BOOK REVIEWS 115
Aerosol–Cloud–Climate Interactions, R. C. J. Somerville • Molecular Genetics of Sex Determination, L. M. Silver • Life History Invariants, R. E. Ricklefs • The Neurobiology of Neural Networks, S. L. Cooper • Vignettes • Books Received

PRODUCTS & MATERIALS 123
Cross section of an adult mouse heart grafted with fetal heart muscle cells isolated from transgenic mice. The nuclei of the fetal heart cells (black dots) were visualized with a stain specific for a nuclear enzyme. These grafted cells are integrated with the host heart muscle. Such intracardiac grafting might be useful in repairing damaged heart muscle. See page 98 and the News story on page 31. [Digital image: Craig P. Wilson, Krannert Institute of Cardiology]
