The American Association for the Advancement of Science (AAAS) is a registered trademark of the AAAS. Domestic membership and subscription (51 issues): $80. Domestic institutional subscription (51 issues): $150. Foreign postage extra: Canada $46, other (surface mail) $46, air mail via Amsterdam $85. First class, airmail, school-year, and student rates on request. Change of address: allow 6 weeks, giving old and new addresses and 11-digit account number. Postmaster: Send change of address to Science, P.O. Box 1723, Riverton, NJ 08077. Single copy sales: Current issue, $3.50; back issues, $5.00. Biotechnology issue, $8.00 (for postage and handling add per copy $1.00 U.S., $1.00 all foreign). Guide to Biotechnology Products and Instruments, $20 (for postage and handling add per copy $1.00 U.S., $1.50 Canada, $2.00 other foreign). Bulk rates on request. Authorization to photocopy material for internal or personal use, or under license, is granted to libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of $1 per copy plus $.10 per page is paid directly to CCC, 27 Congress Street, Salem, Massachusetts 01970. The identification code for Science is 0036-8075/83 $1 + .10. Science is indexed in the Reader's Guide to Periodical Literature in several specialized indexes. The American Association for the Advancement of Science was founded in 1848 and incorporated in 1874. Its objectives are to further the work of scientists, to facilitate cooperation among them, to foster scientific freedom and responsibility, to improve the effectiveness of science in the promotion of human welfare, to advance education in science, and to increase public understanding and appreciation of the importance and promise of the methods of science in human progress.

Photoacoustic “Signatures” of Particulate Matter: Optical Production of Acoustic Monopole Radiation: G. J. Diebold, M. I. Khan, S. M. Park

A Bangiophyte Red Alga from the Proterozoic of Arctic Canada: N. J. Butterfield, A. H. Knoll, K. Swett

Hematite Nanospheres of Possible Colloidal Origin from a Precambrian Banded Iron Formation: J. H. Ahn and P. R. Buseck

Different Tumor-Derived p53 Mutants Exhibit Distinct Biological Activities: O. Haley, D. Michalovitz, M. Oren

Control of Yeast Mitotic Signal Transduction by a Mannalpian γ-Adrenergic Receptor and G, α Subunit: K. King, H. G. Dohlman, J. Thorner, M. G. Caron, J. L. Leftkowitz

Gordon Research Conferences: Winter Program: A. M. Cruickshank • Registration Form

AAAS 91: The AAAS Annual Meeting; Advance Registration Form • Hotel Reservation Instructions

Before Newton, reviewed by S. Schaffer • The Development of Newtonian Calculus in Britain, 1700–1800, M. S. Mahoney • Population Biology of Genes and Molecules, B. Walsh • Evolution of Laurussia, K. Burke • Books Received

Shelving System for Liquid Handling • Messenger RNA Purification Technique • Automated DNA and RNA Isolator • Integrator with Data-Handling Capability • Nonisotopic Oligonucleotide Labeling Kits • Protein Immunoblotting Instrument • Synthetic HIV Peptides • Literature
