*SCIENCE (ISSN 0036-8075) is published weekly on Friday, except the last week in December, by the American Association for the Advancement of Science, 1333 H Street, NW, Washington, DC 20005. Second-class postage (publication No. 484460) paid at Washington, DC, and additional mailing offices. Copyright © 1990 by the American Association for the Advancement of Science. The title SCIENCE is a registered trademark of the AAAS. Domestic individual membership and subscription (51 issues): $90. Domestic institutional subscription (51 issues): $150. Foreign postage extra: Canada $46, other (surface mail) $46, air mail via Amsterdam $85. First class, airmail, school-year, and student rates on request. Change of address: allow 6 weeks, giving old and new addresses and 11-digit account number. Postmaster: Send change of address to Science, P.O. Box 1723, Riverton, NJ 08077. Single copy sales: Current issue, $3.50; back issues, $5.00; Biotechnology issue, $6.00 (for postage and handling, add per copy $0.50 U.S., $1.00 all foreign). Guide to Biotechnology Products and Instruments, $20 (for postage and handling add per copy $1.00 U.S., $1.50 Canada, $2.00 other foreign). Bulk rates on request. Authorization to photocopy material for internal or personal use under circumstances not falling within the fair use provisions of the Copyright Act is granted by AAAS to libraries and others users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of $1 per page plus $0.10 per page is paid directly to CCC, 27 Congress Street, Salem, Massachusetts 01970. The identification code for Science is 0036-8075/83 $1 + .10. Science is indexed in the Reader's Guide to Periodical Literature and in several specialized indexes. The American Association for the Advancement of Science was founded in 1848 and incorporated in 1874. Its objectives are to further the work of scientists, to facilitate cooperation among them, to foster scientific freedom and responsibility, to improve the effectiveness of science in the promotion of human welfare, to advance education in science, and to increase public understanding and appreciation of the importance and promise of the methods of science in human progress.
902 Slow Mortality Rate Accelerations During Aging in Some Animals Approximate That of Humans: C. E. Finch, M. C. Pike, M. Witten
906 Endogenous Reproductive Rhythms in a Tropical Bird: E. Gwinner and J. Dittami
908 Increased Life-Span of age-1 Mutants in Caenorhabditis elegans and Lower Gompertz Rate of Aging: T. E. Johnson
918 Presentation of Exogenous Antigen with Class I Major Histocompatibility Complex Molecules: K. L. Rock, S. Gamble, L. Rothstein
921 The Role of B Cells for in Vivo T Cell Responses to a Friend Virus-Induced Leukemia: K. R. Schultz, J. P. Klarnet, R. S. Gieni, K. T. HayGlass, P. D. Greenberg
924 Inhibition of Leishmanias But Not Host Macrophages by the Antitubulin Herbicide Trifurcalin: M. M.-Y. Chang and D. Fong
926 Cell Alignment Required in Differentiation of Myxococcus xanthus: S. K. Kim and D. Kaiser
928 Interphase and Metaphase Resolution of Different Distances Within the Human Dystrophin Gene: J. B. Lawrence, R. H. Singer, J. A. McNeil

Book Reviews

937 Dirac, reviewed by M. Dresden n Monte Verde, R. E. Morlan n Books Received

Products & Materials

940 Scientific Word Processing Software n Magnetic Isolation of DNA n Programmable Wavelength HPLC Detector n Fourier Transform Mass Spectrometer n Top-Loading Balances n Automated Biopurification n Microscope Stage Warming Plate n Literature
