Oakland University Vice Provost for Research

Oakland University (OU) is seeking an innovative and energetic academic leader to serve as Vice Provost for Research. Oakland University is recognized by the Carnegie Foundation as one of the nation's 82 doctoral/research universities. The university offers 134 bachelor's degree programs and 124 graduate degree and certificate programs. Dedicated to delivering a distinctive undergraduate experience to more than 19,000 students, complemented by the strength of its graduate offerings and research accomplishments, Oakland University is organized into the College of Arts and Sciences and the Schools of Business Administration, Education and Human Services, Engineering and Computer Science, Health Sciences, and Nursing, as well as the recently established Oakland University William Beaumont School of Medicine. See our web page at <http://www.oakland.edu>.

As the university's chief advocate for research, the selected individual will lead the development of a clear vision for research at OU, inclusive of all disciplines, including incentive programs to facilitate activities to enhance the research infrastructure of the institution and to raise the level of external funding. The Vice Provost for Research reports to the Provost and oversees the Office of Grants, Contracts and Sponsored Research which manages pre- and post-award processes as well as regulatory compliance activities to ensure the ethical and responsible conduct of research. The successful candidate will also be responsible for the further development and management of policies related to intellectual property and technology transfer. This individual will be expected to establish and cultivate relationships both within and outside the university in order to expand collaborations with industry and government, as well as educational and research institutions. This leader will be expected to foster inter- and multi-disciplinary research initiatives and to facilitate entrepreneurial opportunities.

Required Qualifications: The successful candidate must have an earned doctorate and academic accomplishments consistent with a tenured appointment at the university and evidence a passion for research. Additional expectations include: a strong record in the application for and management of externally funded grants and/or contracts; demonstrated leadership abilities; administrative/supervisory experience; ability to communicate and collaborate effectively with diverse internal and external constituencies; experience with research compliance issues; and, broad knowledge of research funding sources.

Applications/Nominations: Interested individuals should submit their curriculum vitae, a letter of application that describes how their qualifications and interests meet those of the position, and a list of five references with complete contact information (address, phone, email). References will not be contacted until late in the process. All material must be submitted electronically as a single pdf file to vpsearch@oakland.edu. Nominations should go to the same email address and should include the name and contact information for the nominee as well as a nomination statement. Review of applications will begin on March 1, 2011 and will continue until the position is filled. The appointment is anticipated to begin on or about August 15, 2011.

Locale: Rochester, Michigan is located twenty-five miles north of downtown Detroit in Oakland County. With a population of 75,000 residents and the characteristics of a small town, Rochester provides an excellent family environment. The Detroit metropolitan area has a population of over 3,000,000 residents and offers a wide diversity of cultural, sports, and entertainment activities.

Oakland University is an Equal Opportunity Employer and encourages applications from women and minorities.

POSTDOCTORAL FELLOWSHIP OPPORTUNITIES AT DUKE UNIVERSITY

The Duke Cancer Institute (DCI) at Duke University Medical Center invites applications for postdoctoral fellowships for an **NCI Cancer Education and Career Development Program** entitled *Integrating Population and Basic Science in Cancer Research*.

This three-year postdoctoral training program has a strong interdisciplinary focus in population science with a goal of training basic/experimental scientists who are interested in cancer research that spans laboratory and population sciences.

Duke University will recruit two candidates for this program during the next few months. Applications are now being accepted and reviewed, with the decision to be made by June 1, 2011, with an anticipated start date of August 15, 2011. The deadline for all candidate materials is **April 15, 2011**. Candidates must have a PhD or equivalent in basic cancer biology, pharmacology, genetics or related disciplines and be engaged in cancer research.

Applicants must be citizens of the United States, or have been lawfully admitted to the United States for permanent residence. Further information may be found on the DCI website (cancer.duke.edu/CECD). Candidates should send a letter describing their research interests (three-page maximum) and their Curriculum Vitae by e-mail to **Ms. Sydnee Crankshaw** (sydnee.crankshaw@duke.edu).

Duke University and Health System is an Equal Opportunity/Affirmative Action Employer.

Institut de Pharmacologie Moléculaire et Cellulaire, Sophia-Antipolis, France

Our research group has been recently awarded an ERC advanced grant. Through this prestigious program, we are seeking candidates for **two post doctoral (1 to 4 years), one PhD (3 years), and one technician (1 to 4 years) positions/fellowship**. Field: Remodeling of **cellular membranes** and sensors of membrane curvature. Approaches: **biochemistry, cell biology and/or molecular dynamics**.
