Tenure-Track Faculty Positions – The Institute of Biological Chemistry, Academia Sinica, Taiwan, is seeking highly qualified candidates to fill positions at the Assistant Professor (or higher) level. Candidates in all areas that would complement or strengthen the current topics in the Institute, including molecular and cellular biology, proteomics and genomics, chemical biology, structural biology and molecular biophysics, will be considered. Candidates with research expertise in chemical biology or structural biology are especially encouraged to apply. Applicants should have a Ph.D. degree, relevant postdoctoral experience, and an outstanding record of research accomplishments. Successful candidates will be required to participate in research and in teaching biochemistry-related courses at undergraduate and graduate levels. He/She will be provided with a generous start-up fund, followed by annual intramural support, and will have full access to all the resources at the Institute of Biological Chemistry, Academia Sinica (http://www.sinica.edu.tw/ibc/) and the Institute of Biochemical Sciences, National Taiwan University (http://homepage.ntu.edu.tw/~ibs/index.htm).

Applicants should send their Curriculum Vitae, a description of past research accomplishments and future research interests (pdf files) and three letters of reference. Recommendation letters should be sent by referees through E-mail or post to :

Recruitment Committee  
c/o Ms. Sunny Shih  
Institute of Biological Chemistry  
128 Academia Road Sec. 2, Nankang,  
Taipei 11529, Taiwan  
E-mail: yujushih@gate.sinica.edu.tw

All applications received before October 1, 2008 will receive formal consideration, but the search process will start immediately and continue until outstanding candidates are recruited to fill the positions.
The National Institute of Allergy and Infectious Diseases (NIAID) Division of Intramural Research (DIR) is seeking an outstanding individual to head the newly established Laboratory of Malaria Immunology and Vaccinology (LMIV) located at DIR’s Twinbrook laboratories in Rockville, MD, north of the main NIH campus. LMIV will interact closely with other DIR laboratories that are currently studying malaria, vector biology, and immunology, and with the Vaccine Research Center (VRC) on the main NIH campus.

The mission of the LMIV is to discover and develop malaria vaccines through fundamental and clinical research in immunobiology and vaccinology, including investigations of malaria pathogenesis in the context of host immune responses. In support of this mission, the LMIV will develop new assays and animal models to assess vaccine candidates. LMIV will maintain a flexible infrastructure to permit rapid development and evaluation of new malaria vaccine candidates.

This position requires an individual with a Ph.D., M.D., D.V.M. or equivalent degree with proven ability to carry out a strong independent research program. Although a record of leadership and accomplishment in malaria immunology and vaccine discovery and development is highly desirable, candidates with strong credentials in immunology and vaccinology but with less extensive experience in malaria research will be given full consideration and are encouraged to apply. The selected person will be expected to recruit principal investigators with independent but appropriately related research programs, promote collaborations with other research groups working in the area, lead a pilot lot vaccine production unit, and oversee clinical trials in the USA and abroad.

The laboratory chief will have independent resources to conduct laboratory research and translational/clinical research, as appropriate. These resources will include space, support personnel, and an annual budget to cover services, supplies and salaries. A laboratory chief in the DIR is equivalent to a department chair in a university or medical school. Salary is dependent on experience and qualifications.

Interested candidates may contact Dr. Kathryn Zoon, Director, DIR, NIAID at 301-496-3006 or e-mail (kzoon@niaid.nih.gov) for additional information about the position.

To apply, submit your curriculum vitae, bibliography, and a detailed statement of how your expertise can contribute to the success of the LMIV to Wanda Jackson at NIAID.DIR.Search@niaid.nih.gov. In addition, three letters of reference must be sent directly from the referee to Dr. Thomas Wellems, Chair, NIAID Search Committee, c/o Wanda Jackson at NIAID.DIR.Search@niaid.nih.gov or 10 Center Drive, MSC 1356, Building 10, Room 4A22, Bethesda, Maryland 20892-1356. E-mail is preferred. Completed applications MUST be received by COB August 1, 2008. Please refer to ad #022 on all correspondence. Further information regarding the DIR laboratories is available at http://www3.niaid.nih.gov/about/organization/dir/default.htm and information about working at NIAID is available at http://healthresearch.niaid.nih.gov/lmiv.
**Scientific Leadership Positions Available**

**Staff Scientist - Microbial Genome Program Lead - Job number 21743**

The JGI is seeking a Leader for the Microbial Genome Program. This position will be responsible for developing an independent research program in microbial genomics as well as managing the sequencing and analysis of user-initiated microbial genome projects.

**Staff Scientist - Computational Analysis Program Lead - Job number 21741**

The JGI is also seeking a Leader for the newly formed Computational Analysis Program. This leadership position will perform custom and high throughput computational analysis on a wide-variety of DNA sequence based projects as well as actively communicate with JGI users.

These positions will serve as members of the JGI's Senior Management Team and are expected to collaborate with external scientific communities, present scientific data, contribute to the management of a complex scientific organization, and publish results independently. The successful candidates must possess a Ph.D. and experience in the management of genome-scale research within a scientific research environment.

To Apply: Please include a letter of research intent, CV and 3 to 5 professional references. Please forward all materials to Bill Cannan / Recruiting Consultant / JGI-HR Dept / 2800 Mitchell Dr., Walnut Creek, CA 94598 or email to wrccanan@lbl.gov. Please reference the job number in your cover letter. We are an affirmative action/equal opportunity employer committed to the development of a diverse workforce.

---

**Faculty Position in Breast Cancer Biology**

**Department of Physiology**

The Department of Physiology invites applications for a full-time tenure-track appointment at the Assistant/Associate Professor level. The successful candidate will be expected to develop an independent research program in a contemporary area of breast cancer biology. The successful candidate will join a collegial and highly interactive group of breast cancer investigators whose interests include: mammary development, steroid hormones and hormone resistance, cell signaling and cell cycle control, regulation of gene expression; cell and animal models of tumor formation, progression and metastasis; inflammation and breast cancer, and the role of environmental factors, including diet, in breast cancer etiology. Opportunities exist to participate in collaborative projects, including a NIH-NCI-sponsored Research Center on Breast Cancer and the Environment. Candidates must hold a Ph.D., M.D., or equivalent doctoral or professional degree, have postdoctoral experience and be able to demonstrate the potential to develop a vigorous externally funded research program. The successful candidate will be expected to participate in the teaching of graduate and/or professional students. Interested individuals should submit a complete curriculum vita, a brief statement of research interests, and copies of key publications. Applications should also request letters of recommendation from three individuals who can evaluate their accomplishments and future potential for research and teaching. Review of applications will begin July 1, 2008 and continue until the position is filled.

Applications and letters of recommendation should be sent electronically to: pkoff@msu.edu. Chair, Breast Cancer Search Committee, Professor Sandra Z. Haslam, Director, Breast Cancer and the Environment Research Center, Department of Physiology, Michigan State University, East Lansing, MI 48824-3320.

Michigan State University is committed to achieving excellence through cultural diversity. The University actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities.

---

**Professor, Reader or Senior Lecturer (Microbiology)**

Cardiff School of Biosciences

Cardiff School of Biosciences, one of the largest bioscience departments in the UK with an outstanding reputation for teaching and research, seeks to appoint up to a fully tenured Professor in Microbiology.

We aim to recruit research active staff of the highest calibre who can contribute to the School’s strategic ambitions and facilitate interdisciplinary collaboration within the research areas related to Microbiology within the School (see http://www.cardiff.ac.uk/biosilt/index.html)

Further details of the School’s learning and teaching can be found at http://www.cardiff.ac.uk/biosilt/index.html

Informal enquiries can be made to the Head of School, Professor John Harwood (Harwood@cardiff.ac.uk), or the Head of the Microbiology Research Group, Professor Andrew Weightman (Weightman@cardiff.ac.uk)

Salary: Professor: A point on the Professorial Salary Scale

Reader: £42791 - £49606 per annum

Senior Lecturer: £42791 - £49606 per annum

To work for an employer that values and promotes equality of opportunity, visit www.cardiff.ac.uk/jobs telephone + 44 (0) 29 2087 4017 or email vacancies@cardiff.ac.uk for an application form quoting vacancy number 328.

Please state the level at which you wish to apply. Please also include full details of publications and research grant income (as relevant) and an indication of your research plans. A covering letter of application setting out personal career aspirations and the post you currently hold must be attached.

Closing date: 20 June 2008.

---

**Faculty Position In Pharmacology**

The Touro College of Osteopathic Medicine is now accepting applications for a faculty position in Pharmacology. The College is located in New York, New York.

We are seeking candidates who will be energetic, enthusiastic and committed individuals with an outstanding teaching record. Although the primary responsibilities will be teaching medical students, faculty members are encouraged to develop their own research programs. Salary will be commensurate with experience. A comprehensive benefits package is also included.

To apply, please submit a CV electronically (MS Word or pdf) with three references and their contact information. Include a detailed history of your teaching experience and a concise statement of your teaching and research goals to: faculty.med@touro.edu. All materials will be handled with strict confidence.

Details about college can be found at www.touro.edu/med.

Women and minorities are especially encouraged to apply. Touro College is an Equal Opportunity Employer.
The European Commission, Directorate General Joint Research Centre (JRC), is seeking to recruit (m/f):

DEPUTY DIRECTOR-GENERAL
IN THE DIRECTORATE GENERAL JOINT RESEARCH CENTRE (JRC)
IN BRUSSELS
(grade AD15) (COM/2008/10071) Official Journal n° C 127 A – 24/05/2008

We are...
... the JRC which provides scientific-technical advice and support mainly to policy makers in the other Directorates General, from conception of policies to monitoring their implementation. It comprises seven research institutes spread across 5 sites in Europe; the headquarters are in Brussels. It has a staff of 2,650 and an operating budget of € 340M per annum; its core competence areas are food, chemical products and health; environment and sustainability; nuclear safety and security; and horizontal activities such as reference materials and measurements, technology foresight, public security and anti-fraud.

We propose...
... the position of Deputy Director-General whose tasks it will be to support the Director General in managing the organisation, in defining the JRC’s overall strategy and in promoting relations with stakeholders and customers, in particular among the Commission’s Directorates General. He/She will i.a. be expected to define and implement the strategy of, and provide the overall management for, core areas of JRC’s non-nuclear activities.

We are looking for...
... the successful candidate should have: proven experience in senior management, including direct responsibility for sizeable staff numbers and budgets, preferably in a scientific organisation or in a policy-making entity in a field relevant to the JRC; high level scientific qualifications (PhD or equivalent experience) and demonstrated track record in a discipline of relevance to the JRC, preferably life sciences/environment/chemistry; good knowledge of relevant European Union policies and Directorates General; excellent interpersonal, decision-making, communication and negotiating skills.

To be eligible candidates must:
1. hold a university degree that gives access to undertake post-graduate studies;
2. have at least 15 years of postgraduate professional experience at a level to which the qualifications referred to above give admission, preferably in a field relevant to the mission. At least five years of that professional experience must have been gained in a management function at high level;
3. have a thorough knowledge of one of the official languages of the European Union and an adequate knowledge of another of these official languages. (Candidates should note that the selection procedures will be carried out in English, French or German only. As this might give an advantage to native speakers, these will be tested also in one or more other languages).
4. be a national of a European Union Member State.

Full job description, selection criteria and application details can be found in the Official Journal C 127 A of 24/05/2008 or on the EUROPA website:
http://ec.europa.eu/dgs/personnel_administration/working_senior_mgt_en.htm

If you want to apply, you must register via the Internet by going to the website:
http://ec.europa.eu/dgs/personnel_administration/seniormanagementvacancies/CV_Encadext/index.cfm

The closing date for application is 20 June 2008. On-line application will not be possible after 12.00 noon Brussels time.
Job vacancy
Deputy-Head of the Mass Section

Title: Physicist.
Location: BIPM, Sèvres (France).

The BIPM (International Bureau of Weights and Measures) is an intergovernmental organization whose mandate is to provide the basis for a coherent system of measurements throughout the world, traceable to the International System of Units (SI). It has an international staff of over 70 and an annual budget of about 10 million euros. Further information about the BIPM can be found on the BIPM’s website: www.bipm.org.

The Mass Section is one of five scientific sections at the BIPM. Since 1889, the definition of the kilogram has relied on an artefact maintained at the BIPM. The kilogram definition may well change in the near future, based on an experimental link between a macroscopic mass and a fundamental constant, and the BIPM already has programmes underway to meet this challenge and satisfy the needs of its Member States and the wider metrology community.

Employment conditions: The BIPM offers salaries and terms of employment in accordance to its Staff Rules, which are comparable with those of other international organizations based in France and operates its own contributory pension scheme.

The closing date is 26 June 2008

Duties
Under the supervision of the Head of the Mass Section, the Deputy Head of the Mass Section shall perform the following duties:

• Managing the expected workload increase for the section and the transition due to the forthcoming retirement of the current Head of the Mass Section during 2010, so that the BIPM continues to satisfy the needs of its Member States and the wider metrology community;
• Collaborating closely with the BIPM watt balance project, aimed at realizing the new kilogram definition;
• Supervising calibrations of 1 kg standards, provided by the BIPM to the signatories of the Metre Convention;
• Conducting and managing relevant research;
• Providing executive support for consultative committees of the International Committee for Weights and Measures, in particular for the Consultative Committee for Mass and Related Quantities and the Consultative Committee for Thermometry;
• Representing and promoting the Mass Section and the BIPM at international and national meetings, through publications and before stakeholders. Help maintain contacts with the outside community and interact with other international organizations with similar objectives to those of the BIPM;
• Promoting the importance of metrology in general and the benefits from association with the BIPM;
• Assisting the Head of the Mass Section in formulating and implementing strategies for science at the BIPM and for other corporately-set policies;
• Assisting the Head of Section in the leadership and management of the Section, which currently includes five staff members, to facilitate a collegial, productive and safe working environment and in the management of the budget and work of the Mass Section;
• Assisting the Head of Section in overseeing the operation of the Quality System within the Section.

Qualifications
Applicants should have:
• A PhD or equivalent work experience, and a broad knowledge of the physical sciences;
• Experience in mass metrology at the 1 kg level;
• An international scientific reputation attained through relevant publications;
• Management experience;
• A fluent level of spoken and written English and, after a few months of work at the BIPM, fluency in French;
• Ability to work in a multicultural environment and to maintain good working relations inside and outside the organization.

Applications
The BIPM encourages applications from both women and men with relevant qualifications. A full Curriculum Vitae (C.V.) and covering letter should be sent by paper mail to the Director, BIPM, Pavillon de Breteuil, F-92312 Sèvres Cedex, France, by 26 June 2008. Applications should include the names of two referees who will be asked to comment upon the candidate’s suitability for the post.
Boston University
School of Dental Medicine

The Department of Molecular and Cell Biology at Boston University Goldman School of Dental Medicine is seeking a faculty member at the Senior Assistant, Associate or Full Professor level. Candidates with a track record based on publications and current NIH funding, as a principal investigator, in broad areas of cell and developmental biology, biochemistry and/or genetics are invited to apply. Interest in craniofacial and/or oral biology is encouraged but not necessary. Excellent laboratory facilities and start up funds are available as well as joint appointments with appropriate departments at the Medical School and participation in the Bioinformatics Program at the School of Engineering.

Send applications including references with email addresses to Dr. Phillips W. Robbins, robbinsp@bu.edu, search committee Chair or to Dr. Carlos B. Hirschberg, chirschb@bu.edu, Department Founding Chair.

Boston University is an Affirmative Action and Equal Opportunity Employer.

Harvard University
Department of Chemistry and Chemical Biology
Postdoctoral Fellowships

The Mary Fieser Postdoctoral Fellowships Program seeks to enhance diversity and excellence in the Department of Chemistry and Chemical Biology (CCB) of Harvard University by providing postdoctoral fellowship support to women and groups that are historically underrepresented in science and to others whose background, experiences and research interests will contribute to academic diversity in CCB. Promising scholars male and female who have been historically underrepresented in chemistry (including but not limited to African American, American Indian, and Hispanic/Latino) are encouraged to apply.

Up to 12 fellowships may be awarded in 2008. Fellowships will be for an initial period of one year, with potential for renewal of up to one year (a two-year maximum level of support). Stipends will be targeted to the NRSA year ‘0’ amount and will include employee benefits, as well as the opportunity to enroll in an employee health plan. Applicants are required to have completed all PhD requirements prior to arrival. All applicants must be eligible to work in the United States before arrival.

Additional information regarding the application process and department faculty will be found at http://www.chem.harvard.edu. All materials for the second award cycle are due on July 15, 2008, for award announcement on August 15, 2008.

UNIVERSITY OF MARYLAND
School of Medicine

INSTITUTE FOR GENOME SCIENCES

The newly created Institute for Genomes Sciences (IGS) at the University of Maryland, School of Medicine seeks to fill several Faculty, Postdoctoral Fellow and Bioinformatics positions.

The Institute is led by Claire M. Fraser-Liggett, Ph.D., one of the world’s preeminent genome scientists and previous Director and President of the Institute for Genomic Research (TIGR). The Institute for Genome Sciences houses an interdisciplinary, multi-departmental team of collaborative investigators with a broad spectrum research program related to the genomics of infectious disease agents, human microbial metagenomics, functional genomics, and bioinformatics. The impact of the IGS team on the field of genomics has been substantial, with more than 500 publications during the past 15 years that have been cited more than 30,000 times.

Within the Institute are two state-of-the-art resource centers: the Genomics Resource Center (GRC), a high-throughput, state-of-the-art core laboratory supporting the scientific programs of IGS and external collaborators with multiple DNA sequencing, genotyping, and array platforms and the Informatics Resource Center (IRC) which provides genome assembly, annotation, and data analysis services.

IGS is recruiting additional faculty members to join its interdisciplinary scientific team. We are looking for highly collaborative investigators at all stages of their careers that have a track record in the application of large-scale approaches to the study of biological systems. We are looking to complement our existing expertise, and applicants with funded research programs in comparative genomics, statistical genomics, human genetic variation, and systems biology are encouraged to apply. There are many opportunities for collaborations with colleagues in IGS and across the School of Medicine in both basic and translational research in cardiovascular disease, cancer biology, and infectious disease and participation in graduate and medical education.

IGS is in a period of rapid expansion with many new research appointments anticipated in the next five years. To view detailed job descriptions for open IGS positions see our website at http://www.igs.umaryland.edu

All faculty and postdoctoral applicants should submit curriculum vitae, statement of research interest and names of three references to IGS-jobs@som.umaryland.edu

Consideration of candidates will begin upon receipt of applications and will continue until the positions are filled.

AA/EOE/ADA

www.hr.umaryland.edu
Chair and Chief
Department of Neurology
Yale School of Medicine
Yale-New Haven Hospital

Applications are invited for the position of Chair of the Department of Neurology at Yale University School of Medicine and Chief of Neurology at Yale-New Haven Hospital. Candidates will have an outstanding academic record in research, clinical care and education, will be experienced administratively with the interpersonal skills for multidisciplinary communication, and are expected to meet the requirements for appointment to the senior faculty ranks.

Applicants should send a curriculum vitae, brief statement of interest, and a list of professional references prior to July 31, 2008, electronically to Kathleen.Heath@yale.edu or by mail to: Lloyd Cantley, MD, Chair, Neurology Search Committee, c/o Kathleen Heath, Dean’s Office, Yale School of Medicine, 333 Cedar Street, I-202 SHM, PO Box 208049, New Haven, CT 06520-8049.

Yale University is an Equal Opportunity, Affirmative Action Employer. Women and minority group members are encouraged to apply.
FDA is currently recruiting for HUNDREDS of professional positions that are located throughout the United States. FDA has launched a multi-year initiative offering professionals with backgrounds in medicine, science and other related fields a unique opportunity to utilize their expertise while working in support of the FDA mission to protect and promote public health. We have a position that is right for you!

FDA Currently is employing a streamlined direct hire process for filling critical vacancies in the following occupations:

- Medical Officers
- Consumer Safety Officers
- Chemists
- Biologists
- Microbiologists
- Regulatory/General Health Scientists
- Mathematical Statisticians
- Epidemiologists
- Pharmacologists
- Pharmacists

To learn more about career opportunities with the FDA go to: www.fda.gov/jobs/hiringinitiative08.html

Meet with recruiters to discuss FDA careers opportunities at the following events:

**Bio International Convention Career Fair**
San Diego, CA
June 16, 2008 – 3 PM to 8 PM
At: San Diego Convention Center
111 West Harbor Drive
San Diego, CA 92101

**FDA Career Fair**
Boston, MA
June 3 and 4, 2008 – 10 AM to 6 PM
At: Renaissance Waterfront Hotel
located next to the Boston Convention Center, 606 Congress St. Boston MA

FDA is an equal opportunity employer and is a smoke-free environment.
As the industry leader, Science Careers has all the tools to guide you through the next steps of your career path. Search jobs, post your resume, sign up for automatic job alerts, and seek advice in the careers forum all for free! With more than 3,000 job opportunities from more than 500 top employers, Science Careers is proud to be No. 1. Log on to www.ScienceCareers.org and inject some life into your job search today.

We’ve got Careers down to a Science.
Full-time Faculty Positions in Cariology and Restorative Dentistry
Department of Cariology, Restorative Sciences and Endodontics

The University of Michigan invites applications and nominations for one full-time clinical track and one full-time tenure track faculty at the level of Assistant or Associate Professor in the Divisions of Cariology and Restorative Dentistry. The University of Michigan’s School of Dentistry is a world leader in a broad range of areas including clinical and educational research, tissue engineering, materials sciences, and health disparities. The School and Department are fully engaged in developing new models for dental education. The Department includes advanced education programs in Endodontics, Restorative Dentistry, and General Dentistry.

The successful candidate for clinical track should demonstrate sound preparation for teaching, potential for clinical scholarly activity, and clinical experience. Candidates for clinical track should have a DDS/DMD degree. A MS degree in a field relevant to the position is desirable, but not necessary. For the tenure track, candidates who demonstrate a record of ongoing scholarly activity and strong potential for obtaining extramural research funding are encouraged to apply. Candidates for tenure track should have a DDS/DMD degree and/or PhD degree (or equivalent). The department has an active mentorship program for both clinical and tenure-track faculty and will provide ample opportunities for clinic-based patient care and for the development of independent/collaborative research programs.

Applicants should submit a letter-of-intent, CV, and names of three references by mail or email (jenor@umich.edu) to Dr. Jacques E. Nör, Chair, CRSE Search Committee, School of Dentistry, University of Michigan, 1011 North University Avenue Rm 2309, Ann Arbor, MI 48109-1078. Review of the applications will begin no later than July 1, 2008 and continue until the positions are filled.

The University of Michigan is an Affirmative Action/Non-Discriminatory Employer.

---

Weill Cornell Medical College in Qatar

BASIC SCIENCE FACULTY SEARCH 2008

In a pioneering international initiative, the Weill Cornell Medical College (WCMC) under the sponsorship of the Qatar Foundation for Education, Science and Community Development established the Weill Cornell Medical College in Qatar (WCMC-Q). WCMC-Q, located in Doha, Qatar, is commencing its seventh year of operation and marked the historic graduation of the inaugural medical class in May 2008. The medical program at WCMC-Q replicates the admission standards and the innovative problem-based curriculum offered in New York. WCMC-Q seeks candidates for faculty positions in the following fields and their interfaces:

- **CELLULAR & MOLECULAR BIOLOGY** (08-sci-CM01)
- **PHYSIOLOGY** (08-sci-PL01)
- **MICROBIOLOGY/IMMUNOLOGY** (08-sci-MI01)
- **NEUROBIOLOGY** (08-sci-NB01)

Faculty members, based in Doha, are expected to teach in one or more of these areas according to their expertise, and contribute to the full academic life of the Medical College. This unique program provides successful applicants with the opportunity to leave their mark on a pioneering venture. A state of the art research program is being implemented by WCMC-Q, focused on genetics and molecular medicine, and women and children’s health. The teaching and research facilities are situated in a modern new facility in Education City in Doha amongst other American universities. Research funding opportunities for investigator-initiated grants are available, primarily through the Qatar National Research Fund.

Further details regarding the WCMC-Q program and facilities can be accessed at: [www.qatar-med.cornell.edu](http://www.qatar-med.cornell.edu).

Candidates should have an M.D. and/or Ph.D. or equivalent terminal degree, and strong teaching credentials. Salary is commensurate with training and experience and is accompanied by an attractive foreign-service benefits package. All faculty members at WCMC-Q are appointed by academic departments at Weill Cornell. Qualified applicants are invited to submit a letter of interest outlining their teaching and research experience and curriculum vitae via to:

BasicSciRecruit@qatar-med.cornell.edu.

Please quote the job reference number you are applying for in all correspondence.

Screening of applications will begin immediately and continue until suitable candidates are identified. Please note that due to the high volume of applications, only shortlisted candidates will be contacted.

Cornell University is an equal opportunity, affirmative action educator and employer.
INSTRUCTOR of MEDICINE POSITION
School of Medicine
Division of Cardiovascular Disease
The University of Alabama at Birmingham, Division of Cardiovascular Disease is seeking applicants with a Ph.D. or M.D. for the position of Instructor. This is a non-tenure-earning faculty position. Candidates must be capable of independently designing and conducting experiments and preparing and submitting data for publication. It is expected that the successful candidate will be able to secure independent, extramural funding to support ongoing research. Individuals interested in this position should have experience in small animal surgery and be able to work in both in vitro and in vivo. Interested candidates should send curriculum vitae, three letters of reference, and a brief statement of your interest to: Robert C. Bourge, M.D., Director, 1900 University Boulevard, University of Alabama at Birmingham Station, Birmingham, AL 35294.

UAB is an Equal Opportunity/Affirmative Action Employer.

POSTDOCTORAL POSITION, University of California San Francisco/Northern California Institute for Research and Education. Postdoctoral position, available in signal transduction and cancer stem cell biology. The successful applicant will have a Ph.D. in tumor biology and animal physiology. E-mail or send curriculum vitae and names of two references to: Northern California Institute for Research and Education, Att.: Human Resources, 4150 Clement Street, 151NC, San Francisco, CA 94121-1545. You must indicate job number 08-222 for consideration. E-mail: careers@ncire.org.

POSTDOCTORAL RESEARCH FELLOWSHIP
Molecular Mechanisms of Blood Cell-based Therapy Biology
Joint Program in Transfusion Medicine
Harvard Medical School Affiliated Institutions
Boston, Massachusetts

Applications are now being accepted for Postdoctoral (M.D. or Ph.D.) Fellows who desire research careers in the expanding, multidisciplinary field of blood cell biology. The Program offers a stimulating environment with various basic science and applied research opportunities, and is supported by senior faculty in the Departments of Pediatrics, Pathology, Hematology/Oncology, Immunology, and Genetics. Fellows will commit research for two years under the direction of one mentor, with opportunities for collaborative and interlaboratory projects. The principal research fields include stem cell biology including immune modulation, gene therapy, cancer immunology, platelet biology, and hematopoiesis. Publication in an international peer-reviewed journal is a prerequisite for acceptance into the Program. As per NIH guidelines, candidate must be a citizen of the United States or hold permanent residency status in the United States to apply. Send curriculum vitae, statement of interest, and three reference letters to: Leslie E. Silverstein, M.D., Director, Joint Program in Transfusion Medicine, c/o Maureen Hudd School of Medicine, Karp Family Research Building, 10th Floor, Room 10217, 1 Blackfan Circle, Boston, MA 02115 or via e-mail: maureen.hudd@childrens.harvard.edu.

Affirmative Action/Affirmative Opportunity Employer.

TENURE-TRACK FACULTY POSITION
Texas A&M University, Health Science Center, Baylor College of Dentistry, Department of Biomedical Science, seeks ASSISTANT or ASSOCIATE PROFESSOR level candidates (website: http://www.bcd.tamhs.edu). A Ph.D. or clinical degree with a research focus in a pain-related neurophysiology, neuroimmunology, or neuropharmacology field with a record of external research support is preferred. Please submit curriculum vitae, statement of career goals, teaching philosophy, and how to contact three references in PDF format to: Dr. Phillip Kramer at e-mail: baylorposition@bcd.tamhs.edu. Baylor College of Dentistry is an Equal Opportunity Employer.

POSTDOCTORAL POSITION available in cardiac development and stem cell biology. Our laboratory at University of Southern California’s Institute for Genetic Medicine is studying the mammalian cardiovascular development and transcriptional regulation of gene expression in the murine cardiac conduction system. Experience in developmental biology and/or stem cell biology is required. Competitive salary is offered to individuals with experience in cardiac development. Applicants are requested to e-mail: mpsashmfo@usc.edu.

POSTDOCTORAL POSITION available to study mechanisms of DNA repair near telomeres and the mechanisms of chromosomal instability resulting from telomere loss in mammalian cells. Applicants should have a strong background in molecular biology. Send curriculum vitae to: Dr. John Murnane, Department of Radiation Oncology, University of California, San Francisco, 1855 Polk Street, MCB200, San Francisco, CA 94103. E-mail: jmurnane@rad Onc.ucsf.edu. UCSF is an Equal Opportunity Employer.

The NIH-funded International Cooperative Biodiversity Groups project at the Smithsonian Tropical Research Institute in Panama invites applications for a POSTDOCTORAL POSITION in microbiology. The laboratory focuses on culture of novel endophytic fungi from terrestrial and marine organisms as sources of secondary metabolites for drug discovery. Review of applications begins 7 June 2008. For more information see website: http://www.icbgpanama.org/index.html or write to e-mail: kellerG@sti.edu.

MUTATION EXPERIENCE

Microbial/Molecular Biologist
The Catholic University of America

The Department of Biology has a tenure-track opening at the level of ASSISTANT PROFESSOR in the general area of microbial or molecular biology. Applications are sought from candidates using molecular and/or biochemical approaches to study an expanding problem in prokaryote or simple eukaryote. The successful candidate will join a collegial research-oriented department that offers undergraduate and graduate (Ph.D.) programs. The successful applicant is expected to support ongoing research. Individuals interested in pursuing an extramurally funded research program that provides a high level of technical support for researchers at the University of Minnesota Supercomputing Institute. This is an exciting opportunity to participate in a successful program that provides technical support to a broad range of development efforts and applications in computational biology.

Please see the employment section at website: http://www.msi.umn.edu for details.

Equal Opportunity Educator and Employer.

The University of Minnesota Supercomputing Institute seeks to hire a Computational Proteomics Consultant. The Institute is a division of the University of Minnesota Medical School that provides a high level of technical support for researchers at the University of Minnesota Supercomputing Institute. This is an exciting opportunity to participate in a successful program that provides technical support to a broad range of development efforts and applications in computational biology.
