AAAS Annual Elections: Preliminary Announcement

The Association’s 1990 elections for general and section officers will be held in late August. All members will receive a general ballot for election of the president-elect, members of the Board of Directors, and members of the Committee on Nominations. Members registered in at least one electorate (section) will also receive a ballot for election of section chair-elect, member-at-large of the section committee, and members of the Electorate Nominating Committee for that electorate. Members enrolled in the electorates of Sections J, K, L, M, N, O, and P will also elect Council delegates. Those members who are enrolled in second and third electorates will receive separate ballots for election of section officers for those electorates.

Candidates for all positions are listed below. Additional names may be placed in nomination for any position by petition submitted to the Executive Officer not later than 16 July. Petitions nominating candidates for president-elect, members of the Board, or members of the Committee on Nominations must bear the signatures of at least 100 members of the Association. Petitions nominating candidates for any electorate or section position must bear the signatures of at least 50 members of the electorate. A petition to place an additional name in nomination for any position must be accompanied by the nominee’s curriculum vitae and statement of acceptance of nomination.

Biographical information about the following candidates will be enclosed with the ballot mailed to members in August.

Science and Art
The AAAS Art Program will present the exhibit "Elements of Chaos," new bronze works by Rhonda Roland Shearer, in the first floor atrium gallery from 7 June to 31 August. The exhibition consists of six works: "The Five Platonic Solids" and "The Anthropocentrism Series: My Body Is a Battleground." In these sculptures Shearer explores concepts of theory, fractal geometry, and a renewal of man’s link with nature. In "The Five Platonic Solids," plant forms in various stages of growth climb on the open framework of a tetrahedron, cube, octahedron, dodecahedron, and icosahedron. To commemorate Earth Day in April 1990, a public sculpture by Shearer, "Pangea," was installed at 23rd
