University Registration Statistics: PROFESSOR RUDOLF TOMBO, JR. 317
Summary of the Fifth Annual Report of the Carnegie Foundation 323
The Public Health Service 324
Scientific Notes and News 324
University and Educational News 325

Discussion and Correspondence:
The Air we breathe in Buildings: Dr. LUTHER H. GULICK.
"Mutations" of Waagen and "Mutations" of de Vries or "Rectigradations" of Osborn: Dr. HENRY FAIRFIELD OSBORN 326

Scientific Books:
Davenport on Inheritance of Characteristics in Domestic Fowl: Dr. RAYMOND PEARL.
Ganso's The Teaching Botanist: PROFESSOR FRANCIS ERNEST LOYD.
Erdmann's Lehrbuch der anorganischen Chemie: PROFESSOR E. RENOUF.
Folwell on Sewage: Dr. GEO. W. FULLER 328

Scientific Journals and Articles 334
The Fifth Annual Report of the President of the Carnegie Foundation: PROFESSOR J. MCKEEN CATTELL 334

Special Articles:
The Type of Columbina spitz: Dr. J. A. ALLEN.
Another Sex-limited Character in Fowls: A. H. STURTEVANT 336

The Forty-third General Meeting of the American Chemical Society and Section C: Dr. B. E. CURRY 338

The Chicago Academy of Sciences: WALLACE W. ATWOOD 352

Societies and Academies:
The Philosophical Society of Washington: R. L. FARIS.
The Geologists Society of Washington: ROBERT ANDERSON.
The Torrey Botanical Club: SERENO STETSON.
The New York Section of the American Chemical Society: C. M. JOYCE 353

MSS, intended for publication and books, etc., intended for review should be sent to the Editor of SCIENCE, Garrison-on-Hudson, N.Y.

UNIVERSITY REGISTRATION STATISTICS

The registration returns for November 1, 1910, of twenty-seven of the leading universities of the country will be found tabulated on the following page. Four institutions exhibit a decrease in the grand total enrollment this year, viz., Harvard, Iowa, Indiana and Virginia, as against four institutions in 1909, two in 1908 and five in 1907. The largest gains in terms of student units, including the summer session attendance, but deducting summer students who returned for work in the fall, were registered by Columbia (with an unprecedented increase of 1,279 students), California (674), Minnesota (621), Wisconsin (500), Chicago (396), Northwestern (346) and Pennsylvania (330). Last year there were also seven institutions that showed a gain of over three hundred students each, but only one (Columbia) that registered an increase of over four hundred students. Omitting the summer session attendance, the largest gains have been made by Columbia (796), Minnesota (621), California (496), Wisconsin (407), Northwestern (379), Nebraska (236) and Chicago (231), seven universities exhibiting an increase of over two hundred students in the fall attendance, as against eleven last year, and it will also be observed that only one of the seven is an eastern institution, whereas the eleven last year were fairly evenly divided between the east and the west.

According to the figures for 1909, the twenty-eight universities included in the table ranked as follows: Columbia, Harvard, Chicago, Michigan, Cornell, Pennsylvania, Illinois, Minnesota, Wisconsin,
Science 33 (844), 317-356.
