POSITIONS OPEN

ASSISTANT PROFESSORSHIPS

Integrative Ecology, Evolution, and/or Behavior

Princeton University's Department of Ecology and Evolutionary Biology plans to hire individuals at the level of tenure-track Assistant Professor. We have broad interests in ecology, evolution, behavior, functional biology, conservation biology, disease, and biogeochemistry; a common appreciation of theory, natural history, and evolutionary thinking unites the Department. We seek applicants who pursue research that aims for significant conceptual and/or empirical integration across traditional disciplinary boundaries and who have a strong commitment to teaching. It is possible that an appointment may be joint with the Princeton Environmental Institute, especially if the applicant's research focuses on problems of global or environmental change. Applicants should write a vision statement, no longer than two pages, that outlines the conceptual dimensions of one or more major unsolved problems in their field and how their approach will contribute to solving them. The vision statement should be more than a summary of the applicant's prior and current research.

Applications, including the vision statement, curriculum vitae, three reprints, and contact information for three references, should be addressed to **Simon Levin, Search Committee Chair**, and submitted online via website: <http://jobs.princeton.edu>. Screening of applications will begin September 12, 2011.

Princeton University is an Equal Opportunity Employer and complies with applicable EEO and Affirmative Action regulations.

MARINE ORGANISMAL BIOLOGIST

The Department of Biology at the College of the Holy Cross seeks a marine organismal biologist for appointment as a tenure-track **Assistant Professor** beginning August 2012. Candidates must demonstrate commitment to, and excellence in, undergraduate teaching as well as scholarly achievement, and propose a research program involving undergraduates. A Ph.D. is required at the time of appointment and postdoctoral experience is desirable.

This position carries a 3-2 teaching load. The appointee will be expected to develop an intermediate-level course in their area of expertise, to participate in the teaching and development of an introductory course centered on organismal biology, and to participate in other teaching in the department and college.

Applicants should submit a cover letter, statements describing research and teaching interests, curriculum vitae, official academic transcripts, publications, and three letters of recommendation by October 17, 2011 either electronically to e-mail: morg_bio@holycross.edu (preferred) or hard copy to: **Marine Organismal Biologist Search Committee (Ref. S), Department of Biology, College of the Holy Cross, Worcester MA 01610.**

For detailed information on the position and application procedure, please see the Biology Department's website: <http://academics.holycross.edu/biology/>.

The College of the Holy Cross (enrollment 2,900) is a highly selective Catholic liberal arts college in the Jesuit tradition located in a medium-sized city 45 miles west of Boston. It belongs to the Colleges of Worcester Consortium (website: <http://www.cowc.org>) and the New England Higher Education Recruitment Consortium (website: <http://www.newenglandherc.org/home>). *The College is an Equal Employment Opportunity Employer and complies with all Federal and Massachusetts laws concerning equal opportunity and affirmative action in the workplace.*

Tenure Track Faculty Appointment

As one of several new faculty hires over the next few years, a tenure track appointment is available in the Department of Biochemistry for autumn 2012. Areas of emphasis include protein and nucleic acids biochemistry, cellular function, metabolism, enzymology, signal transduction, and computational analysis. Preference will be given to applicants at the Assistant Professor level. A doctoral degree and strong record of research accomplishment are required. The successful candidate will join an interactive and diverse faculty, and will participate in campus-wide graduate training programs.

Deadline is **October 15, 2011**. Late applications will be considered if an opening is still available. Apply online at: <http://utah.peopleadmin.com/postings/7839>

The University of Utah values candidates who have experience working in settings with students from diverse backgrounds, and possess a strong commitment to improving access to higher education for historically underrepresented students. The University of Utah is an Equal Opportunity/Affirmative Action employer and educator. Minorities, women, and persons with disabilities are strongly encouraged to apply. Veteran's preference. Reasonable accommodations provided. For additional information: <http://www.regulations.utah.edu/humanResources/5-106.html>.

Challenging Science. Changing Lives.

Amylin Pharmaceuticals is a growing biopharmaceutical company committed to improving lives through the discovery, development and commercialization of innovative medicines.

We are seeking a Principal Investigator, Discovery Biology in San Diego, CA.

This is a great opportunity for a scientific project leader to expand existing technologies by being a part of Amylin's Discovery Research efforts in peptide and protein therapeutics. Requires: a Ph.D. in Molecular Biology, Biochemistry or related discipline; and experience in developing and implementing recombinant peptide expression methods.

For immediate consideration,
please apply online at:
www.amylin.com/careers

Amylin is proud to be an equal opportunity employer.
