NEWS OF THE WEEK

- 1546 Projections of Climate Change Go From Bad to Worse, Scientists Report
- 1548 Senate Majority Leader Hands NSF a Gift to Serve the Exceptionally Gifted
- 1549 Stronger Research Just One Item on Drug Agency's Wish List
- 1550 Recipe for Rice Domestication Required Millennia
>> Report p. 1607
- 1551 An Unseen Link May Solve the Mystery of the Sun's Superhot Corona
>> Report p. 1582
- 1551 From *Science's* Online Daily News Site
- 1552 For Congress and NIH, Headaches Ahead on Stem Cells
- 1552 Stem Cell Center Looks to Recast Itself in Supporting Role
- 1553 From the *Science* Policy Blog

NEWS FOCUS

- 1554 Rewiring Faulty Circuits in the Brain
>> Research Article p. 1578; Science Express Report by V. Gradinaru et al.; Science Podcast
- 1557 A Lifetime of Work Gone to Waste?
- 1558 *Exxon Valdez* Turns 20

LETTERS

- 1560 Pandemic Influenza: An Inconvenient Mutation
S. P. Layne et al.
Romanian Expatriates Face Career Obstacles
Z. Simon
Reversible Exploration Not Worth the Cost
S. C. Schon

1561 CORRECTIONS AND CLARIFICATIONS

BOOKS ET AL.

- 1562 Sustaining Life
E. Chivian and A. Bernstein, Eds., reviewed by D. P. Mindell
- 1563 Surviving 1,000 Centuries
R.-M. Bonnet and L. Woltjer, reviewed by G. F. Bignami

POLICY FORUM

- 1564 Monitoring and Regulating Offshore Stem Cell Clinics
S. Kiatpongsan and D. Sipp

PERSPECTIVES

- 1566 Flexible Electronics
B. D. Gates
>> Report p. 1590
- 1567 Two-in-One Designer Antibodies
P. W. H. I. Parren and D. R. Burton
>> Report p. 1610
- 1568 Dynamic DNA Methylation
J. A. Law and S. E. Jacobsen
>> Report p. 1600
- 1570 Fullerides in a Squeeze
E. Tosatti
>> Report p. 1585
- 1571 Stiffer Than Steel
J. D. W. Madden
>> Research Article p. 1575
- 1572 Copper Puts Arenes in a Hard Position
R. E. Maleczka Jr.
>> Report p. 1593

BREVIA

- 1574 Flagellum Mediates Symbiosis
T. Shimoyama et al.
A bacterium uses its flagellum to grip its archaeal symbiotic partner and to stimulate hydrogen consumption.

COVER

Movement trajectories, each recorded during a 1-hour time period, for rats with brain lesions that reduce dopamine signaling. These animals serve as a model of Parkinson's disease and display severe difficulty in initiating movements, as illustrated by the white trajectories (on black background) showing limited locomotion. Black trajectories (on white background) illustrate the recovery of locomotive activity induced by electrical stimulation of the dorsal columns of the spinal cord. See page 1578.

RESEARCH ARTICLES

1575 Giant-Stroke, Superelastic Carbon Nanotube Aerogel Muscles

A. E. Aliev et al.

Applying a high voltage to very low density sheets of carbon nanotubes causes rapid expansion in one direction.

>> *Perspective p. 1571*

1578 Spinal Cord Stimulation Restores Locomotion in Animal Models of Parkinson's Disease

R. Fuentes et al.

Epidural stimulation of spinal neural pathways produces specific shifts in activity in neural circuits affecting movement.

>> *News story p. 1554; Science Express Report by V. Gradinaru et al.*

REPORTS

1582 Alfvén Waves in the Lower Solar Atmosphere

D. B. Jess et al.

A special type of plasma wave has been observed that can heat the solar atmosphere to millions of degrees Celsius.

>> *News story p. 1551; Science Podcast*1585 The Disorder-Free Non-BCS Superconductor Cs_3C_{60} Emerges from an Antiferromagnetic Insulator Parent State

Y. Takabayashi et al.

A well-ordered body-centered cubic phase of Cs_3C_{60} reveals a pressure-driven transition from an insulator to a superconductor.

>> *Perspective p. 1570*

1590 Omnidirectional Printing of Flexible, Stretchable, and Spanning Silver Microelectrodes

B. Y. Ahn et al.

Colloidal silver particles can be formed into flexible electrodes of arbitrary shape in three dimensions.

>> *Perspective p. 1566*

1593 A Meta-Selective Copper-Catalyzed C–H Bond Arylation

R. J. Phipps and M. J. Gaunt

A copper catalyst functionalizes benzene derivatives at ring positions complementary to those accessed by standard methods.

>> *Perspective p. 1572*1597 The Burgess Shale Anomalocaridid *Hurdia* and Its Significance for Early Euarthropod Evolution

A. C. Daley et al.

Hurdia, a Cambrian fossil, clarifies the morphology and evolution of early arthropod limbs and head.

1600 A Role for RNAi in the Selective Correction of DNA Methylation Defects

F. K. Teixeira et al.

An RNA interference-dependent DNA methylation rescue system helps to preserve a subset of DNA methylation marks in *Arabidopsis*.

>> *Perspective p. 1568*

1605 Genetic Incompatibility Drives Sex Allocation and Maternal Investment in a Polymorphic Finch

S. R. Pryke and S. C. Griffith

Female Gouldian finches bias the sex of their offspring on the basis of their partner's color phenotype.

1607 The Domestication Process and Domestication Rate in Rice: Spikelet Bases from the Lower Yangtze

D. Q. Fuller et al.

Remains of domestic and wild rice trace the process of rice domestication in China to between 6900 and 6600 years ago.

>> *News story p. 1550*

1610 Variants of the Antibody Herceptin That Interact with HER2 and VEGF at the Antigen Binding Site

J. Bostrom et al.

The antigen binding site of a therapeutic antibody for cancer simultaneously binds two proteins required for tumor growth.

>> *Perspective p. 1567*

1614 Ankyrin-G Promotes Cyclic Nucleotide-Gated Channel Transport to Rod Photoreceptor Sensory Cilia

K. Kizhatil et al.

The assembly and function of key photoreceptor proteins in neonatal mouse retinas is mediated by the protein ankyrin-G.

1617 The Surprising Power of Neighborly Advice

D. T. Gilbert et al.

A stranger's reaction to a social situation is a more accurate guide to our own reaction than is a written description of the situation.

The Disappearance of the Progenitors of Supernovae 1993J and 2003gd

J. R. Maund and S. J. Smartt

The presumed progenitor stars of supernovae are indeed absent in later images from these sites.
10.1126/science.1170198

Optical Deconstruction of Parkinsonian Neural Circuitry

V. Gradinaru et al.

The therapeutic effects of high-frequency stimulation of the subthalamic nucleus result from direct effects on afferent axons.
10.1126/science.1167093

>> *News story p. 1554; Research Article p. 1578*

Circadian Clock Feedback Cycle Through NAMPT-Mediated NAD⁺ Biosynthesis

K. M. Ramsey et al.

A transcriptional-enzymatic feedback loop controls interactions between metabolism and circadian rhythms in mouse cells.
10.1126/science.1171641

γ -Secretase Heterogeneity in the Aph1 Subunit: Relevance for Alzheimer's Disease

L. Serneels et al.

Targeted knockout of only part of the γ -secretase complex lessens toxicity and still improves disease phenotypes.
10.1126/science.1171176

Benzothiazinones Kill *Mycobacterium tuberculosis* by Blocking Arabinan Synthesis

V. Makarov et al.

An enzyme required for cell-wall synthesis is a target for a possible alternative drug for tuberculosis treatment.
10.1126/science.1171583

The Signal Transduction Knowledge Environment

RESEARCH ARTICLE: Obesity Increases Vascular Senescence and Susceptibility to Ischemic Injury Through Chronic Activation of Akt and mTOR

C.-Y. Wang et al.

Chronic activation of Akt and mammalian target of rapamycin (mTOR) link diet-induced obesity with cardiovascular disease.

PERSPECTIVE: Bacterial FIC Proteins AMP Up Infection

C. R. Roy and S. Mukherjee

A bacterial protein posttranslationally modifies and inactivates Rho family GTPases in host cells.

TEACHING RESOURCE: Measurement of Phosphorylated Extracellular Signal-Regulated Kinase 1 and 2 in an Undergraduate Teaching Laboratory with ALPHAscreen Technology

D. L. Hay

Students use a high-throughput assay to monitor cellular responses to receptor activation.

SCIENCE CAREERS

www.sciencecareers.org/career_magazine

Free Career Resources for Scientists

Bringing Community Into Translational Research

S. Webb

Translational social scientists carry the lessons they learn in the community back to the lab.

Looking Up Your Career at the Library

L. Laursen

The work of a science librarian offers a mix of research, teaching, and interacting with people.

Tooling Up: The Informational Interview

D. Jensen

Landing an informational interview takes networking; making it pay off takes preparation.
