Critical Protein Intermetallic Compounds for High-Temperature Structural Use: A. I. Taub and R. L. Fleischer

Protein Design, a Minimalist Approach: W. F. Degrado, Z. R. Wasserman, and J. D. Leary

Function of a Bacterial Activator Protein That Binds to Transcriptional Enhancers: D. L. Popham, D. Szeto, J. Keener, and S. Kustu

Molecular Dynamics Simulation of a Phospholipid Micelle: J. J. Wendoloski, S. J. Kimlatian, C. E. Schutt, and F. R. Salesme

Inside AAAS

672 Awards—1989 • Pacific Division Meeting • 49ers and AAAS: San Francisco Winners • AAAS Fellows: L. McDaniel • Foreign Student Grants • Memo to Members: A. Herschman

Book Reviews

674 Gap Juncions, reviewed by J. D. Sheridan • From Clocks to Chaos, W. M. Schaffer • Mutation, Developmental Selection, and Plant Evolution, D. M. Waller • Fluid Flow in Sedimentary Basins and Aquifers, G. Garven • Books Received

Software Reviews

679 Symbolic Manipulation Programs for the Personal Computer: K. R. Foster and H. H. Bau

Products & Materials

685 Cryogenic Inventory Software • Software for Technical Graphics • Thermal Stage for Petri Dishes • Ductless Fume Hood • High Molecular Weight Marker • DNA Sequencing Software • Manual Peptide Synthesizer • Literature
