Waves of spontaneous neural activity create domains in the developing mammalian retina. Activity was detected in the retinal ganglion cell layer of a newborn ferret by fluorescence imaging with a calcium indicator. The gray background is a fluorescence image of a P2 retina. The colors correspond to six consecutive waves that occurred during 1 minute of imaging, and the intensity indicates the direction of propagation (dark to light). See page 1182. [Image: M.B. Feller, D.P. Wells, D. Stellwagen, F. S. Werblin, and C. J. Shatz]

SCIENCE (ISSN 0036-8075) is published weekly on Friday, except the last week in December, by the American Association for the Advancement of Science, 1200 New York Avenue, NW, Washington, DC 20005. Second-class postage (publication No. 484460) paid at Washington, DC, and additional mailing offices. Copyright © 1996 by the American Association for the Advancement of Science. The title SCIENCE is a registered trademark of the AAAS. Domestic individual membership and subscription (51 issues): $102 (55 allocated to subscription). Domestic institutional subscription (51 issues): $250. Foreign postage extra. Mexico, Caribbean (surface mail): $55; other countries (air assist delivery): $90. First class, airmail, student, and emeritus rates on request. Canadian rates with GST available upon request. GST #1254 88122. Printed in the U.S.A.

Change of address: allow 4 weeks, giving old and new addresses and 8-digit account number. Postmaster: Send change of address to Science, P.O. Box 1811, Danbury, CT 06813-1811. Single copy sales: $7.00 per issue prepaid includes surface postage; bulk rates on request. Authorization to photocopy material for internal or personal use under circumstances not falling within the fair use provisions of the Copyright Act is granted by AAAS to libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that $4.00 per article is paid directly to CCC. 222 Rosewood Drive, Danvers, MA 01923. The identification code for Science is 0036-8075/96 $4.00. Science is indexed in the Reader’s Guide to Periodical Literature and in several specialized indexes.
Science 272 (5265), 1077-1206.
