POSITIONS OPEN

SCIENCE DIRECTOR
University of Notre Dame
Notre Dame, Indiana

Mike and Josie Harper Cancer Research Institute

The University of Notre Dame seeks an outstanding academic leader and researcher as Science Director of the Mike and Josie Harper Cancer Research Institute (Harper Institute). Notre Dame has identified cancer research as an important future research focus and has developed a collaborative program with the Indiana University School of Medicine to support this goal. The Harper Institute will provide a unique and collaborative platform to create a targeted, well-funded cancer research program to advance the understanding, prevention, and treatment of cancer.

The Science Director of the Harper Institute will be responsible for its leadership, and will have primary responsibility and authority for organizing, managing, and facilitating multidisciplinary cancer research. Reporting administratively to the Provost of the University of Notre Dame and operationally to the Vice President for Research, the Science Director will coordinate all efforts in cancer research, and will facilitate the expansion of resources from both intramural and extramural funding sources as well as the recruitment of additional investigators in cancer research.

We seek a well-established scientist with a Doctorate in physical, medical, or life sciences and a distinguished record of scholarly/scientific accomplishments in basic cancer research with the current rank of Professor. He or she should have prior administrative and leadership experience in a multi-investigator research program and strong interpersonal and communication skills that complement a passion for excellence and achievement.

Please send nominations or letters of interest with curriculum vitae to:

Claudia Teschky
Witt/Kieffer
2015 Spring Road, Suite 510
Oak Brook, IL 60523
Telephone: 630-990-1370
E-mail: claudiat@wittkieffer.com

The University of Notre Dame is an Equal Employment Opportunity/Affirmative Action Employer.

FACULTY POSITIONS in MAMMALOLOGY and ORNITHOLOGY

Texas A&M University

Department of Wildlife and Fisheries Sciences

The Department of Wildlife and Fisheries Sciences, one of the largest in the nation, has extended the search to fill the following two positions: **ASSISTANT PROFESSOR** of Ornithology in Wildlife and Fisheries Sciences and Curator of Birds, Texas Cooperative Wildlife Collection (TCWC); and **ASSISTANT PROFESSOR** of Mammalogy in Wildlife and Fisheries Sciences and Curator of Mammals, TCWC. Areas of research may include a focus on a bird or mammal group. Candidates must also contribute to the supervision of curatorial activities in their respective collections at the TCWC. All candidates must have completed the Doctorate and have the capacity for excellence in research demonstrated by peer-reviewed publications and generation of extramural research funding, and in teaching demonstrated by previous development and presentation of course materials. Starting salary is capped at \$70,000 annually, although some increase is possible through external grants. To apply: Indicate clearly the position you are applying for (separate applications are necessary for each position) and submit electronic curriculum vitae, statements of teaching and research interests, and philosophy regarding collections management and curation, plus contact information for three references to: **Dr. Michael L. Morrison, Search Committee Chair, Department of Wildlife and Fisheries Sciences, e-mail: mlmorrison@agtamu.edu**. Electronic submission deadline is 7 March 2008. *The Texas A&M University System is an Equal Opportunity Employer and strongly encourage women and minorities to apply.*

POSITIONS OPEN

POSTDOCTORAL POSITION
The Genetics of Vascular Thrombosis
Thomas Jefferson University
Philadelphia, Pennsylvania

Unbiased genomic approaches are being used to discover genes that influence platelet reactivity and thrombosis. Clearly defined platelet phenotypes have been assembled from a large database of platelet functional data. Postdoctoral positions are available for candidates to characterize the novel genes and pathways using cell biology, physiology, intravital microscopy, and mouse models. This position offers a tremendous learning potential in the area of thrombosis and hemostasis. Requirements for this position include a basic knowledge of molecular biology and mouse genetics, and experience breeding mice.

Candidates must have solid writing skills and the ability to work independently; experience with platelet assays and/or signal transduction preferred. Send curriculum vitae and letters from three references to: **Paul F. Bray, M.D., Cardeza Foundation for Hematologic Research, Thomas Jefferson University, Philadelphia, PA 19107. E-mail: paul.bray@jefferson.edu**.

**FACULTY POSITION ASSISTANT/
ASSOCIATE PROFESSOR**
Pharmacology

The College of Veterinary Medicine at the University of Georgia is seeking a **PHARMACOLOGIST** for a tenure-track position in the Department of Physiology and Pharmacology. The successful candidate will be expected to develop and maintain an externally funded research program and participate in teaching pharmacology to veterinary students in the professional program. Qualifications for the position include a Ph.D., M.D., D.V.M., or equivalent degree. (Current program strengths within the Department include molecular and cellular physiology, endocrinology, vascular physiology and pharmacology, toxicology, and neuroscience.) While we seek candidates who will complement existing research activity, evidence of research excellence is more important than the specific area of study. See **website: <http://www.vet.uga.edu/vph/>** for more information. Interested applicants should submit a letter of application including a statement of research plans, a statement of teaching interests, and curriculum vitae, along with the names and contact information for three references to: **Dr. Oliver Li, Chair of the Search Committee, College of Veterinary Medicine, University of Georgia, 501 D.W. Brooks Drive, Athens, GA 30602** or electronically to **e-mail: physphrm@uga.edu**. Applications received by March 15, 2008, are assured full consideration. *The University of Georgia is an Equal Opportunity/Affirmative Action Employer.*

**TENURE-TRACK ANATOMY
FACULTY POSITION**
University of Wisconsin, Madison

A tenure-track faculty position (rank open) is available in the Department of Comparative Biosciences, School of Veterinary Medicine. Qualifications include Ph.D., postdoctoral experience, commitment to excellent teaching, and demonstrated potential to develop an outstanding, extramurally funded research program that complements existing departmental strengths. Teaching responsibilities include participation in veterinary anatomy instruction. To apply, send curriculum vitae, brief statements of research interests and teaching philosophy, and three letters of reference to: **Gordon S. Mitchell, Chair, Department of Comparative Biosciences, University of Wisconsin, 2015 Linden Drive, Madison, WI 53706**. Apply by March 1, 2008. For additional information, see **website: <http://www.vetmed.wisc.edu/jobs.html>**. *Equal Opportunity/Affirmative Action Employer.*
