogenes Encoding Protein Kinases Induces the Metastatic Phenotype: S. E. Egan, J. A. Wright, L. Jakolim, K. Yanagihara, R. H. Bassin, A. H. Greenberg

Meetings

212 Gordon Research Conferences: "Frontiers of Science," 1988 Winter Conferences Program • Registration Form

Book Reviews

221 Fifty Years of Neutron Diffraction, reviewed by J. Axe • Diseases and Plant Population Biology, A. H. Purcell and S. E. Lindow • Seabirds, R. G. B. Brown • Calcium in Muscle Activation, A. G. Szent-Györgyi • Books Received

Products & Materials

225 Microplate Reader • Molecular Software System • Fermentation Control System • Microplate for DNA Sequence Reactions • MAbs Against Human Leukocytes • Agarose for PFGE • Benchtop Autoclave • Literature

Board of Directors

Laurence Bossard • Retiring President, Chairman
Sheila E. Widnall • President
Walter E. Massey • President-elect
Michael M. Griffiths • Executive Officer

Editorial Board

Robert McC. Adams • President
Floyd E. Bloom • Floyd E. Bloom
