Science makes every effort to screen its ads for offensive and/or discriminatory language in accordance with US and non-US law. Since we are an international journal, you may see ads from non-US countries that request applications from specific demographic groups. Since US law does not apply to other countries we try to accommodate recruiting practices of other countries. However, we encourage our readers to alert us to any ads that they feel are discriminatory or offensive.

POSITIONS OPEN

ASSISTANT PROFESSOR Molecular Fungal-Plant Interactions

The Department of Plant Pathology at the University of Nebraska-Lincoln (UNL) invites applications for a nine-month, tenure-track faculty position at the Assistant Professor level. This position is 80 percent research and 20 percent teaching. We are seeking candidates interested in research that is focused on elucidating fungal/oomycete-plant interactions using molecular genetics/genomic approaches or other cutting-edge technologies. The successful candidate is expected to have a strong commitment to undergraduate and graduate education and the ability to teach courses within a broad microbiology curriculum, including mycology. Candidates must have a demonstrated research record consisting of publications in high-profile journals and the ability to attract external grant funds. A Ph.D. in plant pathology, microbiology, or other relevant areas of biological sciences is required. To apply, go to **website: <http://employment.unl.edu>** and complete the faculty/administrative form (requisition #080055) and attach a letter of application, curriculum vitae, a two to three-page description of research interests, and a brief statement of teaching philosophy. In addition, arrange to have three letters of recommendation sent to: **Search Committee Chair, Department of Plant Pathology, Room 406 Plant Science Hall, University of Nebraska-Lincoln, Lincoln, NE 68583-0722**. Review of applications will commence on April 15, 2008, and will continue until the position is filled or the search is closed. *UNL is committed to a pluralistic campus community through Affirmative Action and Equal Opportunity and is responsive to the needs of dual career couples. We assure reasonable accommodation under the Americans with Disabilities Act; contact Dr. James Steadman at telephone: 402-472-2858 or e-mail: jsteadman1@unl.edu for assistance.*

The College of Arts and Sciences at the University of Wisconsin-Parkside invites applications for a full-time **ADVISER** position within the Pre-Health Office. A Master's degree, direct experience in academic advising of students at the university/college level, the ability to quickly gain and apply knowledge of professional health advising, and demonstrated knowledge in preparing students for standardized exams are required along with demonstrated ability to work effectively with a culturally diverse student population. Candidates possessing two years of experience working with preprofessional health students, knowledge of professional health programs, knowledge of university/college recruiting and admissions, and strong oral and written communication skills are preferred. Applications received by March 7, 2008, are ensured full consideration; position is open until filled. More information about this position can be obtained from **website: <http://www.uwp.edu/>** keyword "jobs." *UW-Parkside is an Affirmative Action/Equal Employment Opportunity Employer, Persons with Disabilities/Minorities/Veterans/Women.*

ASSISTANT RESEARCH PROFESSOR, RESEARCH ASSOCIATE, AND POSTDOCTORAL ASSOCIATE Chemoprevention

Three positions are available for scientists with a Ph.D. degree and a strong background in molecular/cell biology or molecular pathology to study the prevention of environmental toxicity and cancer by dietary constituents and synthetic compounds. Supported by NIH grants and endowment funds, there are ample opportunities for creative research and multidisciplinary collaborations. Qualified scientists are encouraged to pursue novel ideas and to develop their own research grants. Send curriculum vitae, statement of research interests, and the names of three references to: **Dr. Chung S. Yang, Department of Chemical Biology, Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, Piscataway, NJ 08854-8020**. Or e-mail csyang@rci.rutgers.edu. *Equal Opportunity Employer.*

POSITIONS OPEN

DEPARTMENT HEAD Department of Genetics Louisiana State University Health Sciences Center School of Medicine New Orleans

The Louisiana State University Health Sciences Center (LSUHSC) School of Medicine in New Orleans invites applications and nominations for Head of the Department of Genetics. The successful candidate will be responsible for all facets of activity in the Department, including both graduate and undergraduate medical education, faculty recruitment and retention, and development of research programs. The successful candidate will have a Ph.D., M.D., or M.D./Ph.D., will be internationally recognized for research in genetics or genomics, and will have an exceptional record of extramural research funding. The applicant will be expected to coordinate the development of program project grants and training programs within the Department and also to foster translational research. He/she must demonstrate leadership ability, a commitment to biomedical research and education, and have the ability to provide a vision of excellence for the Department. Achievements in multidisciplinary, collaborative research, mentorship, teaching, and administration that promote an inclusive environment are essential. Candidates will have opportunities to interact with Centers of Excellence, including the Cardiovascular Center, the Alcohol Research Center, the Neuroscience Center, the Stanley S. Scott Cancer Center, and the Gene Therapy Program. Excellent core facilities are also available. Significant resources will be available for departmental development, and for faculty recruitment and start-up. These resources include an endowed chair for genetic research in hearing loss. Candidates must qualify for the rank of tenured **PROFESSOR** in accordance with School of Medicine and LSU System criteria; the compensation package will be competitive.

Candidates should provide their curriculum vitae, including a full list of publications, a brief statement of educational, research, service, and administrative interests, a vision statement describing goals for departmental development, and the names and contact information of three references. These materials should be forwarded electronically to:

Dr. Wayne V. Vedeckis
Department of Biochemistry and Molecular Biology
LSUHSC School of Medicine
533 Bolivar Street
New Orleans, LA 70112
E-mail: wvedec@lsuhsc.edu

Review of applications will commence immediately and will continue until the position is filled. *LSUHSC is an Equal Opportunity/Affirmative Action Employer.*

A POSTDOCTORAL FELLOW/RESEARCH ASSOCIATE POSITION is available to study host-microbes interactions and molecular mechanisms of gut mucosal barrier function. The ideal candidate will have expertise in molecular biology, microbiology, tissue-imaging, and animal models of bacterial pathogenesis. Please send curriculum vitae and three letters of recommendation to: **Richard A. Hodin, M.D., Professor, Department of Surgery, Massachusetts General Hospital, Harvard Medical School, 15 Parkman Street, Wang 460, Boston, MA 02114**. E-mail: rhodin@partners.org.
