Nearly identical high-resolution images of a segment of BlueScript II plasmid DNA scanned in the atomic force microscope. By imaging plasmid DNA on mica in n-propanol, reproducible structure along the DNA strand can be revealed; this segment was scanned continuously for 15 minutes without moving or being damaged. Such imaging holds promise for the investigation of protein-nucleic acid interactions and chromosome mapping. See page 1180. [Computer art by Scott Hansma]

INDICATES ACCOMPANYING FEATURE

SCIENCE (ISSN 0036-8075) is published weekly on Friday, except the last week in December, by the American Association for the Advancement of Science, 1333 H Street, NW, Washington, DC 20005. Second-class postage (publication No. 484460) paid at Washington, DC, and additional mailing offices. Copyright © 1992 by the AAAS. Domestic individual membership and subscription (51 issues): $57 ($47 allocated to subscription). Domestic institutional subscription (51 issues): $146 ($77 allocated to subscription). Domestic institutional subscription (51 issues): $189. Foreign postage extra: Mexico, Caribbean Surface Mail $25; all others (air assist delivery) $95. First class, airmail, student and emeritus rates on request. Canadian rates with GST available upon request, GST #1254 88122. Change of address: allow 6 weeks, giving old and new addresses and 11-digit account number. Postmaster: Send change of address to Science, P.O. Box 2033, Marion, OH 43305-2033. Single copy sales: $6.00 per issue prepaid includes surface postage; Guide to Biotechnology Products and Instruments, $20.

Bulk rates on request. Authorization to photocopy material for internal or personal use under circumstances not falling within the fair use provisions of the Copyright Act is granted by AAAS to libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of $1 per copy plus $0.10 per page is paid directly to CCC, 27 Congress Street, Salem, MA 01970. The identification code for Science is 0036-8075/83 $1 + .10. Science is indexed in the Reader's Guide to Periodical Literature and in several specialized indexes.

The American Association for the Advancement of Science was founded in 1848 and incorporated in 1874. Its objectives are to further the work of scientists, to facilitate cooperation among them, to foster scientific freedom and responsibility, to improve the effectiveness of science in the promotion of human welfare, to advance education in science, and to increase public understanding and appreciation of the importance and promise of the methods and sciences of human progress.
