CAUTION: This May Change The Way You Read DNA Sequencing Films

The Discovery Series™ Model DNA 35
Automatically Reads DNA Sequencing Films

Hardware, Software and how it will change the way you do DNA Sequencing Reading.

To compete in today's world, you can use the old tools... or... choose today's technology. The Discovery Series™ model DNA 35.

- It gives you the power to scan, read, edit and compare 3,000 bases in 30 minutes.
- It fits on a desktop or lab bench.
- The new DeskTop® scanner provides the image to work with.
- DNA Code® v2.0. A new software release with more sequence reading performance to turn your image into data.
- New 16 MIPS UNIX® minicomputers work as fast as you want.
- Systems start as low as $22,000.
- It also comes with Quantity One®—1-D gel and dot/slot blot software.

Scan your film in seconds at 63.5 micron resolution and watch the digitized image flow onto your computer screen in real-time. The combination of our new DNA sequence reading software, a new high-resolution scanner, and UNIX® based computers gives you real-life, magnified graphics to work with. Automatic base-calling and interactive editing tools finish the task.

1-D gels, dot & slot blots? Yes, the model DNA 35 can quantitate all types of 1-D gels and films.

You're doing more than DNA Sequencing. That's why the DNA 35 also comes with Quantity One® the software package for the quantification of all types of 1-D applications and dot/slot blots.

Call PDI toll-free today for more information. Call 1-800-777-6834 (USA only) to set up a demonstration of The Discovery Series™ model DNA 35 sequencing DNA in your lab. We look forward to working with you to turn your data into results.

Your results are worth their weight in gold

Immunogold detection from Amersham International

- **AuroProbe One**
  Multipurpose
  Ultra small probe
  Improved tissue sensitivity

- **AuroProbe EM**
  For electron microscopy
  Uniform particle sizes
  No confusion with biological molecules

- **AuroProbe LM**
  For light microscopy
  Simple and sensitive
  Permanent record

- **AuroProbe BL plus**
  For blotting
  Safe, simple and sensitive

- **IntenSE M**
  For silver enhancement of gold probes in microscopy

- **IntenSE BL**
  For silver enhancement of gold particles in blotting

- **AuroDye forte**
  For the sensitive staining of protein blots

- **AuroBeads**
  Ready-to-use gold sols for labelling macromolecules

- **Biotinylated secondary antibodies**
  Wide range available for different applications.

Amersham International has recently acquired from Janssen Biotech NV the listed range of high quality immunogold reagents. The products are no longer available from Janssen Biotech but can be ordered from Amersham. For our complete range of monoclonal antibodies and other immunodetection reagents contact your local Amersham office for further details.

AuroProbe, IntenSE, AuroDye, AuroBeads and Amersham are trademarks of Amersham International plc.
Now you can isolate your N-linked and O-linked oligosaccharides, or simply strip them from your protein reliably and effectively.

Oxford GlycoSystems' Peptide-N-glycosidase F and Endo-α-N-acetylgalactosaminidase are high-purity products which specifically cleave the N-glycosidic or O-glycosidic bond respectively. Because they are uniquely screened for specificity and contaminating activities, they give results you can always depend on. They are available for immediate delivery.

- **Reliable** - pre-screened for specificity and contaminating activity
- **Simple** - supplied with extensive batch data and directions for use
- **Convenient** - pre-aliquoted and supplied with a working buffer

Call us today for more information on Peptide-N-glycosidase F (cat. no. E-5003) and Endo-α-N-acetylgalactosaminidase (cat. no. E-5004) - dependable tools for glyobiology and protein biochemistry.

North America and Canada: Oxford GlycoSystems Inc., Cross Island Plaza, 133-33 Brookville Boulevard, Rosedale, New York 11422, USA. Tel (718) 712 2693. Fax (718) 712 3364.

Finally, get performance, flexibility, and ease of use in a single data acquisition package. Without programming. Without compromising.

Awaken your 386/486. VIEWDAC lets you explore the full power of your 386/386SX/486. Become more productive with less effort.

Acquire, analyze, and graph huge arrays. Run multiple acquisitions concurrently. Even set up new applications while running others. VIEWDAC's user-friendly windowing environment lets you do it all with ease.

User power that's not just for the power user. With VIEWDAC, you don't have to write code to get performance. Integrated applications with custom front panels, simultaneous real-time calculations and display, and user input are just mouse clicks away.

Key VIEWDAC acquisition tools:
- Vary acquisition rates on any channel during a run
- Mix high- and low-speed acquisition over any combination of channels in the same application
- Enjoy built-in specialized acquisition and control tasks (thermocouples, PID control, pulse output, etc.)
- Use up to 20 acquisition boards simultaneously – even with all channels active
- Select hardware from a broad range of suppliers
- GPIB and RS-232 coming soon

Key VIEWDAC analysis/graphics tools:
- Time and frequency domain processing
- Arbitrary waveform generation
- Curve fitting
- Basic statistical reporting
- Interactive graphics, including bar charts

Be sure to ask about our other software products: ASYST™, ASYSTANT®, and EASYEST®. Thirty-day money-back guarantee on all Keithley Asyst software.

OUR NEW PCR PRODUCTS COME WITH A COMMITMENT

Every PCR product from Perkin-Elmer Cetus comes with a promise. A promise to help you optimize your protocols, refine your technique and achieve the results you want.

The new products featured here are just four in a series introduced this year as part of our ongoing effort to address your specific research needs.

**GeneAmp** PCR Core Reagents
**GeneAmp** RNA PCR Kit
**GeneAmplimer** HIV-1 Reagents
**AmpliTaq** Sequencing Kit

Talk to us about your PCR requirements today.

In the U.S., to order any of these new products, call 1-800-762-4002. Or call 1-800-762-4001 for technical information. Outside the U.S., contact your local Perkin-Elmer representative.

GeneAmp, AmpliTaq and GeneAmplimer are registered trademarks/trademark of Cetus Corporation. The PCR process is covered by U.S. patents issued to Cetus Corporation.

"I've succeeded in purifying 50 ng into non-existence, twice."

November 19, 1990.
Finally getting SMART™ System.
It's an intelligent new micropurification system that's been developed to secure the high recovery and resolution of biologically active molecules that are present in low concentrations or trace quantities... once and for all.

Based on the total integration and miniaturization of liquid chromatography media, columns and instrumentation, SMART System is ideal for sample concentration, for final purification as well as for buffer exchange.
SMART System even employs expert help to simplify micropurification work:
SMART Manager instrument control and data evaluation software, and SMART Assistant, an intelligent knowledge-based system that communicates the years of experience which Pharmacia LKB have in biochemical separation techniques.
SMART System is finally here. And with it we're all just beginning to explore the many benefits of working with the state-of-the-art in micropurification.
Pure mRNA in Minutes...

...Directly from Small or Large Samples of Cells or Tissue.

FastTrack™ and MicroFastTrack™ set the industry standard in high quality mRNA isolation.

MicroFastTrack™*: 20 Reactions
- Ideal for PCR, Northernns and cDNA synthesis
- Isolation from samples ranging in size from $10^{-3} \times 10^6$ cells or 10-250 mg of tissue.
- Reproducible yields of high quality mRNA.

FastTrack™*: 6 Reactions
- mRNA isolation for Northernns, cDNA, library construction, PCR, microinjection, RNA protection studies and in vitro translation.
- Isolation from samples ranging in size from $10^7 \times 10^8$ cells or 0.4-1.0 gram of tissue.
- Fast, efficient recovery of large amounts of polyA+ RNA from a variety of sources.

Both systems offer:
- High yields of intact mRNA with low ribosomal contamination.
- Eliminate the need for total RNA isolation or the use of toxic chemicals.
- The most cost effective means of generating high quality mRNA.
- Consistency, convenience and the fastest isolation time.

For the very best in direct mRNA isolation FastTrack™ and MicroFastTrack™ are the choice of thousands of research labs worldwide. When the quality of your mRNA is important, turn to the original source for purity, reliability and convenience; turn to Invitrogen.

Hard Copy your PCR products with one-step TA Cloning™

A Universal System for Cloning PCR Products

Direct copy cloning of PCR® products into the multifunctional pCR2000™ vector is now possible with the new TA Cloning kit from Invitrogen. This system eliminates inefficient, time consuming reactions normally involved in cloning PCR products and allows direct cloning of amplified nucleic acids from genomic DNA, cDNA or recombinant lambda, cosmids and YACs.

TA Cloning requires:

- No purification of PCR products
- No modification of primers to incorporate restriction sites
- No restriction enzyme digestion
- No modifying enzymes
- No sequence information

The TA Cloning system from Invitrogen allows blue/white color selection of recombinants from the pCR2000 vector and is useful for most PCR reactions including:

- Symmetric PCR
- Inverse PCR
- Alu PCR
- Sequence independent PCR
- mRNA PCR
- Sequence Tagged Site PCR
- Anchored PCR

TA Cloning is an ideal system for direct sequencing and expression of PCR products and provides a means of safeguarding precious samples for future analysis, probe generation or other manipulations. The prepared pCR2000 vector is designed to take advantage of the universal ragged ends generated by the terminal transferase activity inherent in thermophilic polymerases. Each kit contains prepared pCR2000 vector, ligation reagents and competent E. coli for 20 reactions. For more information on these and other PCR products call;

The new Micromanipulator

Unique variability

Progress has a new dimension

The Eppendorf Micromanipulator and the Eppendorf Microinjector are an internationally renowned team for rapid and precise microinjection. Only this system offers, for example, an automatic inject/impale function.

Continuous development of the Micromanipulator has extended its fields of application, especially for electrophysiological techniques, e.g., patch clamping.

Comfortable flexibility

The features of the Micromanipulator enhance operational comfort and applicational versatility:

- extended programmability
- simple operation via joystick and control panel
- exact positioning in submicrometric range
- various modes of movement
- high mechanical long-term stability
- storage and refunding of coordinates
- individual settings always active
- status and position appear in display.

Unique in its class

The Micromanipulator stands for unbeatable efficiency and flexibility.

ALZA INTRODUCES 24-HOUR, NON-STOP DELIVERY TO ANY LOCATION IN THIS AREA.

When you have to be absolutely sure the agents you're investigating are delivered where you want them, 24 hours a day, there's only one way to go: ALZET® osmotic pumps.

The new ALZET 2001D pump reliably and automatically delivers its contents at the rate of 8 μl per hour—every hour—for 24 hours. Because agents are continually present, you can better assess their bioactive effects, even those with short half-lives. And ALZET pumps are implantable, so you eliminate stress to the animal and disruption of normal behavioral patterns.

Choose any route or destination. Like all ALZET pumps, the 2001D can be implanted intraperitoneally or subcutaneously, or used with a catheter to target agents directly to remote sites.

We'll even help you get started. Over the last 12 years, thousands of researchers have used ALZET pumps. Call our Technical Information Line at 800-692-2990 and give us your fax number and area of research interest. We'll deliver a custom bibliography within 24 hours. To order ALZET pumps, call 800-227-9953. In Canada, call 800-654-2990; other countries, see listing below.

A step toward scientific literacy in our time

“A humanistic vision, beautifully presented.”
—A. Graham Down, President, Council for Basic Education

Science for All Americans

F. JAMES RUTHERFORD and ANDREW AHLGREN

“We now have what we have long urgently needed—a clear and compelling statement of what it means to be literate in science. I hope that every classroom teacher, parent, and citizen who cares about the future of our young people, our nation, and our planet will read Science for All Americans.”

—Bonnie Brunkhorst, President, National Science Teachers Association

“Builds education on very solid foundations…. Today the scientific community is breaking new ground; this pioneering effort has profound implications for the future of our nation and, indeed, of the world.”

—David A. Hamburg, President, Carnegie Corporation of New York

With science, mathematics, and technology impinging more and more on our day-to-day living, a solid education in these areas is necessary to prepare today’s children for the radically different world of tomorrow. Incisive, timely, and vastly important, Science for All Americans is an essential guide for teachers, parents, and all concerned citizens who believe that there are no valid reasons why we cannot transform our schools to make scientific literacy a reality for all Americans.

ONE MILLION OF THE BEST MINDS IN AMERICA HAVE ALREADY CHOSEN THE BEST RETIREMENT PROGRAM.

TIAA-CREF.

TIAA-CREF is building a sound financial future for more than 1,000,000 people in the education and research communities. And over 200,000 retirees are now enjoying the benefits of their TIAA-CREF annuities.

SOLID PERFORMANCE AND TIMELY INNOVATION

Whether you are just starting your career or you are nearing retirement, we can help you prepare for the future. Since 1918, we’ve been dedicated to making sure that people in education and research can count on a comfortable retirement.

We pioneered the portable pension. We invented the variable annuity. In 1988, we created the CREF Money Market Account to give you more flexibility. And in March of this year, we introduced two new accounts, the CREF Bond Market Account and the CREF Social Choice Account, to let you shape and diversify your retirement investments even further.

At TIAA-CREF, we believe that steady incremental growth over the long term is the best way to build retirement income. This investment philosophy has worked well for over seventy years, and has provided retirement income for hundreds of thousands of people like you.

THE KEYS TO RETIREMENT INVESTING

Security, growth, and diversity are the keys to sound retirement investing: security, so the resources are sure to be there when it’s time to retire; growth, so you’ll have the income you need for the kind of retirement you want; and diversity, to help protect you against volatility and to let you benefit from the strengths of several types of investments.

TIAA AND CREF—A SMART COMBINATION

TIAA’s traditional annuity provides maximum safety, guaranteeing your principal and a specified interest rate. It also gives you the opportunity for growth through dividends—which we’ve declared every year for 41 years. In fact, TIAA’s net earned rate has beaten the industry average for every one of those years.

With CREF’s variable annuity, you can choose from four different investment accounts, all managed by experts who understand the long-term strategies essential to sound retirement planning.

THE FIRST CHOICE IN EDUCATION AND RESEARCH

The TIAA-CREF retirement system is specifically designed for people in education and research. You may move from one institution to another many times in your career, so your annuities move with you to any of over 4,200 institutions with TIAA-CREF retirement plans. You need financial security, so the system provides retirement income you cannot outlive. Plus, the TIAA-CREF system offers:

Performance: The CREF Stock Account outperformed the mutual fund industry averages for the last one-, five-, and ten-year periods. The CREF Money Market Account has shown excellent returns since its inception, outperforming the industry average since May of 1988.

Responsiveness: Our experienced counselors are ready to answer your questions. Call our toll-free numbers for performance figures or information about your personal annuity accumulations.

Strength: Your future is protected by the largest private retirement system in the world. We have done so well, for so many, for so long, that we currently manage over $80 billion in assets.

Ensuring the future for those who shape it.™

For more complete information, including charges and expenses, call 1 800 842-2733, ext. 5509 for a prospectus. Read the prospectus carefully before you invest or send money.
Scientific Program

The joint meeting will feature symposia, platform and poster sessions, tutorials and workshops highlighting the latest developments in imaging and analysis in the fields of materials and biological sciences. The following is a partial list of topics that will be covered:

Advances in
- Transmission and Scanning Electron Microscopy
- Light and Confocal Microscopy
- Electron Microprobe X-Ray Analysis
- Laser Microprobe Analysis
- Scanning Tunneling Microscopy
- Secondary Ion Mass Spectroscopy

Special symposia on
- Analytical Electron Microscopy
- High Resolution Imaging
- High Spatial Resolution Microanalysis
- High/Intermediate Voltage Microscopy
- Diffraction Techniques

Materials applications including
- Metals, Ceramics, Electronic and Magnetic Materials, Superconductors, Composites, Polymers, Geological and Extraterrestrial Materials

Biological applications including
- Neurobiology, Plant Cell Biology, Cryotechniques, Cell-Substrate/ECM Interactions, Correlative Microscopy, In-situ Hybridization and Imaging in Living Cells

Special 2 Day Symposium
- Semiconductors, Microelectronics and Device Failure Analysis

Vendors & Exhibits

Over 200 manufacturer and supplier booths, displaying and providing an opportunity to evaluate the latest in:

- Scanning and transmission electron microscopes
- Light and confocal microscopes
- X-Ray microanalysis equipment
- Ion thinning and evaporation equipment
- Detectors and accessories
- Computer assisted analytical equipment
- Automated image processing systems
- Laboratory supplies
- Cryotechnology supplies and accessories
- Sample preparation instrumentation and accessories
- Books and journals in the field

Call for Papers

Abstracts are requested in Imaging and Analysis in the fields of Biological and Material Sciences.

For more detailed listing of symposia and general sessions, or for abstract forms, contact:

EMSA Business Office, P. O. Box EMSA, Woods Hole, MA 02543
Telephone: (508) 540-7639  Fax: (508) 540-5594

Abstracts due March 15, 1991
There's no symbol for *information* in the Periodic Table. Yet nothing could be more crucial to your research than complete, accurate technical and business information.

That's why many chemists consider DIALOG® an essential element in the modern lab.

As the world's largest online knowledgebank, DIALOG gives you access to a whole world of critical information. Right in your own lab.

For starters, you can tap into the crucial scientific data. DIALOG has detailed information on everything from compound identification to chemical safety data, property data, substance and substructure.

Then you can expand your focus by accessing important, related data that will enable you to look at your work in a broader context.

For example, you can investigate patents, competitive projects, new product markets, and worldwide industry trends. In fact, you can investigate any topic, anytime.

And you won't have to sacrifice depth for the sake of breadth. DIALOG is updated continuously, so the data is always comprehensive and current. And many citations can be conveniently retrieved in full text.

Call today for more information and a free Periodic Table Reference Card. Once you've examined them, you'll see how DIALOG can become a basic element of all your research.

Call us toll free at 800-3-DIALOG, (800-334-2564). Or request information by Fax at 415-858-7069.

DIALOG INFORMATION SERVICES, INC.
A Knight-Ridder Company

The world's largest online knowledgebank.
How a task-oriented, problem-oriented to a new generation in animal...

Before we at Lab Products Inc. were asked to assist our customers with their animal housing/handling problems, we were intensely curious about lab operations.

What were the tasks? How were they accomplished? Could they be done more effectively? Or more efficiently?

This desire to understand lab animal practices led our R&D to the development of the animal-sized Petri dish, the original and unmatched Micro-Isolator™, and the system that was to be the first viable alternative to complex, costly barrier rooms. Now, in another leap forward, we proudly present...

The new Micro-Isolator Plus™ System with Improved Environmental Control.

This innovation on the still-available and popular static Micro-Isolator deploys positive ventilation with optional automatic watering through a unique connecting mechanism which docks the cage to an air/water manifold built into our racks.

This system dramatically lowers the levels of ammonia*, carbon dioxide and humidity at the cage level and eliminates the cross-contamination associated with other automatic watering valves that are outside the cage barrier.

Air passed through a HEPA filter (99.99% efficient to 0.3 micron particles) is uniformly introduced directly into each cage ensuring the protective barrier with positive internal pressure. Air then flows out the top of the cage through a protected filter as well as from under the Petri-type lid.

The unique, dripless L-2000 Bedding-Proof Watering Valve and quick-disconnect system is part of the cage's port and so remains with the cage for cleaning and sterilization.

The result of these combined systems is an extended healthier environment with substantial savings in labor and material costs, plus greater assurance against disastrous research compromise via contamination or flooding.

It is a cost-efficient way to sustain microbial integrity from and between animals and personnel while extending animal populations to the maximum-allowable housing densities.

*Testing shows ammonia levels are maintained well below 10 ppm with only one cage change for up to a two-week period.
solving mentality led us housing technology.

Our Micro-Environmental Control Rack Systems complete the housing picture.

In one simple motion the individual Micro-Isolator Plus™ cage is slipped onto a shelf of one of a variety of Lab Products rack systems that support the HEPA air supply and integrated water manifold docking systems. Each shelf's air manifold is designed to supply balanced, low-velocity air to each cage regardless of the number of cages being docked. And it does so at very low levels of noise and vibration.

The Open-Shelf Rack System is used with the isolation by exhausting air from each shelf to the building exhaust ventilation or through a HEPA filter module that exhausts into the room. This puts each shelf space under negative pressure relative to the room and to each cage.

Our mobile, Laminar Flow Stay-Clean™ Workbench II just got even better.

Because handling equipment must maintain the aseptic integrity of housing and be practical and efficient, Lab Products Inc. continuously performs R&D in this area. Example: our newly improved workbench with easier access, cleaning and maintenance, greater user comfort, and improved mobility and safety features.

Through extensive testing we found that Class 100 horizontal air flow patterns from back to front more effectively protect animals and control particulate from spreading across cages and work area than vertical air flow systems. We combined this with a full-length front edge air intake which then pulls the air down, creating a vertical air flow curtain at the face opening of the workbench to minimize the escape of allergens and other cage effluent into the room. One new Stay-Clean Workbench II can easily be moved around to accommodate several projects daily.

When combined with a Lab Products Waste Management Unit, these components complete a comprehensive system that ensures the integrity of complex animal research at cage barrier levels. Now you can house and process hundreds of small animals of varying species involving a variety of research in one small facility with greater effectiveness and greater efficiency. And it can all be done in a pleasant, virtually-odorless environment.

For more information please use the reader service card, drop us a line, or call Toll-free: 1-800-526-0469.

Micro-Isolator Plus System when isolation at the rack level is not required, thus the cage is positive to the room.

The Ventilated Rack Systems provide additional

MilliGen/Biosearch gives RNA synthesis a quantum push forward.

MilliGen/Biosearch, in collaboration with the industry’s key investigators, pioneered the research and development of RNA synthesis. Our complete RNA Synthesis Package is the only one available today.

We’ve dramatically improved the quality of automated RNA synthesis by producing the industry’s purest monomers and reagents. (High resolution mass spectroscopy and elemental analysis attest to the purity of our monomers, while the isomeric purity of every batch of RNA amidites is proven by NMR.) Only chemistry of this quality — proven by T2RNAse digest and NMR — can assure biologically active RNA.

Give your RNA work a quantum push forward in such areas as antisense and ribozyme research, tRNA structure and function studies, direct expression studies, as well as improved hybridization assays.

**Free tRNA-shirt or RNA synthesis cartridge.** Mention this ad with your order for an RNA amidite kit and receive a tRNA-Shirt (s, m, l, xl). Orders of $2000 also receive a cartridge pre-programmed with the RNA synthesis protocol for the MilliGen/Biosearch Cyclone™ Nucleic Acid Synthesizer. Contact us today: call **1-800-872-0071**, or write to MilliGen/Biosearch, 186 Middlesex Turnpike, Burlington, MA, U.S.A. 01803.
MasterScan™ has it all.

Rapid Gel Scans . . .

The MasterScan Interpretive Densitometer delivers very high image resolution and unprecedented vector processing power to analyze all your electrophoresis gels . . . rapidly, accurately, and thoroughly.

Its comprehensive software for 1-D and 2-D gel analyses is easy to use, and delivers the resultant data in the widest variety of reporting formats.

Superior image acquisition . . . complex gel analyses . . . complete data reporting . . . MasterScan has it all. And best of all, MasterScan is very affordable!

MasterScan Power . . .

MasterScan combines all the right tools for total gel analysis:

- High Resolution Images (4 Million Pixels)
- 386/AT Workstation Featuring CSPI Vector Processor
- Complete Menu-Driven Software for Both 1-D and 2-D Gels
- Full Databasing Capability with Optical Disk Image Archiving

Scanalytics Support . . .

Scanalytics is a division of CSPI, a company with 20 years of experience in signal and image processing. CSPI offers hardware and software solutions for many disciplines. Scanalytics offers that expertise to you with MasterScan.

For more information on putting MasterScan to work on your data, call or write:

...Promega.
In college, you would have killed for MathCAD. So why aren’t you calculating with it now?

100,000 engineers and scientists already let MathCAD do their calculations for them.

Now that college is far behind you, perhaps it’s time you graduated from spreadsheets, calculators and programming.

Because in today’s working world of engineering and science, there’s no time for anything less than MathCAD. The software that lets you perform engineering and scientific calculations in a way that’s faster, more natural, and less error-prone than any calculator, spreadsheet, or program you could write yourself.

Thanks to MathCAD’s live document interface, you can enter equations anywhere on the screen, add text to support your work, and graph the results.

It also comes complete with over 120 commonly used functions built right in. Perfect for creating complex equations and formulas, as well as exponentials, differentials, cubic splines, FFTs and matrices.

You get three-dimensional plotting, vivid graphing, and the ability to import HPGL files from most popular CAD programs, including AutoCAD®.

Done calculating? MathCAD prints all your analyses in presentation-quality documents, even on PostScript® compatible printers.

All of which has made MathCAD far and away the best-selling math software in the world. In fact, it’s used by over 100,000 engineers and scientists—just like you.

There’s MathCAD for the PC. MathCAD for the Mac, written to take full advantage of the Macintosh® interface. And a Unix® version that utilizes the speed and unlimited memory of your Unix workstation.

We also have Applications Packs for Advanced Math, Statistics, Mechanical, Chemical, and Electrical Engineering. Each is a collection of adaptable mathematical models, designed to let you start solving your real world problems right away.

For a free MathCAD demo disk, or upgrade information, dial 1-800-MATHCAD (in MA, 617-577-1017). Or see your software dealer.

Available for IBM® compatibles, Macintosh computers, and Unix workstations.

TM and ® signify manufacturer’s trademark or registered trademark, respectively.

We are proud to accept entries for the second annual Biomedical Science Journalism Prizes.

The General Motors Cancer Research Foundation will present its second annual Biomedical Science Journalism Prizes in March, 1991.

For more than a decade, the Foundation has honored distinguished scientists working to understand and conquer cancer. These Journalism Prizes are presented to encourage and to recognize outstanding journalistic coverage of biomedical research relating to the nature, cause, prevention, or treatment of cancer.

The Prizes honor those who play a critical role in public awareness, which is essential to winning the fight against cancer. Each Prize consists of a limited-edition work of art and a cash award of $10,000.

A panel of prominent print and electronic journalists and journalism educators will select a winner in each of three categories:
- Newspapers and Wire Services
- Periodicals
- Broadcast Media

Among the criteria used in the judging will be: significance and value in promoting public knowledge and understanding of cancer, scientific accuracy, originality, clarity of presentation, and initiative.

ENTRY INFORMATION

Articles and programs appearing during 1990 are eligible. Entries must be about cancer, cancer research, or cancer therapy; they must have appeared in a national or local mass-communication medium oriented to a lay, non-technical audience; and they must be submitted in English or accompanied by an English translation. Entries must be postmarked by January 31, 1991.

Write for complete entry requirements and copies of official submission forms. Or call (212) 418-6384.

Nikon SMZ-U: after one look, nothing else compares.

With a ground-breaking 10:1 zoom ratio and unrivaled optics, the Nikon SMZ-U literally extends the limits of stereomicroscopy.

An impressive array of high numerical aperture ED plan objectives (5x, 75x, 1x, 2x) and matched eyepieces (10x UW, 15x, 20x, 30x) provides incomparable image sharpness and clarity across the entire field of view.

The SMZ-U features an optical system with two parallel light paths, a common main objective, and a choice of low eye level and ultra-low eye level binocular tubes for hours of fatigue-free viewing.

A variety of accessories, plus modular design, allows you to easily reconfigure the SMZ-U to meet your changing needs.

So look at the Nikon SMZ-U today. You'll see that nothing else even comes close.

For more information, contact your local dealer or Nikon Inc., Instrument Group, 623 Stewart Avenue, Garden City, New York 11530. Or call (516) 222-0200.
Our Enzymes Are Bi-Coastal.

24 Hour Delivery. Guaranteed Performance.

IBI and VWR Scientific have teamed up to be your single source for molecular biology research products. Now when you need restriction or modifying enzymes, you can count on IBI's reliable, convenient to use, quality assured line. We guarantee its performance and your satisfaction. And you can count on IBI's Technical Resources Department to give you any help you need. Whether you are on the east coast, west coast, or anywhere in between, VWR Scientific gets your IBI enzymes to you faster than ever, thanks to their ultra-modern regional distribution centers. Place an order by 12 PM your time and you'll have your enzymes the next morning. Plus, you can depend on frequent, personalized service from your VWR sales representative.

Call your local VWR sales office today to find out just how simple and economical buying IBI enzymes can be.
The Ubiquity of Chaos

Edited by Saul Krasner

The discovery of disordered, chaotic solutions to deterministic laws of nature has ignited widespread interest in the study of nonlinear dynamics. While such solutions should be predictable in principle, a certain nonlinearity in the laws governing them makes them so sensitive to initial conditions that classical predictability is impossible. Now, with the advent of sufficient computer power, it has been found that behind the apparent randomness lies great beauty and structural symmetry.

This volume presents results of recent investigations and applications of chaos mathematics by authors working in such diverse areas as physiology and medicine, economics, world affairs, fluid and celestial mechanics, and quantum systems. It is essential reading for anyone wishing to delve into the wide range of fields touched by the ubiquity of chaos.

Contents:

- Chaotic Explosions in Simple Dynamical Systems — Robert L. Devaney
- Dynamical Characterization of Brain Electrical Activity — Paul E. Rapp, Theodore R. Bashore, Irwin D. Zimmerman, Jacques M. Martinierie, Alfonso M. Albano, and Alistair I. Mees
- Sudden Death Is Not Chaos — Ary Goldberger and David R. Rigney
- Lost Choices: Parallelism and Topological Entropy Decrement in Neurobiological Aging — Arnold J. Mandell and Michael F. Shlesinger
- Searching for Signal and Noise in the Chaos of Brain Waves — Walter J. Freeman
- Applications of Chaos Theory to Shear Turbulence — Laurence Keefe, Parviz Moin, and John Kim
- Fluid Dynamical Chaos in Vortex Wakes — Charles W. Van Atta
- Microwave Excitation and Ionization of Excited Hydrogen Atoms — Peter M. Koch
- Quantum Chaos — Roderick V. Jensen
- Quantum Chaos in Two-Level Quantum Systems — Ronald F. Fox
- Chaos and the Business Cycle — Chera L. Sayers
- Dynamic Competitive Equilibria and Chaos — Michele Boldrini
- The Case for Chaos in Childhood Epidemics — William M. Schaffer, Lars F. Olsen, Greg L. Truty, and Sandra L. Fulmer
- Chaos and the Making of International Security Policy — Alvin M. Saperstein
- The Dimensions of Cosmic Fractals — Reuben Thieberger, Edward A. Spiegel, and Leonard A. Smith
- Chaos in Stellar Variability — J. Robert Buchler and Oded Regev
- Complexity from Thermal Instability — Oded Regev
- A Stochastic Nonlinear Model for Coordinated Bird Flocks — Frank Heppner and Ulf Grenander

Order from: AAAS Books, Dept. A27, PO Box 753, Waldorf, MD 20604 (FAX: 301-843-0159). To order by phone (VISA/MasterCard only), call 301-645-5643 (9am-4pm ET) and ask for AAAS. Individuals must prepay or use VISA/MC. For institutional purchase orders, add $3.50 postage/handling. Please specify item #89-15S and allow 2-3 weeks for delivery. For shipments to CA, add applicable sales tax.
UNISTAT-IV Statistical Package

* Fully menu/mouse driven * Batch mode * String variables * Missing data handling * Fast operation with memory-resident data *

DATA HANDLING: Fully featured spreadsheet custom designed for statistical data handling. Easy data entry and editing, formulas, conditional functions, recode, keysort, ranking, moving averages, etc. Export/import Lotus 123, dBase 2,3,4, .DIF, Syst, fixed and free format ascii files. Does Manager and View-file facilities.

GRAPHICS: Full array of XY and XYZ colour plots, pie, bar, line charts with error bars, confidence intervals data... Every statistics package should have something like it... E Shoesmith, The Professional Statistician, December 1969.

... version 3 is a statistician’s dream in many ways... it really is easy to use with pull-down and pop-up menus and keyboard or mouse operation. The value for money is excellent, and the substantial manual is extremely well written. The Good Software Guide, 1990.

... the range of options is both broad and well chosen... the package ran faultlessly... Most of the statistical tests and functions work with satisfactory speed and, as far as could be tested, every one functions correctly and robustly... Unistat is cheaper than most comparable statistical packages. It is simple to learn and use, powerful, and comes with clear documentation. Dr H Cartwright, PC Business World, 24 July, 1990.

CONGRESSIONAL SCIENTIST FELLOWSHIP PROGRAM 1991–1992

THE AMERICAN PHYSICAL SOCIETY

Eighth Annual Competition

Purpose

Fellows will spend one year as a member of the staff of a Congressman or of a Congressional committee, thereby contributing an assessment of the technical aspects of public policy issues to the political process.

Qualities Sought in Applicants

Prospective Fellows are expected to have demonstrated competence in some area of physics, have a background in science and technology, and have a strong interest and some experience in applying scientific knowledge toward the solution of social problems. Candidates are expected to be articulate and literate, willing to work on a variety of problems with a variety of people and to have some experience in or be willing to learn the governmental process.

Term of Appointment

Fellows serve for one year, beginning 1 September 1991. APS Fellows will join the Fellows selected by other scientific and engineering societies in Washington in September for a two-week orientation program organized by the American Association for the Advancement of Science. During the orientation, Fellows meet Senators, Representatives, and Congressional committee staff members, visit a number of government agencies, and receive detailed information about opportunities in Congressional offices. The choice of an assignment is unrestricted and reserved to the Fellows.

Stipend Allowances

The maximum fellowship stipend is $40,000. An appropriate allowance is made for聘用 relocation expenses and for vouched travel expenses incurred during the fellowship year.

Application Procedure

Applicants should submit a letter of intent and a resume and arrange to have three letters of reference sent directly to the program administrator. Candidates should include in the letter of intent a statement which tells why they have applied to the program and a brief description of their public service experience. Letters of reference should be solicited from people outside the science fields, not only the candidate's competence as a physicist but also the candidate's education and experience which would make the candidate particularly qualified to serve in a Congressional office. Completed applications, including all letters of reference, must be received by 15 February 1991.

For Further Information

Please Contact: Dr. Mary L. Shoaf, Administrator Congressional Scientist Fellowship Program The American Physical Society 335 East 45 Street New York, New York 10017 (212) 753-1829 or (212) 682-7341

IF YOU'RE WORKING IN THE LIFE SCIENCES THERE'S ONE REFERENCE WORK YOU'LL FIND INVALUABLE — CRB'S NEW CATALOGUE WHICH COVERS A HUGE RANGE OF TOP-QUALITY PRODUCTS AND SERVICES.

- **Biochemicals**
  - Peptides
  - Enzyme substrates and inhibitors
  - Neuroactive amino acids
  - Sugars and carbohydrates
- **Immunological reagents**
  - Peptide antibodies for RIA and ICC
  - Oncoprotein antibodies
  - Secondary antibodies
  - Synthetic haptens
  - Conjugation and immunisation kits

- **Molecular biology products**
  - E-Link non-radioactive oligonucleotide labelling kits
  - 'Vectorette' chemical genetics
  - Bioprobes
- **Pin Technology™ products**
  - Epitope mapping kits
  - Epimotope design kits
  - Cleavable peptide/multiple peptide synthesis systems
- **Custom services**
  - Custom peptide synthesis (mg-kg quantities)
  - Custom antibodies (polyclonal and monoclonal)
  - Custom radiosynthesis ($^{12}$C and $^3$H)
