*SCIENCE* is published weekly on Friday, except the last week in December, and with a supplement in March by the American Association for the Advancement of Science, 1333 H Street, NW, Washington, DC 20005. Second-class Non-profit postage (publication No. 484460) paid at Washington, DC, and at an additional entry. Copyright © 1990 by the American Association for the Advancement of Science. The title *SCIENCE* is a registered trademark of the AAAS. Domestic individual membership and subscription ($1 issues): $75. Domestic institutional subscription ($1 issues): $120. Foreign postage extra: Canada $46, other (surface mail) $46, air mail via Amsterdam $85. First class, airmail, school-year, and student rates on request. Single copy sales: Current issue, $3.50; back issues, $5.00; Biotechnology issue, $6.00 (for postage and handling, add per copy $0.50 U.S., $1.00 all foreign); Guide to Biotechnology Products and Instruments, $20 (for postage and handling, add per copy $1.00 U.S., $1.50 Canada, $2.00 all foreign). Bulk rates on request. Authorization to photocopy material for internal or personal use under circumstances not falling within the fair use provisions of the Copyright Act is granted by AAAS to libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of $1 per copy plus $0.10 per page is paid directly to CCC, 27 Congress Street, Salem, Massachusetts 01970. The identification code for Science is 0036-8075/83 $1 + .10. Change of address: allow 6 weeks, giving old and new addresses and 11-digit account number. Postmaster: Send Form 3579 to Science, P.O. Box 1723, Riverton, NJ 08077. Science is indexed in the Reader’s Guide to Periodical Literature and in several specialized indexes.

The American Association for the Advancement of Science was founded in 1848 and incorporated in 1874. Its objectives are to further the work of scientists, to facilitate cooperation among them, to foster scientific freedom and responsibility, to improve the effectiveness of science in the promotion of human welfare, to advance education in science, and to increase public understanding and appreciation of the importance and promise of the methods of science in human progress.
The mouth of a borehole drilled to the bottom of ice stream B, West Antarctic Ice Sheet. By means of such boreholes, about 1050 meters deep, observations of physical conditions at the base of the rapidly moving ice stream have been made (see page 57). Frost crystals have formed around the hole during overwintering. The mouth of the hole at the snow surface is defined by a circle 12.5 centimeters in diameter cut in plywood. [Photo by B. Kamb]

**Inside AAAS**

57 Physical Conditions at the Base of a Fast Moving Antarctic Ice Stream: H. Engelhardt, N. Humphrey, B. Kamb, M. Fahnestock

60 Dating Pleistocene Archeological Sites by Protein Diagenesis in Ostrich Eggshell: A. S. Brooks, P. E. Hare, J. E. Kokis, G. H. Miller, R. D. Ernst, F. Wendorg

67 A Cytosolic Protein Catalyzes the Release of GDP from p21<sup>ras</sup>: A. Wolfman and I. G. Macara

69 Characterization of an Extremely Large, Ligand-Induced Conformational Change in Plasminogen: W. F. Mangel, B. Lin, V. Ramakrishnan

76 Association of Human Papillomavirus Types 16 and 18 E6 Proteins with p53: B. A. Werness, A. J. Levine, P. M. Howley

83 The Effect of Electrical Coupling on the Frequency of Model Neuronal Oscillators: T. B. Kepler, E. Marder, L. F. Abbott
