POSITIONS OPEN

FACULTY POSITIONS, ENVIRONMENTAL ENGINEERING, University of Notre Dame. The Department of Civil Engineering and Geological Sciences, University of Notre Dame, Notre Dame, Indiana, invites applications for multiple tenure-track positions in environmental engineering to complement existing faculty in environmental science and engineering. Qualified candidates at all levels, including an **ENDOWED CHAIR**, will be considered, with hiring rank and tenure status commensurate with academic accomplishments. Areas of interest include, but are not limited to: membrane processes for water treatment, microbiological aspects of water treatment and supply, nanoparticles/nanoengineering in the environment, environmental sensors/sensing systems, and modeling of environmental processes and systems. The Department has a unique blend of environmental engineering and environmental science faculty, and has outstanding research facilities. Our current strengths include environmental treatment and remediation, environmental geochemistry, mineralogy, applied microbiology, geomicrobiology, environmental and computational fluid mechanics, and groundwater hydrology. Information about the Department and Environmental Engineering Program can be found at **website: <http://www.nd.edu/~cegeos/>**. We seek individuals with dynamic and highly innovative research agendas that may cross traditional disciplinary boundaries. Qualifications include a Ph.D. in civil or environmental engineering or related field. Candidates are expected to exhibit a dedication to excellence in research, teaching, and professional service. The application package should include a cover letter addressing preparation for this position, curriculum vitae, a statement of research and teaching interests, and names and contact information of four references. Applications should be sent electronically, preferably as a single PDF file, or by mail to: **Dr. Robert Nerenberg (e-mail: enveng@nd.edu)**, Department of Civil Engineering and Geological Sciences, 156 Fitzpatrick Hall, University of Notre Dame, Notre Dame, IN 46556-0767. Review of applications will begin immediately, but applications will be accepted until the position is filled. *The University of Notre Dame is committed to diversity and equality in education and employment, and women and members of underrepresented minority groups are strongly encouraged to apply.*

PLANT EVOLUTIONARY DEVELOPMENTAL GENETICIST SEARCH 2008

The Department of Biology (comprising the newly merged Departments of Botany and Zoology) at the University of Florida invites applications for a nine-month, tenure-track faculty position in plant evolutionary developmental genetics at the level of **ASSISTANT PROFESSOR**, effective fall semester 2009. We offer a collegial environment that fosters collaborative, interdisciplinary research. Individuals examining plant developmental morphology and its genetic control in a comparative and/or evolutionary context are especially encouraged to apply. Instruction at both undergraduate and graduate levels is expected, including a course in plant anatomy/morphology, and also genetics and/or involvement in introductory biology. Successful applicants must have a Ph.D. and postdoctoral experience. Our faculty enjoy strong ties with the Plant Molecular and Cellular Biology Program, University of Florida Genetics Institute, University of Florida Emerging Pathogens Institute, the Florida Museum of Natural History, and multiple University centers in biomedical, veterinary, environmental, and agricultural sciences. Applicants should submit an electronic application consisting of a cover letter, curriculum vitae, statements of research and teaching interests, and three reprints; please go to **website: <http://www.biology.ufl.edu/search/>**. Applicants should also arrange to have three letters of reference mailed to: **Plant Evolutionary Developmental Genetics Search, P.O. Box 118525, University of Florida, Gainesville, FL 32611-8525 U.S.A.** Review of applications will begin on January 12, 2009, and will continue until the position is filled. *Our Department is committed to diversity as a component of excellence. Women and members of underrepresented groups are particularly encouraged to apply. The University of Florida is an Equal Opportunity Institution.*

POSITIONS OPEN

ASSISTANT or ASSOCIATE PROFESSOR Center of Excellence for Infectious Diseases

The newly created Center of Excellence for Infectious Diseases at the Paul L. Foster School of Medicine at El Paso is seeking highly qualified applicants for tenure-track faculty positions at the Assistant or Associate Professor level in the Department of Biomedical Sciences.

Successful candidates are expected to develop an independently funded research program in infectious diseases or a related field within two to three years. The positions report to the Co-Directors of the Center of Excellence for Infectious Diseases.

Minimum qualifications. M.D. or Ph.D. degree in a field related to infectious diseases or immunology, three years of postdoctoral experience, and a strong publication record.

Preferred qualifications. Candidates with experience in emerging infectious diseases, experience using the latest technologies and funded grant support are particularly encouraged to apply. (Only candidates with funded grant support will be considered for Associate Professor rank.)

A competitive salary, startup package, and comprehensive benefits are available. Interested candidates must apply online at **website: <http://jobs.texastech.edu>**, requisition # 77147. For further information, potential applicants may inquire confidentially to: **Manjunath Swamy, M.D., e-mail: manjunath.swamy@ttuhsc.edu** or **Premlata Shankar, M.D., e-mail: premlata.shankar@ttuhsc.edu**, Co-Directors of the Center of Excellence for Infectious Diseases.

The position is open until filled. Application review will begin immediately.

Texas Tech University Health Sciences Center is an Equal Opportunity/Affirmative Action Employer.

ECOLOGIST

The Department of Biology at the University of North Carolina at Greensboro is seeking to hire a tenure-track Ecologist working at large spatial scales on issues related to environmental health. Appointment is anticipated at the level of **ASSISTANT PROFESSOR** but especially well-qualified candidates may be considered at the level of **ASSOCIATE PROFESSOR**. Tenure may be offered at the Associate rank depending on the selected candidate's qualifications. The Biology Department has 21 tenure-track faculty, offers undergraduate and M.S. degrees in biology, and anticipates initiating a Ph.D. Program in Environmental Health Sciences (see **website: <http://www.uncg.edu/bio/>**). Successful applicants would be expected to develop a strong, externally funded research program, train undergraduate and graduate students, make significant contributions to the new Ph.D. program, and teach courses relevant to their specialty. Synergies with faculty in related disciplines are encouraged.

Candidates must hold or anticipate the Ph.D. by August 1, 2009, and postdoctoral experience is preferred. Applicants should e-mail or post a cover letter, curriculum vitae, brief statements of research goals and teaching philosophies, and arrange for three letters (e-mail acceptable with hard copy to follow) of recommendations to **Ms. Kathe Martin (e-mail: kamarti3@uncg.edu)**, Biology Department, University of North Carolina Greensboro, 312 Eberhart Building, 321 McIver Street, Greensboro, NC 27412. Evaluation of applications will begin December 1, 2008. Position starts in August 2009. Inquiries should be directed to **Dr. A.E. Hershey (e-mail: achershe@uncg.edu)**, Search Committee Chair. *UNC Greensboro is especially proud of the diversity of its student body and we seek to attract an equally diverse applicant pool for this position, including women and members of minority groups. We are an Equal Employment Opportunity/Affirmative Action Employer with a strong commitment to increasing faculty diversity.*
