SPECIAL SECTION

Ardipithecus ramidus

INTRODUCTION
60 Light on the Origin of Man

RESEARCH ARTICLES

Ardipithecus ramidus and the Paleobiology of Early Hominids
Tim D. White et al.
Authors’ Summary p. 64, Full Text p. 75

The Geological, Isotopic, Botanical, Invertebrate, and Lower Vertebrate Surroundings of Ardipithecus ramidus
Giday WoldeGabriel et al.
Authors’ Summary p. 65, Full Text Online*

Taphonomic, Avian, and Small-Vertebrate Indicators of Ardipithecus ramidus Habitat
Antoine Louchart et al.
Authors’ Summary p. 66, Full Text Online*

Macrovertebrate Paleontology and the Pliocene Habitat of Ardipithecus ramidus
Tim D. White et al.
Authors’ Summary p. 67, Full Text p. 87

The Ardipithecus ramidus Skull and Its Implications for Hominid Origins
Gen Suwa et al.
Authors’ Summary p. 68, Full Text Online*

Paleobiological Implications of the Ardipithecus ramidus Dentition
Gen Suwa et al.
Authors’ Summary p. 69, Full Text p. 94

Careful Climbing in the Miocene: The Forelimbs of Ardipithecus ramidus and Humans Are Primitive
C. Owen Lovejoy et al.
Authors’ Summary p. 70, Full Text Online*

The Pelvis and Femur of Ardipithecus ramidus: The Emergence of Upright Walking
C. Owen Lovejoy et al.
Authors’ Summary p. 71, Full Text Online*

Combining Prehension and Propulsion: The Foot of Ardipithecus ramidus
C. Owen Lovejoy et al.
Authors’ Summary p. 72, Full Text Online*

The Great Divides: Ardipithecus ramidus Reveals the Postcrania of Our Last Common Ancestors with African Apes
C. Owen Lovejoy et al.
Authors’ Summary p. 73, Full Text p. 100

Reexamining Human Origins in Light of Ardipithecus ramidus
C. Owen Lovejoy
Author’s Summary p. 74, Full Text Online*

>> Editorial p. 17; News Focus section pp. 36–43; *Full text and related online content at www.sciencemag.org/ardipithecus/

46 CORRECTIONS AND CLARIFICATIONS

CONTENTS continued >>
CD4+ Regulatory T Cells Control T9 Active Responses in a Stat3-Dependent Manner A. Chaudhry et al. Suppress T cells regulate different classes of immune responses through induction of specific transcription factors. 10.1126/science.1177022

Two Chemoreceptors Mediate Developmental Effects of Dauer Pheromone in C. elegans K. Kim et al. Chemical signals that determine alternative nematode developmental programs act via two G protein–coupled receptors. 10.1126/science.1176331

Probing the Magnetic Field of Light at Optical Frequencies M. Burresi et al. A split-ring resonator coupled to a scanning probe is used to measure the weak magnetic component of light. 10.1126/science.1177096

A Population of Compact Elliptical Galaxies Detected with the Virtual Observatory I. Chilingarian et al. A sample of elliptical systems provides evidence that disruption of galaxies plays an important role in their evolution. 10.1126/science.1175930

RESEARCH ARTICLE: Leishmania GP63 Alters Host Signaling Through Cleavage-Activated Protein Tyrosine Phosphatases M. A. Gomez et al. The parasite protein GP63 triggers cleavage and activation of host protein tyrosine phosphatases to promote infection. 10.1126/science.1176384

RESEARCH ARTICLE: Hippo Pathway–Dependent and –Independent Roles of RASSF6 M. Ikeda et al. RASSF6 is both an inhibitor and a promoter of apoptosis, and its proapoptotic activity is regulated by the mammalian kinase MST2, a Hippo homolog. 10.1126/science.1177096

PERIODICAL: Sending ROS on a Bullet Train H. L. Wong and K. Shimamoto Hydrogen peroxide is an auto-propagating, rapid systemic stress signal generated by RBOHD in Arabidopsis. 10.1126/science.1177096

PERIODICAL: STAT3 Revs Up the Powerhouse N. C. Reich The transcription factor STAT3 stimulates mitochondria to augment Ras-dependent oncogenic transformation. 10.1126/science.1175930

REVIEW: Transduction of Redox Signaling by Electrophile–Protein Reactions T. K. Rudolph and B. A. Freeman Attachment of electrophilic products of redox reactions to proteins links cell function to changes in metabolic and inflammatory status. 10.1126/science.1175930

SPECIAL FEATURE: Ardipithecus ramidus The entire contents of this week’s special section, online, plus special video and podcast features. Find it all at www.sciencemag.org/ardipithecus/.

SCIENCECAREERS Owning up to depression. www.sciencemag.org/careers

Flying High S. Guidos Cecilia Aragon lacked the confidence to be a scientist—and then she learned to fly.

Destigmatizing Depression K. Hede Physician-scientist trainees are often reluctant to admit to suffering from depression.

Taken for Granted: Is a New Model Needed for Breakthrough Science? B. L. Benderly Traditional PI-centered research cannot solve the big problems, a lab leader asserts.

SCIENCEPODCAST Free Weekly Show Download the 2 October Science Podcast to hear about the most detailed snapshot of early hominid life, the origin of community structure, and your letters to Science.
