

# Disease Genes All Targeted

## Genomics Solutions

Whole Genome Sequencing  
Exome Sequencing  
Target Region Sequencing  
High-throughput Genotyping  
Metagenomics

RNA-Seq (Transcriptome/Quantification)  
Small RNA Sequencing  
Non-coding RNA Sequencing  
Degradome Sequencing

Whole Genome Bisulfite Sequencing  
MeDIP Sequencing  
ChIP Sequencing

## Targets

Causative Genes  
Gene Expression

Common & Rare Variants  
Epigenetic Regulation

Driver Mutations  
Metagenome
