Changing Oceans

INTRODUCTION
1497  Changing Oceans

NEWS
1498  Keeping Tabs on the Sea
1500  Ocean Acidification Unprecedented, Unsettling
1502  A Push for Quieter Ships
1504  Down on the Shrimp Farm
1506  The Dirt on Ocean Garbage Patches

REVIEWS
1507  Deconstructing the Conveyor Belt
      M. S. Lozier
1512  The Growing Human Footprint on Coastal and Open-Ocean Biogeochemistry
      S. C. Doney
1517  Sea-Level Rise and Its Impact on Coastal Zones
      R. J. Nicholls and A. Cazenave
1520  How Do Polar Marine Ecosystems Respond to Rapid Climate Change?
      O. Schofield et al.
1523  The Impact of Climate Change on the World’s Marine Ecosystems
      O. Hoegh-Guldberg and J. F. Bruno

LETTERS
1474  Childhood’s Cures Haunted by Adulthood’s ‘Late Effects’
1476  The Invisible Hand Behind a Vast Carbon Reservoir

CORRECTIONS AND CLARIFICATIONS
1480  TECHNICAL COMMENT ABSTRACTS

BOOKS ET AL.
1482  Agora A. Amendar, director
      Océans J. Perrin and J. Cluzaud, directors, reviewed by S. Firestein
1483  Takes on Hunters and Roads

POLICY FORUM
1485  Proposed U.S. Policy for Ocean, Coast, and Great Lakes Stewardship
      J. Lubchenco and N. Sutley

PERSPECTIVES
1487  A Kantian View of Space
      L. Palmer and G. Lynch
1488  Tilting at Connections, from Pole to Equator
      S. G. Philander
1489  Dating Pharaonic Egypt
      H. J. Bruins
1491  A Drop of Quantum Matter
      P. Nussenzveig and J. C. A. Barata
1492  The Great Indo-Pacific Communicator
      D. W. Oppo and Y. Rosenthal

EDITORIAL
1453  The Changing Oceans
      John A. Church

NEWS OF THE WEEK
1462  Water Shortages Loom as Northern China’s Aquifers Are Sucked Dry
1466  Endosulfan’s Exit: U.S. EPA Pesticide Review Leads to a Ban
1467  From Science’s Online Daily News Site

NEWS FOCUS
1468  Probing the Secrets of the Finest Fiddles
      >> Science Podcast
1471  A Taste for Controversy

LETTERS
1479  Forests and Climate: A Warming Paradox
      X. Lee
      Forests and Climate: The Search for Specifics

      Response
      D. Yokir and E. Rotenberg
      Call for Science to Clear Whaling Confusion
      J. Cooke et al.

CORRECTIONS AND CLARIFICATIONS
1480  TECHNICAL COMMENT ABSTRACTS

BOOKS ET AL.
1482  Agora A. Amendar, director
      Océans J. Perrin and J. Cluzaud, directors, reviewed by S. Firestein
1483  Takes on Hunters and Roads

CONTENTS continued >>
1494 Paring MiRNAs Through Pairing
A. E. Pasquinelli
>> Research Article p. 1534; Report p. 1563

1495 HDL miR-ed Down by SREBP Introns
M. S. Brown et al.
>> Reports pp. 1566 and 1570

BREVIA

1529 Reassortment of Pandemic H1N1/2009 Influenza A Virus in Swine
D. Vijaykrishna et al.
Surveillance of pigs is important for tracking reassortment and emergence of influenza A viruses.
>> Science Podcast

RESEARCH ARTICLES

1530 Tropical Ocean Temperatures Over the Past 3.5 Million Years
T. D. Herbert et al.
Tropical sea surface temperatures were controlled more by atmospheric connections to glaciation cycles than by ocean circulation.
>> Perspective p. 1488; Report p. 1550

1534 Target RNA—Directed Trimming and Tailing of Small Silencing RNAs
S. L. Ameres et al.
Animal microRNAs have reduced complementarity to their targets to avoid their own degradation.
>> Perspective p. 1494; Report p. 1563

REPORTS

1540 Bose-Einstein Condensation in Microgravity
T. van Zoest et al.
Studies of atomic quantum states in free-fall conditions may provide ways to test predictions of general relativity.
>> Perspective p. 1491

1543 Hot-Electron Transfer from Semiconductor Nanocrystals
W. A. Tisdale et al.
Extraction of highly excited electrons formed in a light-absorbing material may make solar cells more efficient.

1547 Crossover from Single-Step Tunneling to Multistep Hopping for Molecular Triplet Energy Transfer
J. Vuro-Weisz et al.
Ultrafast absorption spectroscopy reveals a change in mechanism when sites for electron transfer become more distant.

1550 Subpolar Link to the Emergence of the Modern Equatorial Pacific Cold Tongue
A. Martinez-Garcia et al.
The eastern Pacific Ocean cold tongue appeared as Earth’s climate cooled and subpolar waters expanded in the Pleistocene.
>> Perspective p. 1488; Research Article p. 1530

1554 Radiocarbon-Based Chronology for Dynastic Egypt
C. Bronk Ramsey et al.
Many radiocarbon dates from short-lived plant remains provide a long and accurate chronology for ancient Egypt.
>> Perspective p. 1489

1558 Evolutionary Novelty Is Concentrated at the Edge of Coral Species Distributions
A. F. Budd and J. M. Pandolfi
Caribbean coral morphology documents that most coral evolution did not occur at the center of diversity of a species’ range.

1561 Identification of Germline Stem Cells in the Ovary of the Teleost Medaka
S. Nakamura et al.
Ongoing follicle production is maintained by stem cells in an adult fish ovary.

1563 Down-Regulation of a Host MicroRNA by a Herpesvirus saimiri Noncoding RNA
D. Cazalla et al.
A viral noncoding RNA regulates the level of a complementary host-cell microRNA.
>> Perspective p. 1494; Research Article p. 1534

1566 MicroRNA-33 and the SREBP Host Genes Cooperate to Control Cholesterol Homeostasis
S. H. Najafi-Shoushtari et al.

1570 MiR-33 Contributes to the Regulation of Cholesterol Homeostasis
K. J. Rayner et al.
A small noncoding RNA helps regulate cholesterol levels in mice.
>> Perspective p. 1495

1573 Development of the Hippocampal Cognitive Map in Preweanling Rats
T. J. Wills et al.
Some aspects of spatial cognition develop very early and may be determined innately.

1576 Development of the Spatial Representation System in the Rat
R. F. Langston et al.
Space and direction are already represented in specific neurons when rat pups navigate a location for the first time.
>> Perspective p. 1487
SCIENCEEXPRESS
www.sciencexpress.org
Biocatalytic Asymmetric Synthesis of Chiral Amines from Ketones Applied to Sitagliptin Manufacture
C. K. Savile et al.
An engineered enzyme offers substantial efficiency advantages in the production-scale synthesis of a drug.
10.1126/science.1189934

Probing the Superfluid–to–Mott-Insulator Transition at the Single-Atom Level
W. S. Bakr et al.
Imaging of atoms that were optically trapped in lattice sites reveals local dynamics of a quantum phase transition.
10.1126/science.1192368

A Septin Diffusion Barrier at the Base of the Primary Cilium Maintains Ciliary Membrane Protein Distribution
Q. Hu et al.
Signaling proteins are retained in the cilium by a diffusion barrier created by a member of the septin family.
10.1126/science.1191054

Sfrp5 Is an Anti-Inflammatory Adipokine That Modulates Metabolic Dysfunction in Obesity
N. Ouchi et al.
Fat cells secrete an anti-inflammatory factor that has beneficial effects on metabolic health.
10.1126/science.1188280

Integrative Modeling Defines the Nova Splicing-Regulatory Network and Its Combinatorial Controls
C. Zhang et al.
Network modeling reveals an RNA splicing network in the brain and uncovers complex mechanisms of regulation.
10.1126/science.1191150

SCIENCENOW
www.sciencenow.org
Highlights From Our Daily News Coverage

Was the New World Settled Twice?
Analysis of ancient skulls suggests a wave of migration before the ancestors of today’s Native Americans.

Did a Deep Sea Once Cover Mars?
River deltas suggest a large, ancient ocean, but not all experts are convinced.

Better Rice Through Fungi
A bit of fungal cultivation helps rice plants grow up to five times as fast.

SCIENCE SIGNALING
www.sciencesignaling.org
The Signal Transduction Knowledge Environment

RESEARCH ARTICLE: Ablation of the Kinase NDR1 Predisposes Mice to the Development of T Cell Lymphoma
H. Cornils et al.
The kinase NDR1 functions as a haptolinsusufficient tumor suppressor by ensuring proper apoptotic responses.

PROTOCOL: Analysis of Matrix-Dependent Cell Migration with a Barrier Migration Assay
S. Kroening and M. Goppelt-Struebe
Removable plastic barriers allow quantification of cell migration without damaging either the surface proteins or the cells.

FUNDING SOURCES
Find opportunities to fund research and training in cell signaling.

GLOSSARY
Find out what ADPKD, CICR, and DHPR mean in cell signaling.

SCIENCECAREERS
www.sciencemag.org/career_magazine
Free Career Resources for Scientists

Changing Oceans: Viewing Coral Reefs Through a Cultural Lens
H. Fields
Human geographer Josh Cinner studies how people and coral reefs interact.
>>Changing Oceans section p. 1497

Tooling Up: Be the Candidate
D. Jensen
Your chances of finding a job improve if you are considered a candidate and not just an applicant.

Psychologist Bridges Clinic and Lab to Untangle Schizophrenia’s Roots
B. Vastag
Deanna Barch is developing neuroimaging tools to speed the development of schizophrenia treatments.

SCIENCE TRANSLATIONAL MEDICINE
www.sciencetranslationalmedicine.org
Integrating Medicine and Science

RESEARCH ARTICLE: RNA-Based Gene Therapy for HIV with Lentiviral Vector–Modified CD34+ Cells in Patients Undergoing Transplantation for AIDS-Related Lymphoma
D. L. DiGiusto et al.
PERSPECTIVE: Gene Therapy Takes a Cue from HAART—Combinatorial Antiviral Therapeutics Reach the Clinic
P. S. Shah and D. V. Schaffer
Therapeutic RNAs are stably expressed in blood cells of HIV-positive patients.

PERSPECTIVE: Stopping Sepsis by Targeting Sphingosine Kinase 1
L. A. J. O’Neill
A recent study suggests that inhibiting the enzyme sphingosine kinase 1 might have great potential as a therapy for sepsis.

SCIENCE PODCAST
