Domestic individual membership and subscription (51 issues): $102 ($55 allocated to subscription). Domestic institutional subscription (51 issues): $250. Foreign postage extra: Mexico, Caribbean (surface mail) $55; other countries (air assist delivery) $90. First class, airmail, student, and emeritus rates on request. Canadian rates with GST available upon request, GST #1254 86122. Printed in the U.S.A.
Experimental electron density map of the P4-P6 domain of the *Tetrahymena thermophila* group I intron contoured at 1.4 standard deviations above the mean. The 2.8 angstrom crystal structure of the 160-nucleotide domain reveals the close packing of RNA helices likely to be a common feature of ribozymes, the ribosome, and the spliceosome. See pages 1678 and 1696 and the related Perspective on page 1676. [Image: J. H. Cate and J. A. Doudna]
