*SCIENCE* is published weekly on Friday, except the last week in December, and with a supplement in March by the American Association for the Advancement of Science, 1333 H Street, NW, Washington, DC 20005. Second-class non-profit postage (publication No. 484460) paid at Washington, DC, and at an additional entry. Copyright © 1990 by the American Association for the Advancement of Science. The title *SCIENCE* is a registered trademark of the AAAS. Domestic individual membership and subscription (51 issues): $75. Domestic institutional subscription (51 issues): $120. Foreign postage extra: Canada $46; other (surface mail) $46; air mail via Amsterdam $85. First class, airmail, school-year, and student rates on request. Single copy sales: Current issue, $3.50; back issues, $5.00; Biotechnology issue, $6.00 (for postage and handling, add per copy $0.50 U.S., $1.00 all foreign); Guide to Biotechnology Products and Instruments, $20 (for postage and handling add per copy $1.00 U.S., $1.50 Canada, $2.00 other foreign). Bulk rates on request. Authorization to photocopy material for internal or personal use under circumstances not falling within the fair use provisions of the Copyright Act is granted by AAAS to libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of $1 per copy plus $0.10 per page is paid directly to CCC, 27 Congress Street, Salem, Massachusetts 01970. The identification code for Science is 0036-8075/83 $1.10. Change of address: allow 6 weeks, giving old and new addresses and 11-digit account number. Postmaster: Send Form 3579 to Science, P.O. Box 1723, Riverton, NJ 08077. Science is indexed in the Reader's Guide to Periodical Literature and in several specialized indexes. The American Association for the Advancement of Science was founded in 1848 and incorporated in 1874. Its objectives are to further the work of scientists, to facilitate cooperation among them, to foster scientific freedom and responsibility, to improve the effectiveness of science in the promotion of human welfare, to advance education in science, and to increase public understanding and appreciation of the importance and promise of the methods of science in human progress.
COVER. Enhanced Landsat Thematic Mapper image of the area of the Cady Mountains and Bristol Mountains in the eastern Mojave Desert, California. Color variations primarily denote contrasting iron- and hydroxyl-bearing constituents of the surficial rocks and sediments. The image enhancement reveals faults and associated structural features that were overlooked in previous field mapping. See page 1000. [Processing by Jet Propulsion Laboratory, California Institute of Technology]

993 Ultradeep (Greater Than 300 Kilometers), Ultrasmall Upper Mantle Xenoliths: S. E. Haggerty and V. Sautter
996 Increase in the Stratospheric Background Sulfuric Acid Aerosol Mass in the Past 10 Years: D. J. Hofmann
1000 Faults in the Mojave Desert, California, as Revealed on Enhanced Landsat Images: J. P. Ford, R. K. Dokka, R. E. Crippen, R. G. Blom
1006 Blocking of the Initiation-to-Elongation Transition by a Transdominant RNA Polymerase Mutation: M. Kashley, J. Lee, K. Zaleenskaya, V. Nikiforov, A. Goldfarb
1012 A Novel Nucleoprotein Complex at a Replication Origin: M. Serrano, M. Salas, J. M. Hermoso
1016 Shared Human T Cell Receptor Vβ Usage to Immunodominant Regions of Myelin Basic Protein: K. W. Wucherpfennig, K. Ota, N. Endo, J. G. Seidman, A. Rosenzweig, H. L. Weiner, D. A. Hafler

Book Reviews
1025 Technical Workers in an Advanced Society, reviewed by P. Meirskins || Marmots, G. R. Michener || Ecology and Natural History of Tropical Bees, M. L. Winston || Electric Fields in Vertebrate Repair, A. E. Sowers || Books Received
