ASTRONOMY
The Metamorphosis of Supernova SN 2008D/XRF 080109: A Link Between Supernovae and GRBs/Hypernovae
P. A. Mazalli et al.
The spectra of a recent supernova evolved from that of a more energetic event to that of a less energetic one, providing a link between previous observations. 10.1126/science.1158088

ATMOSPHERIC SCIENCE
Tail Reconnection Triggering Substorm Onset
V. Angelopoulos et al.
Satellite and ground-based data show that reconnection of magnetic field lines in Earth's magnetotail precedes dramatic aurora displays and is the source of magnetic substorms. 10.1126/science.1160495

MEDICINE
Human CHN1 Mutations Hyperactivate α2-Chimaerin and Cause Duane's Retraction Syndrome
N. Miyake et al.
A signaling protein that helps nerve fibers find their correct target muscles is required for innervation of the eye muscles and, if defective, causes an eye movement disorder. 10.1126/science.1156121

PERSPECTIVE: The Elusive Onset of Geomagnetic Substorms
A. A. Petrukovich
10.1126/science.1162426

LETTERS
Retraction J. M. Geremia, J. K. Stockton, H. Mabuchi 489
Doubts About GM Crops P. Mitchell

Response to Comment on "Major Australian-Antarctic Plate Reorganization at Hawaiian-Emperor Bend Time"
J. M. Whittaker et al.
full text at www.sciencemag.org/cgi/content/full/321/5888/490d

REVIEW
APPLIED PHYSICS
Studying Atomic Structures by Aberration-Corrected Transmission Electron Microscopy
K. W. Urban 506

BREVIA
GEOCHEMISTRY
A Quantitative Link Between Recycling and Osmium Isotopes
A. V. Sobolev et al.
Osmium isotope data and metal concentrations from Icelandic lavas show that the underlying mantle contains some recycled oceanic crust that is 1 to 2 billion years old.

RESEARCH ARTICLE
MOLECULAR BIOLOGY
An Argonaute Transports siRNAs from the Cytoplasm to the Nucleus
S. Guang et al.
A protein similar to one that binds small cytoplasmic RNAs transports small RNAs into the nucleus, where they participate in RNA-based nuclear silencing processes. >> Perspective p. 496
PLANT SCIENCE
BSKs Mediate Signal Transduction from the Receptor Kinase BR11 in Arabidopsis
W. Tang et al.

When a plant membrane receptor is activated by a steroid hormone, two kinases are phosphorylated that ultimately regulate gene expression and development.

ECOLOGY
One-Third of Reef-Building Corals Face Elevated Extinction Risk from Climate Change and Local Impacts
K. E. Carpenter et al.

The viability of the world’s major coral reefs is endangered both by direct human disturbance and by disease and bleaching events brought on by climate change.

CELL BIOLOGY
Eco1-Dependent Cohesion Acetylation During Establishment of Sister Chromatid Cohesion
T. Rolef Ben-Shahar et al.

E. Únal et al.
The pairing of newly replicated chromatids—essential for accurate cell division—is promoted by acetylation of one subunit of the protein cohesion by another subunit.

BIOCHEMISTRY
ERdj5 Is Required as a Disulfide Reductase for Degradation of Misfolded Proteins in the ER
R. Ushioda et al.

A disulfide reductase found in the endoplasmic reticulum cleaves the disulfide bonds of misfolded proteins so they can be transported into the cytoplasm for degradation.

BIOCHEMISTRY
The Crystal Structure of [Fe]-Hydrogenase Reveals the Geometry of the Active Site
S. Shima et al.

Three hydrogenases that evolved independently exhibit similar features in their active sites, yielding clues for designing catalysts in hydrogen fuel cells.

MOLECULAR BIOLOGY
DNA Events Manipulating the Metazoan Mitochondrial Genome with Targeted Restriction Enzymes
H. Xu, S. Z. DeLuca, P. H. O’Farrell

Flies with mutant mitochondria—generated by introduction of restriction enzymes—show many of the same phenotypes as humans with mitochondrial mutations.

MATERIALS SCIENCE
Enhancement of Thermoelectric Efficiency in PbTe by Distortion of the Electronic Density of States
J. P. Heremans et al.

Introduction of thallium into lead telluride improves its ability to generate electricity when heated by up to 50 percent.

MOLECULAR BIOLOGY
Mitochondrial Genome with Targeted Restriction Enzymes
Flies with mutant mitochondria—generated by introduction of restriction enzymes—show many of the same phenotypes as humans with mitochondrial mutations.
Perspective: A New TRADDition in Intracellular Antiviral Signaling

E. M. Pietras and G. Cheng

The tumor necrosis factor (TNF) receptor–associated death domain (TRADD) adaptor protein plays a role in the antiviral response.

ST NETWATCH: WormBook

WormBook is a collection of reviews about Caenorhabditis elegans biology; in Model Organisms.

ST NETWATCH: CSHL Leading Strand

Watch seminars from selected conferences sponsored by the Cold Spring Harbor Laboratory; in Web Broadcasts.

ST NETWATCH: Plant Genome Research Outreach Portal

Learn all about plant biology and genomics; in Educator Sites.

Exercise can benefit you and your career.

Mastering Your Ph.D.: Defending Your Thesis With Flair

P. Gosling and B. Noordam

The key to your thesis defense is extensive preparation.

Opportunities: A Strategic Online Persona

P. Fiske

Retool your online presence as a lean, mean, job-seeking machine.

Mind Matters: Get Moving

I. S. Levine

Physical activity is a great way to reduce stress and boost your productivity.
